March Program
“Birding Indonesia”- Fran Danis.
Have you ever wanted to go on a birding tour in another country? Fran Danis shares her dream come true with a presentation of her experiences birding on the islands of Bali, Borneo, and Sumatra. With expert local guides arranged by Ecolodges Indonesia, Fran saw over 200 species of birds and other wildlife in their natural habitats. Fran is a retired social work educator who enjoys the restorative power of birding. She’s not an expert ornithologist or a professional birding photographer but is happy to share her special vacation pictures with those who share her birding passion.

Come and see Fran’s presentation at our meeting on March 17th.
