“Spellbinding.” - *THE FADER*

“The looped vocals and synths evoke the ecstatic feeling that comes with finding a new love.” - *Nylon*

Ruby The RabbitFoot is beyond excited for this week’s release of her stunning new record, *Divorce Party*, out **August 12th** on New West Records’ imprint **Normaltown Records**. Today, you can stream the record in full via *Stereogum*, who write that Ruby “unabashedly captures the full gamut of emotions that comes with moving past a soul-stirring love.” Produced by **Andy LeMaster** (Bright Eyes, Azure Ray) and inspired by intense heartbreak, the record is a celebration of life after loss, and the creative renewal that comes from finding light amongst the darkness. *Divorce Party* has been receiving advance praise from the likes of *Nylon* and *THE FADER*, who lauded the single “Beach Flowers” as “**spellbinding**.” Ruby The RabbitFoot is about to embark upon a national tour, with select dates in August and ones with of Montreal in September. All upcoming dates are listed below.

For *Divorce Party*, Ruby immersed herself deeply into pop music and hip-hop, listening constantly to everything from Beyoncé to Taylor Swift and Fiona Apple. Ruby took the songs down to Athens, Georgia with LeMaster, working with an innovative goal in mind and a new, playful approach to composition, a departure from the more indie folk-pop of her previous two

albums. “I wanted more of a pop-sounding record,” she says. “I’m a songwriter first and foremost, and I think in the past it's been my nature to pick up the guitar. But I love pop music, rap and R&B. So I had a heavier hand and vision in the style I wanted this time. I learned how to make beats, and learned so much from working with Andy. He has the same love of pop music, and is fearless.”

That playful love is clear in other album standouts like “**Faucet Love**” and “**Ancil**” as well, which both manage to be stirring and addictive, melding the stickiness of a pop record with experimentation – via unexpected horns or skittish rhythm - that could only be tackled by someone who knows no real boundaries. And then there are also moments like “**Wish**,” with a slow-burned eighties vibe, that puts on full display the complexities within her vocal range. On “**I Hate You**,” Ruby marries beats and an upbeat melody with some deeply cutting lyrics.

“I want this to be a soundtrack for anyone going through a transition,” Ruby says of ***Divorce Party***. “Even though there's this connotation of disruption and heartbreak, divorce parties have a celebratory energy. Every person that we love teaches us, so when it's time to part ways I think it's beautiful to appreciate everything we've gained from the experience. I wrote these songs in a period of separation from a love. I want to release them into the world as a celebration of all that I learned during that time. It's my ***Divorce Party!***”
