Council Comment & Agency Response

Definition of Undertaking

36 CFR 800.16(y)

➤ Undertaking means a project, activity, or program funded in whole or in part under the direct or indirect jurisdiction of a Federal agency, including those carried out by or on behalf of a Federal agency; those carried out with Federal financial assistance and those requiring a Federal permit, license or approval.

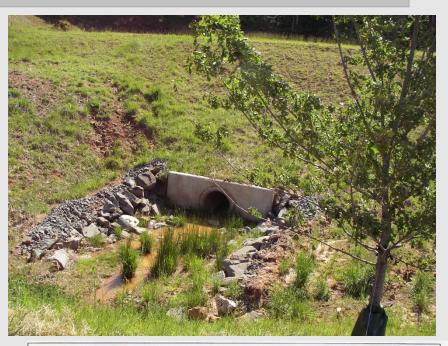

33 CFR 325 (Appendix C 1(f))

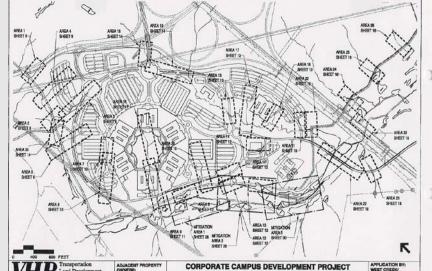

- The term "undertaking" as used in this appendix means the work, structure or discharge that requires a Department of the Army permit pursuant to the Corps regulations at 33 CFR 320-334.
- The Corps determines the undertaking!

Undertaking Examples

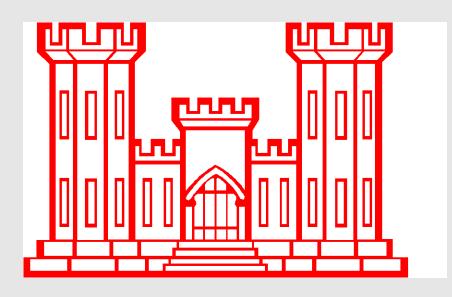

Permit Area (Area of Potential Effects) 33 CFR 325 (Appendix C 1(g))

Permit Area means those areas comprising the waters of the United States that will be directly affected by the proposed work or structures AND UPLANDS directly affected as a result of authorizing the work or structures. The following three tests must all be satisfied for an activity undertaken outside the waters of the United States to be included within the "permit area":

- (i)...activity would not occur but for the authorization of the work or structures within WOUS ('but for' clause MUST not be used in isolation!)
- (ii)...activity must be integrally related to the work or structures to be authorized within WOUS. OR...the work or structures authorized must be essential to the completeness of the overall project and program.
- (iii) ...activity must be directly associated (first order impact) with the work or structures to be authorized.

WHO Determines Permit Area?

The Corps is ALWAYS ultimately responsible

Corps can seek views of SHPO/THPO

Parties may opine:

- ACHP
- Tribes
- Consulting Parties
- Applicants

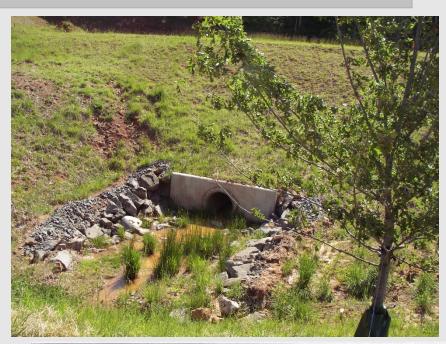

Permit Area Examples

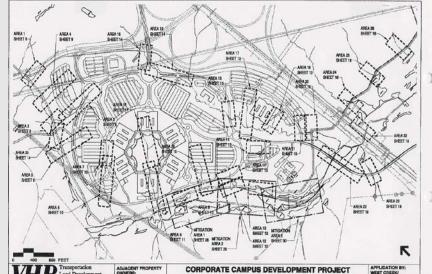

Permit Area Examples

Permit Area Examples

Dredged material disposal

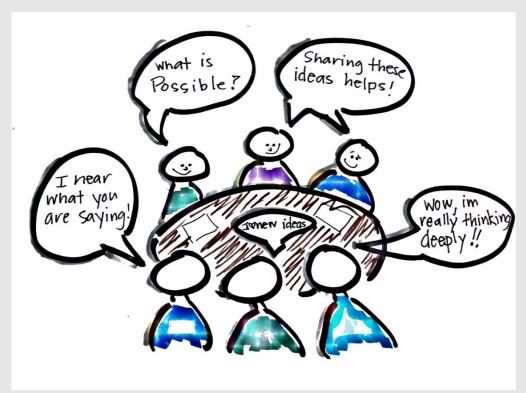

Wetland/Stream Mitigation

Consulting Parties

- VDHR (State Historic Preservation Officer)
- THPO (Tribal Historic Preservation Officer)
- Tribes
- Permit applicant
- Local government representatives
- Parties with demonstrated interest, at agency's discretion (Historic Preservation Groups, etc.)

Effects Assessments Time Frames

 No historic properties affected (No Effect): 30day SHPO review (no objection)

 No adverse effect: 30-day SHPO and consulting party review (no objection)

 Adverse effect: no specified timeframes- must consult

Norfolk District Regulatory Programmatic Agreement

- 1996 Programmatic Agreement with VDHR & ACHP
- SOP and Programmatic Streamlined Activity list (updated as needed)
- Review of VCRIS data/viewshed impacts
- Consideration of type of activity and extent of federal handle
- Streamlining process

Norfolk District Regulatory Section 106 Coordination Procedures

Appendix C ACHP Participation

No historic properties affected: If SHPO has no objection, do not need to consult ACHP.

No adverse effect: If SHPO and consulting parties have no objection, do not need to consult ACHP.

Adverse effect: Need to notify ACHP to determine participation.

Appendix C ACHP Participation

- Disagreement with SHPO or consulting parties could result in ACHP reviewing determination, and providing its opinion.
- ACHP may provide its opinion to the district engineer, or the Office of Assistant Secretary of the Army (Civil Works) (OASA(CW)).
- District engineer (or OASA(CW)) considers ACHP's opinion, which is advisory in nature.
- District engineer makes final decision.

Appendix C ACHP Participation- Adverse Effects

 Corps must notify ACHP and provide complete documentation (800.11(e))

Electronic Document Submittal is available "e106 Form" (http://www.achp.gov/docs/e106-notice-of-availability.pdf)

- ACHP has 15 days to determine participation (if meets criteria in Appendix A of 800 regs)
- MUST invite ACHP to participate if adverse effect to a National Historic Landmark

Resolution of Adverse Effects

 Actions taken that reduce or compensate for the damage an undertaking has on historic properties.

 Consulting parties seek ways to avoid, minimize of mitigate the adverse effects.

Memorandum of Agreement

Resolution of Adverse Effects

Avoidance/Minimization examples:

- limiting the magnitude of the undertaking
- re-designing the project

Mitigation examples:

- rehabilitation or repairing a structure
- documentation & public interpretation
- relocation of historic property
- screening of visual effects
- data recovery of archeological sites
- preservation of an historic property

Final mitigation is very project-specific and depends on what is agreed to by the consulting parties; especially, the signatory parties. No ratios or banks like wetland mitigation.

Memorandum of Agreement (MOA)

- The agreement resulting from consultation that states measures the federal agency will take to avoid or reduce effects on historic properties.
- MOA's are normally signed by the Corps, SHPO, and applicant. ACHP may sign if they participate in consultation (signatory parties).
- Once all signatories sign, an MOA is considered fully executed.
- Other consulting parties may be invited signatories or sign as concurring parties.

Memorandum of Agreement (MOA) Compliance

- Section 106 is complete once the MOA is executed by all signatories.
- If ACHP did not participate, the Corps must provide a copy of the MOA to ACHP before issuing permit.
- The terms of the MOA are likely to require compliance for survey work, documentation, review of reports, etc.

National Historic Landmarks

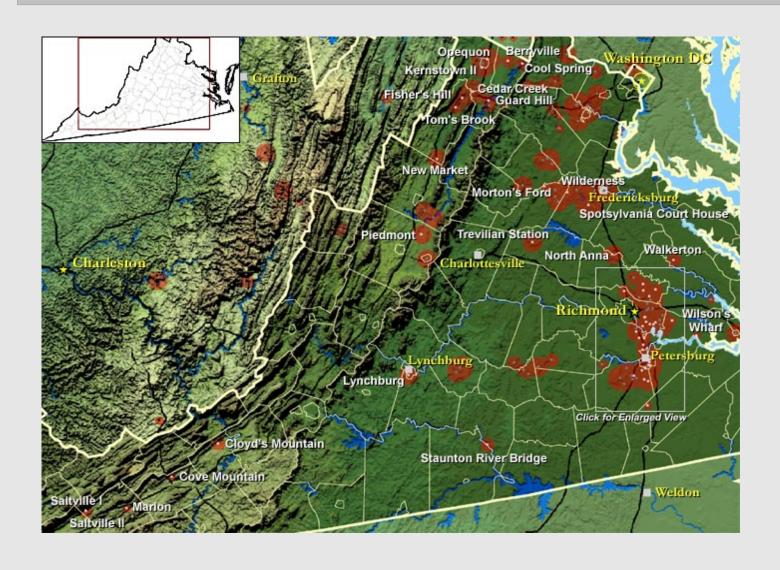

National Historic Landmarks

Special Procedures:

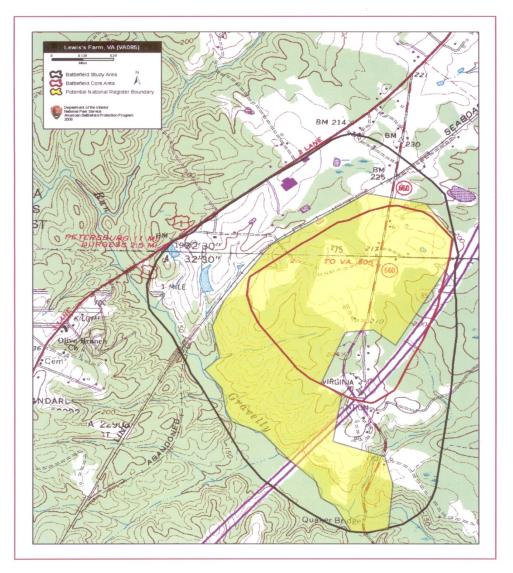

- Section 110(f) of NHPA
- Must request ACHP participation to resolve adverse effects
- Must notify Secretary of the Interior (acting through National Park Service)
- ACHP, if participating, must report outcome to Secretary and OASA(CW)

Battlefields

Battlefields- Key Terms

- Study Area: represents the historic extent of the battle as it unfolded across the landscape. Includes approach/retreat routes, assembly areas, command centers, hospital locations, etc.
- Core Area: represents those areas of the field where fighting actually occurred.
- The limits of the **Study and Core Areas** are based on the interpretation of historic events.
- Potential National Register Boundary: represents the ABPP's
 assessment of those portions of a battlefield which currently
 retain good condition and integrity (i.e. surviving landscape and
 associated features that still convey the site's historic sense of
 place).
- Depending on the battlefield's location and the amount of modern development that has occurred, the NRHP Boundary may include some or all of the study and/or core areas.

Update to the Civil War Sites Advisory Commission Report on the Nation's Civil War Battlefields Final DRAFT - Commonwealth of Virginia

Termination and Foreclosure

<u>Termination</u>: non-productive consultation may be terminated by Corps, SHPO/THPO or ACHP

Foreclosure: Corps "forecloses" ACHP opportunity to comment- when agency fails to complete requirements of Section 106 prior to approval of an undertaking.
