

## DRAW ON MY BACK CHALLENGE

Here is a game for two people. If there are more than two people you can play in teams or a line one behind the other. So let's have some fun and see if you can copy what's being drawn on a piece of paper on your back.

You will need some paper and pens/pencils and some tape or a clip to attach a piece of paper onto yours or another person's back.

One person attaches a piece of paper onto their back. Then the person behind you draws something onto the piece of paper on your back and you have to see if you can feel what they are drawing and then draw it onto your piece of paper. Draw one bit of the picture on the back first and then wait for the person with the paper on their back to see if they can copy that bit onto their paper by how it feels. Then draw the next bit and so on until you have finished your picture. When you have finished take the drawing off the persons back and compare the pictures. Do they look the same?

Below is a link showing how it can be done.
