

Wet Weather Policy for Club Rides

Rain and wet mean less pleasant riding and greater safety risk. Our default policy is that a club ride will be declared cancelled if it is raining significantly at the start location 60 minutes before the ride is scheduled to start. Note that an alternate policy may be specified for any given ride as stated in the ride's calendar entry.

IMPORTANT: when a ride is declared cancelled in advance of its start time, or, if no ride leader is present at the start location at the scheduled start time, the ride is considered cancelled and the club's insurance will not be in effect for that ride.
