Ann,
I dug back through e-mails and found it in my sent box. It is below, along with the email that Harreld first sent me.

Dear Bruce,

Thank you so much for coming and talking with us. I genuinely enjoyed our conversation. Your experience in changing organizational cultures to embrace innovation is fascinating, and it was great to hear your ideas about moving higher education forward.

I am proud of our faculty and our institution. I hope you are right that we will attract a great leader. Would you be willing to talk further about the kind of person we might look for? Is it something you would ever consider?

In the meantime, and apropos of our hallway conversation about the patent system, I thought I might send you my co-authored book on fostering innovation. If you are interested, could you send me your mailing address?

Thanks again. I hope we can be in touch again soon.

Christina Bohannon
Professor of Law
Lauridsen Family Fellow in Law
President, UI Faculty Senate
