Emergency Lighting Inverters
Presented by Steven Surges
Northern Regional Sales Manager, Myers Emergency Power Systems

As the use of LED lighting continues to advance and rapidly grow, so does the use of lighting inverters on projects. This lunchtime meeting will focus on the uses and advantages of the emergency lighting technology including how to appropriately size inverters for specific projects and an overview of applications using inverter technology today.
This course qualifies for one (1) AIA credit.

Tuesday March 26, 2019
12:00 Noon - 1:00 PM
Rick’s Prime Rib ~ 898 Buffalo Road ~ Rochester, NY 14624
$30 - Includes Lunch
