Tank Type	Size in Gallons	Tank Material	Type of Drainfield	Comment
Septic Tank #1				
Septic Tanks #2				
Grey Water Tank				
Black Water Tank				
Black/Grey Water Tank				

SYSTEM CHECK POINTS	YES	NO	UNKNOWN	N/A
*(An answer of "No" indicates a deficiency for the following):				
Was the tank pumped at this inspection?				
Is the tank in good condition?				
Is the tank lid(s) buried or secured?				
If there is an alarm system, is the alarm system working?				
If there is a pump system, is the float and pump working properly?				
If there is an ATU System, is it functioning properly?				
If there is an ATU system, is there an ATU lifetime maintenance agreement in place and is it transferable?				
*(An answer of "Yes" indicates a deficiency for the following):				
Does the tank baffles or tees need to be replaced?				
Does the tank lid(s) need repair?				
Does the system appear to consist of a seepage pit, cesspool, drywell, or leach pit?				
Is the drainfield surfacing?				
Is sewage draining to surface water?				
Did effluent drain back at a steady rate into tank after the tank was pumped?				
If an ATU System, do filters, pumps, sensors or other equip need to be replaced?				
Is there a constant stream of water coming into tank from house or other structure?
