PROFESSIONAL DEVELOPMENT WORKSHOPS

Did you know STEAM Studio offers Professional Development, which can take place at our studio or at your organization? We base our projects on the book [Design Thinking for Educators, Version 2](#); customized professional development workshops can be designed to cater to the particular needs of your school setting, your teaching faculty, and students. We can help educators take the curriculum they teach, the spaces they use, and transform them to support 21st century learning. Professional Development also available for corporate environments to integrate design thinking and increase risk taking for growth and community building.

Professional Development Workshop Pricing (up to 25 people)*

\$500 for 3 hours

\$1,000 for 7 hours

***custom packages available**

ABOUT DR. MANDI SONNENBERG

Dr. Mandi Sonnenberg is a tenured professor in the Department of Education at Rockhurst University. As a former classroom teacher, principal, and administrator, she brings both vision and empathy to her passion of transforming today's education models. She practices a hands-on experiential approach in her teacher training and education. Mandi is also co-founder and lead educator in STEAM Studio, a creative learning environment where students unlock their creative potential through lessons centered on the Design Thinking process. Mandi holds an M.A. from University of Missouri-St. Louis in Education Administration and earned her doctorate from St. Louis University in Educational Leadership.
