I left feeling connected to a larger cause, more powerful as a part of a global team, and proud to serve the Jesuit and Ignatian mission.

As a non-Christian, these spaces can sometimes feel awkward, but the Institute was immediately warm, accepting and receptive to challenging conversations with a diverse group of people committed to their institutions.

The Institute is aimed at faculty and administrators who demonstrate strong leadership potential and a commitment to the Jesuit and Catholic mission of their institutions. Past participants have included provosts, vice presidents, deans, faculty and directors. The Institute welcomes participants from all backgrounds, cultures, faith traditions and beliefs.

"[The Institute provided] an opportunity to revisit and deepen my understanding of Ignatian spirituality and pedagogy, and then apply it to my work with students and colleagues."
