To Meade county Planning and Zoning:

Larry Fuss would like to update you on the current status of the re-plating of the Fuss subdivision, Black Hawk.

My original plan was to have re-plating completed by this date and, believe me, nobody would like it to be complete more than I, but it is not and the reason is as follows:

The recent aquisitioning of additional property adjoining the Fuss subdivision. One being the Pengra property to the south approximately 6 acres and also approximately 4 acres of the Northdale sub-division to the east.

The good part of the addition of this property is that it increases the options of the Fuss subdivision which is good in respect to the overall betterment of all presently involved and also for the future planning or development for those to come.

Unfortunately, this is taking much longer than I had ever expected. The goals for the Fuss subdivision are as follows:

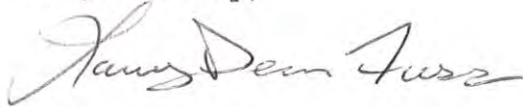

1. To connect the Black Hawk water of the Fuss sub-division to the Northdale sub-division for their use as a back-up source.
2. To complete a new entrance/exit for Northdale through the Fuss sub-division.
3. To plan for the Fuss development and any future developments for hooking up to the sewer system.

This all takes careful forethought and expert planning, not only for our needs now, but for future growth.

After several months now I've gotten the reality check that all this is beyond my level of expertise. Therefore, I have taken on the help of a local, very reputable developer and we plan to have a preliminary plot design ready for the Planning and Zoning meeting in July.

Thank you for your patience.

Respectfully,
