

### REPAIR

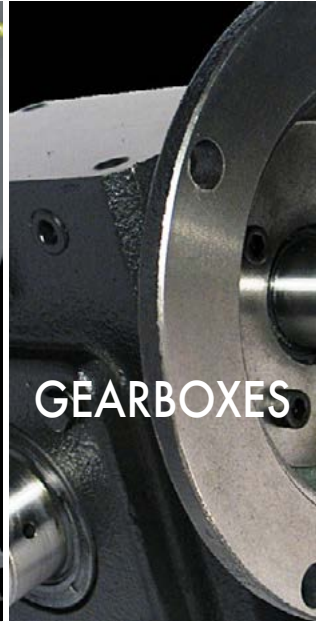

### MOTORS

### PUMPS

### CONTROLS

### GEARBOXES

#### MOTOR REBUILDS

- Most makes and sizes.
- On-site tech help when needed.
- Fair and accurate estimate
- Reassembly to "like new" operating condition.

#### PUMP REBUILDS

- Comprehensive on or off-site pumping system repair.
- Broad experience with industrial and commercial applications, including mechanical seals.

#### PICK-UP AND DELIVERY

- Ability to transport heavy systems.
- Best equipment and vehicles needed to execute fast repairs.

#### PEAK INVENTORY

- Diverse parts supply to expedite repairs faster.
- New motors from today's major manufacturers.
- Networked for access to custom engineered components
- Quick sourcing of domestic and metric motor parts.

#### 3 PHASE PREMIUM AND GENERAL PURPOSE MOTORS

- T-Frame motors - powerful solutions with exceptional durability.
- Optimized performance to meet efficiency standards.

#### SPECIAL APPLICATIONS MOTORS

- Pump Motors, Crusher Duty Motors, IEEE-841 Hazardous Motors, Explosion Proof Motors, Metric Motors, and Vertical Hollow Shelf Motors

#### HVAC, FRACTIONAL AND FARM DUTY MOTORS

- We match the correct motor to restart your operation ASAP.

#### CENTRIFUGAL PUMPS

- Submersible Pumps, Multi-stage Pumps, End-suction Pumps, Splitcase Pumps, Close-coupled Pumps and Self-priming Pumps.

#### POSITIVE DISPLACEMENT

- Large knowledge base of Diaphragm Pumps, Screw Pumps, Gear Pumps, Lobe Pumps, Piston Pumps, and many others.

#### VACUUM PUMPS

- Local Vermont maple and dairy industries use vacuum pumps in the most demanding situations.
- Consistent operation in any weather can be accomplished through quick, local product and repair availability.

#### PUMP PARTS

- Large in-stock selection of Seal Kits, Bearings, Cast Iron Parts, impellers, Sleeves, Gaskets, Bearing Isolators, fast sourcing, and much more.

#### VFDS

- Compatible drives with flexible adjustments for a long list of machines.
- For most Industrial and commercial applications

#### VFD PACKAGES

- Wide array of packages
- NEMA 3R enclosure, heavy duty construction, start/stop pushbuttons, hoods, ventilation, filters, true phase loss protection that trips within seconds, and three-phase or single-phase input

#### SOFT STARTS

- Reducing your voltage for your industrial facility
- We size the appropriate application
- Take advantage of energy savings.

#### ACROSS THE LINE

- Wide range of motor starters/protectors
- Experienced staff will help match cross and deliver the right product for your job.

#### WORM GEAR REDUCERS

- Many box sizes and ratios
- Knowledge and resources to match specific requirements for demanding installations.

#### INLINE

- Inline Helical Gear Reducers.
- All cast iron housings for strength and reliability.
- Range of horsepower and ratios
- European-produced brands.

#### ALUMINUM WORM GEARS

- When the environment requires aluminum
- Many box sizes with a hardened worm shaft for increased durability.
- Light weight.

#### SHAFT MOUNT

- Premium quality ball and tapered bearings and double lip seals, shafts and gears manufactured from high grade steel, case hardened and precision ground to AGMA standards.
- Drop-in for all major makes.
