A REMINDER OF OUR STORY

THE CHALLENGE

60,000 children who follow their parents to Thailand live in temporary shelters with little access to education or proper healthcare. They are at risk of having their basic rights taken away.

OUR WORK

2001 Creation of Kids Home Development Network (KH Italia, KH France, KH USA, KH UK), to raise funds and support the action of Baan Dek Foundation, a Thai-registered foundation, with the mission of providing access to EDUCATION, HEALTHCARE, and SAFETY for all migrant children living by constructions sites.

A PURE MODEL

100% of donations received are used on Baan Dek Foundation projects in Thailand. All overhead administrative costs are covered by Board Members.
1. OUR IMPACT IN 2016

vulnerable children received support in education, healthcare and safety across 26+ communities.

EDUCATION
98% of kids supported were enrolled in school.
600+ school sets provided directly to the children.
520+ sessions delivered on field.
2000+ hours of sessions delivered on field.

HEALTH
80% of kids are conformed with vaccinations.
900+ hygiene sets provided.
55 Health life skill sessions provided on field.

SAFETY
150+ children identified as in critical situations and then received highly tailored support services.
207 Baan Dek has improved the community living environment benefitting over 207 children.
600 diplomas achieved by children marking their completion of 46 Safety life skill sessions.

Baan Dek first met L. at a construction site. L. was often alone in the site with her brother as her father was working in another province and her mother stayed at hospital for their 2-year-old baby who was born with Encephalocele (major brain damage) requiring ongoing medical care. L. and her brother could not enroll in school because all the family’s income and time went towards medical care. Baan Dek social workers completed paperwork to secure the family’s legal status and helped the father to find a job where he could live with the family. Baan Dek has also provided transportation for hospital visits as well as medical equipment for the baby to live at home. L. and her elder brother successfully enrolled in school. Baan Dek will continue this work to ensure the kids remain in school and that the family continues to thrive.
OUR WORK CONTINUES TO ACHIEVE SIGNIFICANT IMPACT IN THE LIVES OF MIGRANT CHILDREN THANKS TO STRATEGIC PARTNERSHIP WITH PRIVATE AND PUBLIC SECTOR STAKEHOLDERS.

2. KEY NEW PARTNERSHIPS TO DRIVE SYSTEMIC IMPACT

A new, key partnerships with UNICEF Thailand will identify the essential needs of migrant children living in construction sites and provide models for private and public sector partners to help address those needs.

To foster better cooperation, participation and commitment to improving the lives of migrant workers and their children, we have developed new partnerships with top construction companies in Thailand.

15 Partnerships with construction companies.

22 communities of construction workers reached.

23 Stakeholders workshops with construction managers.
3. NEW PROGRAMS

WE HAVE INTRODUCED 3 NEW PROGRAMS THAT FOCUS ON PROVIDING ESSENTIAL KNOWLEDGE AND LIFESKILLS TO ADDRESS THE NEEDS OF MIGRANT WORKERS AND THEIR CHILDREN.

MIGRANT EMPOWERMENT PROJECT

MEP delivers awareness sessions in the construction sites on how migrant communities can access their fundamental rights and essential social services in a sustainable way. We train parents and youths to become ‘Peer Educators’ and deliver knowledge and counselling in their communities, and the new communities they migrate to.

1,200+ attendance recorded in awareness sessions.
80 PEER EDUCATORS TRAINED
65% Thai Yai
6.7% Thai
10% Burmese
11.7% Palong
5% Mon
1.7% Khmer

UPSTART, IMPROVING ENGLISH ENGAGING AMBITION

This innovative program features English language training through real-life career talks by local Thai professionals. The goal is to improve public school children’s ability in English while exposing them to positive and diverse career role models.

380 N° of attendance at UpStart sessions.
8+ SPEAKERS FROM THE CHIANG MAI AREA including a university professor, an entrepreneur, a police lieutenant, and a TV presenter!

DIGITALIZATION TO REACH MORE KIDS WITH GREATER IMPACT AND IMPROVE MONITORING AND EVALUATION

E-SUPERHEROES ACADEMY

We are piloting an e-curriculum that will provide migrant kids with life-saving knowledge and support their access to essential education, health and safety services.
4. INTRODUCING DIGITAL IMPACT MONITORING

We have built and implemented a new centralized monitoring system that uses tablets to directly send data from the field on to Salesforce. This cloud-based technology for data storage and analysis allows us to gather more data about our work and our beneficiaries, thereby ensuring an effective and efficient tracking of our projects’ progress and impact.

5. Products 4 Good

To support Baan Dek Foundation’s fundraising needs, we have worked with great designers to develop a range of products including bags, t-shirts, pencil cases and more. 100% of the proceeds from Products4Good support Baan Dek programs, helping to improve the lives of migrant children and families in critical situations.

ONE KID = ONE BOLT
A BOLT ON A BRACELET TO SUPPORT A CHILD’S ACCESS TO EDUCATION, HEALTH AND SAFETY.
