

## KREBS' SKOLE

### Current Scale (english version)

Starting with the academic year 2005 – 2006, a new scale was introduced, 7-trins-skalaen (“7-step-scale”; colloquially dubbed the 12-scale), designed to be compatible with the ECTS-scale:

Grade	Description	Equivalents				
		13-scale	ECTS	U.S.	UK	
12	<i>excellent</i>	high level of command of all aspects – none or only a few minor weaknesses	11 / 13	A	A+, A	1st
10	<i>very good</i>	high level of command of most aspects – only minor weaknesses	10	B	A-, B+	2 : 1
07	<i>good</i>	good command – some weaknesses	8 / 9	C	B	2 : 2
04	<i>fair</i>	some command – some major weaknesses	7	D	B-, C+	3rd
02	<i>adequate</i>	the minimum requirements for acceptance	6	E	C	Pass
00	<i>inadequate</i>	does not meet the minimum requirements for acceptance	3 / 5	Fx	D	Fail
-3	<i>unacceptable</i>	unacceptable in all respects	00	F	F	Fail

The leading 0 in 00 and 02 is used to prevent fraud with grades.

Furthermore, Undervisningsministeriet (the Ministry of Education) will adapt to a more international way of grading, by handing out a set number of grades per class. This is because in other countries, the grade A (12) is given twice as often as it is in Denmark (because of strict grading on absolute standards).
