Technical

Apple QuickTime .mov (preferred)

Computer .mov or mp4 (preferred)

Available in Blu-ray disc

Standard-Definition DVD also available. (High-definition playback via computer or Blu-ray Disc is preferred but the film is also available in the standard-definition DVD format for venues unable to support high-definition.)

Audio Notes

Sound is critical to presenting this film. An appropriate sound system for the size of the room and the audience attending, with the ability to accept a stereo connection from the playback source, and reproduce the sound track at appropriate loudness levels and hi-fidelity quality is ideal.
