This course examines issues in contemporary international politics and considers various ways of thinking about international politics. Using recent disputes from international law, international security, and international political economy, it examines both the cases and the conceptual framing that makes them possible. This involves thinking in theoretical, practical, and historical ways about politics, economics, and social theory with a global perspective.

**Required Texts**

Ian Hurd, *International Organizations: Politics, Law Practice* (Cambridge University Press 2nd ed. 2013).

Jonathan Katz, *The Big Truck that Went By: How the World Came to Save Haiti and Left Behind a Disaster* (Palgrave 2013).

All other readings will be online or distributed in class.

**Assignments**

Mid-term Exam	40%
Final Exam	40%
Participation in Sections	20%
