

McMurdo PLB Range

The McMurdo range of PLBs are designed to be carried by individuals as a last resort safeguard against any life threatening incidents that may occur anywhere in the world. Whether alone or within a group, on holiday, at work, carrying out your sport or hobby, if you ever find yourself in a remote area, land or sea, without any other form of communication, a Fastfind PLB comes into its own. Once activated it transmits a unique identification signal via the international search and rescue satellite system operated by COSPAS SARSAT on 406 MHz. The signal is then quickly passed to regional search and rescue authorities who can rapidly get to the scene.

The PLBs both use a discreet antenna deployment system with a simple three-stage manual operation technique to prevent any risk of accidental or false activation. In its stored state, the antenna is completely hidden from view and fully protected against rough handling. Once deployed, the antenna automatically springs into the optimum position ready for use.

Fastfind PLB's use the same advanced technology as McMurdo EPRIBs, miniaturised into a compact and rugged, palm sized unit. They are designed to withstand the harshest of environments while still being extremely easy to operate and small enough to carry with you at all times.

Fast Find 220 PLB

The FAST FIND 220 PLB uses advanced technology packed into a simple, lightweight, palm sized unit. Using the dedicated 406MHz frequency, Fast Find 220 transmits your unique ID and precise GPS location to the global network of search and rescue satellites within minutes. Rescuers are alerted to your situation, and Fast Find 220 sends them regular updates on your position. Finally, emergency services can home in on your beacon's 121.5MHz transmission to find you.

- Mini size, MIGHTY 406MHz emergency signal with GPS
- Minimum of 24 hours continuous operation
- Simple design, easy to use
- 6 year battery life
- No subscription or call charges
- Floats with buoyancy pouch
- Waterproof to 10m
- SOS morse LED
- Safe-stow antenna
- Self test both the battery and GPS

Fastfind 220 with integral 50 channel GPS

Flotation pouch, lanyard and universal pouch included
