The Sebaceous Gland in Skin Immunity and Host Defense
Tamia A. Harris-Tryon, MD, PhD

Assistant Professor
Department of Dermatology
UT Southwestern Medical Center

Dr. Harris-Tryon is a physician-scientist. She earned her combined medical and doctoral degree in cellular and molecular medicine at The Johns Hopkins School of Medicine and completed a residency in dermatology at The Johns Hopkins Hospital. Certified by the American Board of Dermatology, she joined the UT Southwestern faculty in 2014. She completed her postdoctoral training at UT Southwestern in the lab of Lora Hooper, Ph.D. Dr. Harris-Tryon’s research focuses on the organisms that reside on the surface of the skin - collectively termed the “microbiota” - and how they impact the skin’s immune system. Her work is supported by the Burroughs Wellcome Fund, the Robert Wood Johnson Foundation, the National Institutes of Health and UT Southwestern. She is the recipient of the 2019 American Academy of Dermatology Young Investigators Award.

Please join Dr. Harris-Tryon for her seminar and a discussion of her career as a physician-scientist.
