Promoting Academics and Community Engagement (PACE) Dissemination Grant Funding Opportunity Announcement

Application Deadline: Friday, June 2, 2023, 11:59 p.m. EST

Purpose: Are you a community partner who recently completed a project in collaboration with an academic researcher? Are you an academic researcher who recently completed a study in collaboration with a community partner? If so, we invite you to apply for the Michigan Institute for Clinical and Health Research (MICHR) Promoting Academics and Community Engagement (PACE) dissemination grant. The goal of PACE dissemination grants is to share Community-Engaged Research (CEnR) results back to the community.

Background: MICHR is the home of the University of Michigan’s Clinical and Translational Science Award funded by the National Institutes of Health National Center for Advancing Translational Sciences (NCATS). The purpose of this grant is to support and promote the science of clinical and translational research, including CEnR.

Grant Details: For this grant opportunity, dissemination is defined as sharing information and research findings back to the communities of interest. To apply, applications must meet the following criteria:

1. Have completed an academic and community partnered research project
2. Have research findings/updates ready to be shared with the community
3. Include a dissemination plan to share results

The grant is not for partnerships that have not completed data collection or that are in the process of data analysis. Examples of dissemination plans that may be funded include, but are not limited to:

- Co-presenting findings at a local conference, community town hall or event
- Co-writing a booklet or pamphlet for community use
- Co-creating artwork that showcases the findings for community display
- Storytelling about findings through community channels
- Designing and implementing a local social media campaign
- Providing testimony to local policymakers

Funding: Applicants may request from $2,500 up to $5,000 for a six-month period (with project ending no later than December 31, 2023). Extensions will not be granted. Any funds remaining at the end of the grant period will not be available. Applicants will be notified of funding decisions in June.

Eligibility: Applications must have at least two partners: 1) an academic partner associated with a college, school, or university in the state of Michigan (not limited to those associated with the University of Michigan), and 2) a community partner associated with a non-academic community organization or group (e.g., non-profit, neighborhood coalition, faith-based organization).
Awardee Responsibilities: Awardees must attend an orientation meeting with MICHR staff. All funds must be spent within the six-month period. Awardees must provide a progress report at the end of the award. MICHR staff may request additional information beyond the funding period to measure the impact of the award and dissemination activities. Applicants may be invited to present at a Community Grand Rounds session where CEnR partnerships will share success stories from their work and are expected to present their work at a future MICHR statewide retreat.

MICHR Resources and Support: The MICHR Community Engagement (CE) program provides consultations, technical assistance, and educational training for academic and community partners interested in CEnR. Applicants interested in receiving guidance on their application are encouraged to request a consultation as soon as possible by contacting the MICHR CE Team.

Grant Preparation and Submission: Applicants must use the guidelines listed below to prepare their applications. Applications must be submitted using the UMMS Competition Space site. Forms for this funding opportunity can be found by logging into Competition Space and searching for the MICHR Promoting Academics and Community Engagement (PACE) Dissemination Grant.

NOTE: UMMS Competition Space requires a login and password to access the site. Applicants who are not part of the University of Michigan can sign up for an account by visiting the Competition Space homepage, clicking on “Login” in the top right corner, scrolling down to “Login for Other Users” and clicking on the “Register” button.

Application Guidelines

1. **Face Page:** Include an abstract in the space provided.

2. **Dissemination Plan:** A maximum of two pages (Arial 11, single-spaced, minimum of 0.5-inch margins) describing the partnership and proposed dissemination plan using the **headers bolded** below. Please use the following overall format and note the suggested page limits.

   - **Significance and Impact** (up to ½ page): Describe the specific health problem and/or research focus and its importance to the community involved. Describe the key research findings that will be disseminated and the dissemination goal.

   - **Partners** (up to ¼ page): Describe the partnership and previous experience that partners have conducting CEnR, dissemination, and/or other related expertise.

   - **Approach** (up to 1 page): Describe the specific activities to achieve the dissemination plan including a timeline. Include details about materials that will be created to share findings and how they will be shared with the community.

   - **Future Plans** (up to ¼ page): Describe how the community will benefit, plans for future work together, and/or advancement of the proposed work.
3. References: Not included in the page limit.

4. Regulatory Approval: Partnerships requesting funding for research that used human subjects are required to provide Institutional Review Board approval, if applicable, for funds to be released.

5. Budget and Justification: All budget items must be listed and justified. The following items are **not allowed** on the budget: course buy-out of more than 50% of the total proposed budget; equipment; computers; cost overruns; retroactive funding; grant preparation costs; renovations; or office supplies. This list is not inclusive, and applicants are encouraged to discuss allowable expenses with CE staff.

Items 2-5 must be combined into one PDF. Templates for the application’s face page, project plan, and budget are available on the UMMS Competition Space site.

**Additional Resources:**

- **Community-Centered Dissemination Toolkit**
  This toolkit was designed by the University of Minnesota Medical School Program in Health Disparities Research and Clinical and Translational Science Institute’s Community Engagement to help research teams incorporate community-engagement principles into dissemination.

- **Dissemination and Engagement Planning Checklist**
  This checklist is based on the Knowledge to Action Framework and provides guidance for translation of evidence-based programs, practices, or policies.
