Here's the statement to go out this afternoon. If asked about the dinner, I will emphasize Harreld requested the meeting, and he was obviously reaching out to learn about higher Ed in Iowa.

Jeneane and John-

Attached is a draft of the release that we plan to send out at 3 pm today, along with the emails. It will go to those who have made Open Records requests and we do not plan to release it widely, but will send out after that if asked.

Let me know if you have any questions.

**Subject:** Mention of your dinner

Steve ---

The initial Gazette and AP stories about the Herralld meetings with regents July 30 note your dinner with him, but don't raise any questions about it. The stories note that Herralld requested the meetings. I have not had any media calls.

Bruce,  
We enjoyed our evening. UI is a challenging but excellent opportunity. You would not be interested without the challenge!

Let me know how I can help.

Steve,

It was a pleasure meeting you last evening. I especially appreciated your candor and insights on Iowa, UI, and the process of assuming the mantel of leadership. Please let me know if I can ever reciprocate in any way. Finally, you should be quite proud of the impact you are having at ISU ... keep it up!

Most importantly, please let Janet know I enjoyed meeting her. She seems to be thoroughly enjoying life in Ames.

All the best,

Bruce

Enclosed is the Gazette coverage of the new U of Iowa president, minus some photos. Toward the end, faculty member Katherine Tachau refers to \$48 million. It's the difference between the general operating appropriation for Iowa and Iowa State that I have tried to get some media to understand.
