DIGGERS

Week 2

The Earth is filled with God's love! Psalm 104:24

God's creation is filled with wonder & awe. Children are naturally attuned to the earth and use their imagination and senses to explore the world fully. There is so much beauty in gaining through the perspective our kids have when it comes to nature. As we engage kids in this series, may you embrace the world with child-like eyes with them. Preschoolers may not seem to pick up on these nuances but the work we do in GreenHouse is powerful. You are planting seeds that will develop into roots of identity, awareness, connection and justice as they grow. Thank you for being here today!

Week 2: This week we will notice that the Earth changes using seasons as our main exploration with the lens of asking questions and WONDER! This will set up the next two weeks when we talk about how WE are God's creation and that WE go through changes too!
