

PROFILE

I am a curious and open-minded person that enjoys working in multidisciplinary environments, dynamic teams and finding the right balance of crafting with hands, head and heart. Design is a fascinating field, because it never stops challenging me, it empowers us as designers to shape the future and gives us the responsibility for this future.

EDUCATION | EXPERIENCE

01/2015 - 12/2015

Copenhagen Institute of Interaction Design | Graduate

Participant of the Interaction Design Programme.
