Large-scale grants, such as NIH U- and P-series mechanisms, provide an opportunity for you to collaborate across disciplinary boundaries to tackle complex research problems. Developing a large-scale grant requires significant advanced planning, a compelling research vision, and a history of partnership among team members. To encourage the pursuit of large-scale grants, MICHR has developed a portfolio of support services that is available to research teams across the university.

To discuss how MICHR can provide personalized support for your large-scale grant, please contact us at MICHR-RDC@umich.edu.

**SUPPORT OPTIONS**

1. Strategic Input
2. Funding
3. Resources
4. Proposal Management
5. Grant Editing
6. Education
7. Research Jams
1. STRATEGIC INPUT
MICHR faculty and staff grant experts can help you conceptualize and refine a large-scale grant, advising on the overall research vision, coordination of projects and cores, study design, biostatistics, and potential collaborators.

2. FUNDING
MICHR’s $100,000 Accelerating Synergy Award positions your team to submit a competitive large-scale grant. Funding can be used to obtain preliminary data, publish with your collaborators, and secure resources for grant development.

LARGE-SCALE GRANT SUPPORT
WE CAN HELP WITH:

3. RESOURCES
MICHR grant experts can create tailored writing templates and provide reference materials and examples to guide you in developing and writing your large-scale grant.

4. PROPOSAL MANAGEMENT
We can create and manage timelines, checklists, and communication plans to improve the efficiency of the grant development process.

**LARGE-SCALE GRANT SUPPORT**

**WE CAN HELP WITH:**

5. **GRANT EDITING**

MICHR’s grant editors will review for logic, flow, and clarity of ideas across the various components of your large-scale grant.

6. **EDUCATION**

We can host informal roundtable discussions about the foundations of large-scale grants with interested faculty and staff.

Our large-scale grant services are ideal for teams who are responding to a specific funding opportunity announcement as well as for those in the earliest stages of research ideation and team building. We also regularly pilot new team science and research development offerings. The earlier you contact us, the more support we can provide along your journey to large-scale grant success.

7. RESEARCH JAMS

We create facilitated experiences that help you build collaborations and create shared research agendas. Research Jams can lay the groundwork for a future large-scale grant.
