

Wednesday Ride Program

You are just getting started with road biking or have some riding experience already, and are eager to develop your safety awareness and riding skills as well as enjoy the social aspects of riding with others. You have basic fitness and are able to maintain between 15 and 25 km/h depending on the terrain, such as rolling stretches that typify Whistler's streets and side roads. The goal is for riders to gain confidence and skill as well as learn how to ride safely in proximity to others, especially on roads shared with vehicles, so they are able to join in club rides at the C ability level. The pace is set to keep everyone in proximity – no one gets left behind! Routes vary from 30 to 40 km and the ride wraps up early enough to allow for après ride socializing. Riders who enjoy this ride may also enjoy Saturday rides.
