

Dear Parents,

St Eugene is offering a summer STEAM camp for 2016-2017 grades 3-8. Students will have a blast creating and investigating while using different concepts in science, technology, engineering, art, and math! This will help boost them in both math and science concepts for the upcoming school year. Each session will consist of fun and new concepts that intertwine with one another. I am excited to say that Ms Colleen Scotkovsky will be co-teaching the class with me. Ms Scotkovsky has received her degree in education from Northeastern University.

Registration due by June 3rd.

Dates: (June 26-29) (July 10-13) (July 17-20) (July 24-27)

Class size: Class will be limited to the first 20 students to register for each session.

Cost: \$125.00 per session

Time: Students should arrive to school at 8:55 A.M. at the Extended Day door. Class will begin at 9:00 A.M. and end at 12:00 P.M. Please be punctual in arriving and picking up your child/children. If your child is walking or riding a bike home, simply write me a note indicating you give them permission to do so. Otherwise, I will not allow your child to leave until you have arrived.

Snacks and Water Bottles: I encourage the children to bring a healthy snack that is easy to consume in class while working as well as a water bottle for a mid-morning snack.

Graciously,

Ms Giannakopoulos and Ms Colleen Scotkovsky
