Live Beyond the Limit – Adaptive Micro Interventions in Compact Living

10:30-12:00 HKT

Venue | Sim-Plex Design Studio, B6, 3/F, Cheong Tai Industrial Building
50-56 Fui Yiu Kok Street, Tsuen Wan, NT

Medium of language: Cantonese (with technical terms in English)

Brief content:

In this increasingly high dense society with changing living needs, the adaptable use of space is becoming more important. How to expand the possibilities of limited space is a big proposition.

“Live Beyond The Limit” – Sim-Plex Design Studio Founder Patrick Lam hopes to enhance our living environment with endless possibilities, especially in high dense context, make use of transformable spatial scenarios, to create an adaptable, multi-functional and art representational design which respond to the problem of compact space and changing living needs in the world. Using micro design to respond to a macro social context.

“Sim-Plex” is derived from “Searching Complexity Among Simplicity.” We believed in every space could be expandable by searching for adaptive complexity among simple details of living through spatial transformation.

FREE

18 places available (on a first-come first-serve basis)
for **CABE Members ONLY** (at all levels)

Speaker:

Mr. Patrick Lam

Founder & Creative Director of
Sim-Plex Design Studio

Patrick Lam is the founder of architectural and interior design practice Sim-Plex Design Studio from 2017. In 2020, the studio was the first Hong Kong Studio to win the U.K. famous competition Dezeen Award, and Patrick was invited as one of the Judges of Dezeen Award in the next year 2021. Recently, Sim-Plex's project has been awarded and featured internationally: including International Design Award IDA (U.S.A.), A-Design Award (Italy) etc. and featured in ArchDaily, Dezeen, Designboom, DesignMilk, Interior Design Magazine, etc.

After studying the Bachelor & Master of Architecture (CUHK) in 2007 & 2010 respectively, Patrick was chartered as a registered architect in Hong Kong, and as well as a LEED AP (BD+C) of U.S.A. & BEAM Pro of Hong Kong. In 2016, he further studied to have a 2nd Master degree, Master of Arts in Fine Arts (CUHK) and attended in art creation.
