

**CARDIAC ELECTROPHYSIOLOGY SOCIETY
ANNUAL MEETING
Thursday, May 10, 2018**

The Cardiac Conduction System

10:30-10:40 Annual Business Meeting Anne B. Curtis MD, President
Mario Delmar, MD, PhD, Vice President
Charles Antzelevitch, PhD, Secretary-Treasurer

10:40-11:20 Gordon K. Moe Lecture: Transcriptional Control of Ion Channel Function
Glenn I. Fishman, MD, New York University, New York, NY

Session I

Co-chairs: Mario Delmar, MD, PhD and Marc Vos, PhD

11:20-11:40 Factors Controlling the Development of the Cardiac Conduction System
Ivan Moskowitz, MD, PhD, University of Chicago, Chicago, IL

11:40-12:00 Chronic AV Block and Remodeling
MA Vos, PhD, Utrecht, The Netherlands

12:00-2:00 CES Members Luncheon, Posters and Young Investigator Award Competition

Session II

Co-chairs: Anne B. Curtis, MD and Charles Berul, MD

2:00-2:20 Does Conduction Impairment and Structural Disease Play a Major Role in the Pathogenesis of Brugada Syndrome?"
Josep Brugada, MD, Barcelona, Spain

2:20-2:40 Inheritable Causes of Conduction System Disease
Charles I. Berul, MD, Children's National Health System, Washington, DC (Alt: Congenital Heart Disease and the Anatomy of the Cardiac Cond. System: Jamil A. Aboulhosn, MD, UCLA)

2:40-3:00 Acquired Atrioventricular Block
Demosthenes G. Kastritsis MD, PhD, London, UK and Athens, Greece

3:00-3:20 Physiologic Pacing: Which is the Best Approach?
Kenneth A. Ellenbogen, MD, Virginia Commonwealth University Health System, Richmond, VA (Alt: Richard G. Trohman, MD, Rush University Medical Center, Chicago, IL)

3:20-3:30 The Last Word. Glenn Fishman, MD
