

Welcome to Physics (2016-17)

You will need following material to support learning in this class:

1. A 2-subject notebook
2. Lab notebook
(Does not have to be expensive lab notebook. Any non-spiral, wireless, “composition” notebook will be fine. Center-sewn stitching in such notebooks keeps pages permanently fastened.)
3. 3 ring binder
4. Stretchable book cover
5. Protractor and ruler
6. Calculator (Calculator used in your Math course will be fine.)
