

PROGRAM TIMELINE

* Build Project with final budgets of less than \$500,000 will be installed within an 18-month timeframe. City staff will determine final project feasibility, scopes, and budgets. Build Projects that exceed available City resources may be selected to pursue regional, statewide, and federal grant opportunities in partnership with the City of Los Angeles. Technical consultants and the City will work with Community Partners to develop and write grant proposals for selected projects and proposals.
