POND

COMMITMENT TO
DEVELOPING NEW
PROJECTS

WHAT DO WE WANT TO ACHIEVE?

CULTURE

We love our team and the culture is a vital component to us. We want to encourage new ideas & growth.

PROJECTS

We're focusing on adding major projects to our portfolio. These will be happening in 2017.

PEOPLE

We want to work with like minded people who share our passion for the environment & food sustainability.

WHAT PROBLEM ARE WE SOLVING?

Challenges & Changes

A majority of the work that we are under taking requires skilled volunteers. We are looking to add to our team to meet the demands of our new projects. We also need to establish our presence in the community, and work on fundraising & grant funding.

WHO'S ON THE BOARD?

CONFIRMATION & NOMINATIONS

FINANCIAL REVIEW

The things that matter.

A photograph of a market stall with various fresh vegetables. In the foreground, there are several large bell peppers, some yellow and some orange. Behind them, there are bunches of carrots and several green plastic baskets filled with strawberries. The stall is set up on a wooden table. In the background, the open back of a dark-colored van is visible, suggesting a mobile market or farm stand. The overall scene is brightly lit, likely outdoors during the day.

QUESTIONS & MEMBER PARTICIPATION

SEE YOU NEXT YEAR

THANK YOU
