Julio Angel Celebrates

More than 100 clients, family, friends and beauty bloggers gathered in the Verona salon on Saturday October 17th to toast their fifth anniversary. The space was beautifully decorated in black, white and gold and the fashion-forward, dressed-to-impress crowd enjoyed an open bar and passed hors d'oeuvres. Food was provided by neighbors, The Pizza Terminal and Restaurant. Cupcakes were from Baked Bouquet, also in Verona.

Makeup artists treated partygoers to makeovers at the Vincent Longo station. A PCA Skin Scanner analyzed skin for sun damage and provided a personalized prescription of products to fight inflammation and hyperpigmentation. In support of breast cancer awareness women were offered complimentary pink nails and hair extensions. A number of raffles were held throughout the evening with the winners going home with the latest products. The highlight of the evening was the emotional champagne toast from Julio thanking his staff and family for their support in his success. Julio summed up the past 5 years like this, "I've watched this salon go from a dream to a reality. As it became successful I've been guided by three principles: "Always put God and family first," "Never forget where you started, so you can always see how far you've come" and "Always do your very best, so you never ask yourself, what could I have done better."
