

jigsaw puzzle

Krabbers

Key of C

C

To keep myself out of trouble

F

I bought myself a jigsaw puzzle

C

G

just ten pence from my local charity shop

C

on the top was a painting of ducks and geeses

F

a puzzle of one thousand pieces

C

G

C

at least that's what was printed on the box

I couldn't wait to get it started
so I spread it out across the carpet
finding all four corners straight away
separated the blue bits for the sky
and all the straight bits for the sides
I thought well that's me sorted for the day

I found some feathers, wings and feet
I found some flowers and couple of beaks
and water flowing gently over rocks
I worked right through till it was late
the puzzle started taking shape
exactly like the picture on the box

almost done just one more bit
but I could find no sign of it
the last piece lost a puzzlers greatest fear
then I found a note on the back of the box
have fun but please note one bit lost
with head in hands I almost shed a tear

F

C

oh why is always the last piece missing

F

G

why can you not not find it from the start

F

C

this is a jigsaw puzzlers dilemma
