Staff Child and Adolescent Psychiatrist

Psychiatrist needed to provide evaluations, follow-up, medication management, treatment recommendations and referrals for child and adolescent clients in a community mental health center, located in an area identified by the NHSC as underserved and eligible for education loan payback. These services may be provided on a regularly scheduled basis or on an emergency basis. You will further need to complete all administrative and clinical documentation within the guidelines and regulations of internal and external regulatory and funding sources. You will be responsible for supervising other medical staff including nurse practitioners.

It is required that you have a license to practice medicine in the State of Tennessee with additional training/experience in the field of psychiatry. Board certification in Child and Adolescent Psychiatry is preferred. You must be eligible to be Medicare/Medicaid and TennCare credentialed to see clients with knowledge and training in the delivery of trauma informed care. Minimum of 20 hours per week preferred. Will work as part of a multi-disciplinary team that includes nurse practitioners, psychiatric nurses, social workers, and case managers.
