

HEARTLAND EXPRESS FUEL SURCHARGE ADDENDUM

The following formula will be used to calculate weekly fuel surcharge:

$$\frac{\text{*D.O.E. WEEKLY AVERAGE INDEX minus BASE PRICE}}{\text{FLEET AVERAGE MILES PER GALLON}}$$

- Loads originating in the states of Arizona, California, New Mexico, Colorado, Idaho, Montana, Utah, Nevada, Oregon, Wyoming, and Washington will use the average of the D.O.E. West Coast Average and the D.O.E. California Average.
- Loads originating in all other states will use the D.O.E. U.S. National Average.

EXAMPLE: WEEK OF 1/2/08: $\frac{\$3.345 - \$1.10}{5 \text{ MILES/GALLON}} = \$0.44/\text{MILE}$

SCALE WITH BASE PRICE: \$1.10/GALLON
