LaGrange County Lakes Council  
May 24, 3018  
7:00 p.m.  
LaGrange County Commissioners Room

Steve Scott-Welty called the meeting to order at 7:05 p.m.

Treasurer’s Report – No report, Meredith was not present and nobody heard from him.

Steve Scott-Welty asked what we planned to do with our organization. Discussion followed.

One in attendance asked for suggestions as his neighbor has put in pavement grindings, on his steep lane down to the lake, and is talking of putting in a concrete slab. It was stated that this is making a muddy mess of the lake. Suggestions: IDEM – 317-233-2482, Heather Parsons – hparsons@idem.in.gov  
Army Corp of Engineers, LaGrange County Solid Waste-Pat Wilshire-260-437-0258

Water levels are rising on Westler and Michiana Fish Lakes. McClish put up a radar sign in an effort to slow people down. Henry Wesdorp has been working on a LARE grant, he states it is very tedious and time consuming.

Steven Scott Welty will call Dave Arrington about the spring water test results.

The water quality testing class was discussed, information was passed around.

Steve Scott-Welty said go ahead with the newsletter.

We are still in need of a President of the Council

Motion to adjourn by Steve Scott-Welty at 8:25 p.m.  
Next meeting is June 28, 2018, at 7:00 p.m  
Respectfully submitted by Sandy Ferrell.
