

Weil, Gotshal, and Manges LLP
Redwood Shores, CA

With guidance from managing partners and administrators, identified locations, selected, commissioned and installed over 100 original artworks spanning 3 floors for the Silicon Valley headquarters. Artworks included original paintings, works on paper, sculpture, video and photography that complemented the contemporary design and the law firm's technology and biotechnology clientele. Assessed and relocated some existing art from prior location. Installed identifying labels next to each artwork.
