To be Australia’s leading integrated resort company by fully harnessing our unique opportunities in each property, to provide the most thrilling guest experiences in ways that truly reflect the unique character of our cities.

In FY2020, The Star Entertainment Group made significant strides in realising its vision of becoming Australia’s leading integrated resort company despite the disruptive impacts of COVID-19.

The construction phase of projects in South East Queensland continued at pace, while The Star Sydney delivered the new Sovereign, a world-class premium gaming facility.

OVER $590 MILLION estimated spend on 3,000+ suppliers Australia wide

AROUND $21 MILLION in financial hardship assistance and paid pandemic leave distributed to team members

‘GLOBAL LEADER’ Casino and Gaming Industry sector on the 2019 Dow Jones Sustainability Index

REFINITIV DIVERSITY & INCLUSION INDEX Ranked 2nd in Australia, and 25th globally

EQUIVALENT OF 100,900 MEALS donated to food rescue charities in New South Wales and Queensland

FORBES 5 STAR RATING
The Darling Sydney was the only luxury hotel in New South Wales to receive the prestigious Forbes Five-Star rating in FY2020. It has achieved this for four consecutive years.

Dorsett hotel and apartments tower currently under development. © Destination Gold Coast Consortium. Artist impression only.
The 2020 financial year was an extraordinary and challenging period. The unforeseen emergence of COVID-19 and the attendant recession tested the resilience and agility of entire communities. The impact on the business sector and the domestic and global economy in general, and the tourism/hospitality/entertainment industries on a micro level, was pronounced. The word unprecedented was oft-used but accurately captured the disruption and pain experienced by individuals, corporations and populations worldwide.

The closure of Australia’s international borders, followed by the introduction of restrictions on movements and gatherings as well as social distancing restrictions and the eventual shutdown of our properties in March 2020 with less than a day’s notice, required decisive action. Due to those Government directed closures, more than 95% of our almost 9000 staff had to be temporarily stood down. The company was necessarily focused on reducing cash burn and increasing liquidity. Operating expenditure was reduced from just under $100 million per month to $10 million a month by May 2020. Negotiations commenced swiftly, and were successful, for The Star Entertainment Group to obtain increased liquidity from domestic banks and to secure covenant waivers from the banks and USP note holders. I want to thank Managing Director and CEO Matt Bekier, and his Management team, for traversing such difficult terrain to reach the outcomes achieved.

The personal and human impacts arising from the crisis were, and continue to be, significant. The Board and Management have been mindful of potential ramifications for our workforce, and mitigation programs developed. All team members temporarily stood down received two weeks of paid pandemic leave at the outset of the property shutdowns at a cost of $18 million. Senior executives took pay cuts and the Board endorsed reduced directors’ fees. The company immediately registered for JobKeeper and a hardship program was introduced, which saw around $3 million distributed to more than 600 of our most impacted staff. Senior executives took pay cuts and the Board endorsed reduced directors’ fees. The company immediately registered for JobKeeper and a hardship program was introduced, which saw around $3 million distributed to more than 600 of our most impacted staff. A cost of $18 million. All team members temporarily stood down received two weeks of paid pandemic leave at the outset of the property shutdowns at a cost of $18 million. Senior executives took pay cuts and the Board endorsed reduced directors’ fees. The company immediately registered for JobKeeper and a hardship program was introduced, which saw around $3 million distributed to more than 600 of our most impacted staff. As we move into FY2021, we will continue to have the best interests of our team members at the forefront of our thinking.

For the period from July 2019 to February 2020, and prior to the property closures, the company delivered a strong earnings result, as detailed further in this Annual Report. This follows the successful implementation of organisational structure reset and cost management measures implemented from 2HFY2019. In light of this performance in 1HFY2020 the Board declared an interim dividend of 10.5 cents per share (fully franked). With the onset of COVID-19 related restrictions, payment of the interim dividend was deferred until 2 July 2020 and was fully-underwritten. As announced on 31 March 2020 in conjunction with the deferral of the interim dividend, there was no final dividend for FY2020. The Board remains committed to maintaining a balance sheet that positions The Star Entertainment Group for the post-COVID-19 recovery.

I take this opportunity to confirm to shareholders that the fundamental earnings prospects for the Group remain unchanged, underpinned by valuable long-term licences in sought after destinations, and with ongoing investments in our network of integrated resorts. The Board and Management therefore remain focused on continuing to deliver upon the company’s strategic growth projects. This includes large-scale projects with the company’s long-term, strategic joint venture partners Far East Consortium and Chow Tai Fook Enterprises. In particular, the following underline the strength of strategic and execution capability across the joint venture partners:

• The uninterrupted and continued on time and on budget delivery of the Queen’s Wharf Brisbane project, coupled with finalising its $1.6 billion project debt funding during FY2020.
• The uninterrupted delivery with our joint venture partners, of the Dorsett hotel and apartment tower at the Gold Coast to program. Importantly in Queensland, we also welcomed the end of the Gold Coast second casinos licence process by the Queensland Government in July 2020. On behalf of the Board, I congratulate Matt Bekier and the Management team on their continued commitment and energy, which enabled delivery of key strategic priorities in FY2020 while managing the response to the COVID-19 situation.

I also thank my fellow directors on the Group’s now well-established Board for their ongoing commitment and decisiveness throughout the challenging year that was FY2020. As announced with the company’s FY2020 financial results, Zlatko Todorcevski retired from the Board on 31 August 2020 following his appointment as Chief Executive Officer and Managing Director of Boral Limited. On behalf of the Board and personally, I thank Zlatko for his substantial contribution and service, and wish him the very best in his new role.

It was a year where unexpected obstacles emerged at a time when the business had pleasing momentum. Together, as a Board and Management, we acted swiftly but with the necessary caution to optimise in the final few months the opportunity to resume operations, albeit under restrictive conditions.

On behalf of the Board, I extend an invitation to all shareholders to join and experience our first virtual Annual General Meeting to be held via our share registry’s online platform in October 2020 and thank you, as always, for your support for the company and its vision to be Australia’s leading integrated resort company.

John O’Neill AO
Chairman
The Star Entertainment Group
The 2020 financial year presented an unexpected adversary in the COVID-19 pandemic. But the challenges presented to The Star Entertainment Group and other organisations, as outlined by the Chairman, also shone a light on the quality of our workforce. I want to take the opportunity at the start of this message to extend my sincerest gratitude to our committed team members whose efforts in such difficult times have been inspirational.

The enforced shutdown of our properties in Sydney and Queensland occurred in late March 2020 with the warning that we may have to endure those closures for up to six months. However, when opportunities arose to partially open at various stages of the COVID-19 journey, our teams acted safely, swiftly and efficiently to ensure operations could be resumed in different forms or with limited capacity.

On 15 May 2020, the first easing in restrictions saw Sokyo at The Star Sydney become the first high-end restaurant in Australia to reopen, with only 10 guests permitted to attend. The following night, Nineteen at The Star Gold Coast was the first high-end restaurant in Queensland to resume operations. On 1 June 2020, we partially reopened Sydney gaming areas. Queensland casinos followed on 3 July 2020.

These were welcome milestones, but capacity constraints continued to prevent us returning to pre-COVID operational levels. As a result, around 30% of our workforce remained stood down by the end of FY2020. The importance of our front-line staff. I greatly appreciate their efforts.

I could not have asked more of my Management team and the Board for their invaluable support during the unexpected and challenging circumstances we encountered in FY2020. In closing, I wish to thank the Board and Management for their invaluable support during the unexpected and challenging circumstances we encountered in FY2020. I could not have asked more of my Management team and our front-line staff. I greatly appreciate their efforts.

Matt Bekier
Managing Director and Chief Executive Officer
The Star Entertainment Group

The Group continues to follow growth strategies designed to install the organisation as Australia’s leading integrated resort company. There were also achievements in FY2020 that showcased our commitment to tourism, sustainability and the cities in which we operate, including:

- Retaining a Forbes Five-Star rating for The Darling hotel in Sydney
- Recognition as the global leader in the Casino & Gaming Industry sector of the Dow Jones Sustainability Index for the fourth consecutive year
- Ranking 3rd in Australia and 25th globally on the 2019 Refinitiv Diversity and Inclusions Index
- Achieving ‘Bronze Employer’ status at the Australian LGBTQ Inclusion Awards
- Committing to net-zero carbon emissions for wholly owned and operated assets by 2030
- Ongoing partnership with the Sydney Gay and Lesbian Mardi Gras
- Celebrating International Women’s Day with the ‘Walk and Talk for Women in Leadership’
- Donating almost 34,000kg of food to charities

The Star Entertainment Group has the following priorities for the 2021 financial year:

- Operations
  - Driving a COVID-19 earnings recovery, including a rapid refocus on local markets and domestic tourism, addressing Sydney competition, operating expenses and liquidity
  - Balance Sheet
  - De-gearing through cash preservation and capital recycling
  - Execute the capital light model
- Further deliver on the centralised operating model, complete investment projects on time and budget and execute in a capital efficient way.

In closing, I wish to thank the Board and Management for their invaluable support during the unexpected and challenging circumstances we encountered in FY2020. I could not have asked more of my Management team and our front-line staff. I greatly appreciate their efforts.

Matt Bekier
Managing Director and Chief Executive Officer
The Star Entertainment Group
JOHN O’NEILL AO | Chairman and Non-Executive Director
Diplomat of Law; Foundation Fellow of the Australian Institute of Company Directors; Member of the Order of Australia; Knight Commander of the Ordre de la Légion d’Honneur
John O’Neill was formerly Managing Director and Chief Executive Officer of Australian Rugby Union Limited, Chief Executive Officer of Football Federation Australia, Managing Director and Chief Executive Officer of the State Bank of New South Wales, and Chairman of the Australian Wool Exchange Limited, as well as a Director of Tabcorp Holdings Limited.
Mr O’Neill was also the inaugural Chairman of Events New South Wales, which flowed from the independent reviews he conducted into events strategy, convention and exhibition space, and tourism on behalf of the New South Wales Government, as well as a Director of Rugby World Cup Limited.
Mr O’Neill is currently Chairman of Queensland Airports Limited and a member of the Advisory Council of Gold Coast Airport. He is also a member of the 2032 Brisbane Olympic Bid Advisory Board to the Premier of Queensland.

MATT BEKIER | Managing Director and Chief Executive Officer
Master of Commerce and Economics; PhD in Finance
Matt Bekier is a member of the Board of the Australasian Gaming Council.
Mr Bekier was previously Chief Financial Officer and Executive Director of the Company and also previously Chief Financial Officer of Tabcorp Holdings Limited from late 2005 and until the demerger of the Company and its controlled entities in June 2011. Prior to his role at Tabcorp, Mr Bekier previously held various roles with McKinsey & Company.

GERARD BRADLEY | Non-Executive Director
Bachelor of Commerce; Diploma of Advanced Accounting; Fellow of the Institute of Chartered Accountants; Fellow of CPA Australia; Fellow of the Australian Institute of Company Directors; Fellow of the Institute of Managers and Leaders
Gerard Bradley is the Chairman of Queensland Treasury Corporation and related companies, having served for 14 years as Under Treasurer and Under Secretary of the Queensland Treasury Department. He has extensive experience in public sector finance in both the Queensland and South Australian Treasury Departments.
Mr Bradley has previously served as Chairman of the Board of Trustees at QSuper. His previous non-executive board memberships also include Funds SA, Queensland Investment Corporation, Suncorp (Insurance & Finance), Queensland Water Infrastructure Pty Ltd, and South Bank Corporation.
Mr Bradley is currently a Non-Executive Director of Pinnacle Investment Management Group Limited and a Director of the Winston Churchill Memorial Trust.

BEN HEAP | Non-Executive Director
Bachelor of Commerce (Finance); Bachelor of Science (Mathematics)
Ben Heap has wide-ranging experience in asset and capital management as well as technology and digital businesses. He has extensive business strategy, innovation, investment and governance expertise. He is also a member of the Board of Directors of China Matters. He is also a member of the 2032 Brisbane Olympic Bid Advisory Board to the Premier of Queensland.

KATIE LAHEY AM | Non-Executive Director
Bachelor of Arts (First Class Honours); Master of Business Administration; Member of the Order of Australia
Katie Lahey has extensive experience in the retail, tourism and entertainment sectors and previously held chief executive roles in the public and private sectors.
Ms Lahey is currently a Director of Carnival Corporation & plc and is a member of the National Indigenous Culinary Institute Advisory Board.
Ms Lahey was previously the Chair of Carnival Australia and the Chairman Australasian of Korn Ferry International. In addition, Ms Lahey was also a member of the boards of David Jones Limited, Australia Council Major Performing Arts, Hills Motorway Limited, Australia Post and Garvan Research Foundation.

ZLATKO TODORCEVSKI | Non-Executive Director (Retired on 31 August 2020)
Bachelor of Commerce (Accounting); Masters of Business Administration; Fellow of CPA Australia; Fellow of Governance Institute of Australia
Zlatko Todorcevski is an experienced executive with over 30 years’ experience in the oil and gas, logistics and manufacturing sectors. He has a strong background in corporate strategy and planning, mergers and acquisitions, and strategic procurement. He also has deep finance expertise across capital markets, investor relations, accounting and tax.
Mr Todorcevski was previously the Chief Financial Officer of Brambles Limited. Prior to that, he was Chief Financial Officer of Oil Search Limited and the Chief Financial Officer for Energy at BHP.
Mr Todorcevski is currently a Non-Executive Director of Coles Group Limited and a member of the Council of the University of Wollongong. He is also the Chief Executive Officer & Managing Director of Boral Limited, taking up the position on 1 July 2020.
EXECUTIVE TEAM

MATT BEKER | Managing Director and Chief Executive Officer
As CEO of The Star Entertainment Group, Matt has guided the organisation and each of its properties through a period of significant change and transformation, including winning the tender for the $3.6 billion Queen’s Wharf Brisbane development, refurbishment and expansion of The Star Gold Coast (including two luxury hotels and a $2 billion master plan) and embedding The Star Sydney as the city’s premier tourism, dining and entertainment destination. With a focus on domestic and international tourism to the cities and communities in which we operate, Matt is driving The Star Entertainment Group’s vision of becoming Australia’s leading integrated resort company.

HARRY THEODORE | Chief Financial Officer
Harry joined The Star Entertainment Group in 2011. He was appointed to Chief Financial Officer in November 2019 and is responsible for the Group’s finance, strategy, investor relations and IT functions. Prior to his current role, he had several leadership positions including Head of Strategy and Investor Relations and most recently Chief Commercial Officer – where he led the Queen’s Wharf Brisbane bid and the Group’s joint venture partnerships with Chow Tai Fook Enterprises and Far East Consortium in addition to a number of other commercial and finance functions.
Prior to joining The Star Entertainment Group, Harry held the role of Director – Head of Gaming and Food & Beverage in the equities research team at the Royal Bank of Scotland and prior to that was a lawyer with Allens Arthur Robinson.

PAULA MARTIN | Chief Legal & Risk Officer and Company Secretary
Paula has over 15 years' experience in the gaming industry, first with Tabcorp Holdings Limited and continuing with The Star Entertainment Group. Following consolidation of the legal, risk, regulatory and compliance functions, Paula was appointed to the role of Chief Legal & Risk Officer in August 2019. She has a broad commercial law and regulatory background, having first practised with King & Wood Mallesons in the telecommunications, information technology and competition law areas.

KIM LEE | Chief People and Performance Officer
Kim Lee commenced at The Star Entertainment Group in 2015 and brings with her more than 18 years’ experience in human resource roles across various sectors. To facilitate The Star Entertainment Group’s expansion across its three properties and significant increase in its workforce, Kim has led the People and Performance team to ensure those plans are matched with highly capable leaders and teams which deliver superior customer service outcomes. Through Kim’s leadership and advocacy, The Star Entertainment Group has become a more diverse and inclusive environment. The Group has set targets across four key areas: gender, multicultural, LGBTQI and age and tracks its performance against internal and external benchmarks. Kim personally champions gender issues via her association with, and board directorship on, Women in Gaming and Hospitality Australia.

GREG HAWKINS | Chief Casino Officer (NSW)
Greg was appointed to the role of Chief Casino Officer (NSW) at The Star Entertainment Group in July 2020, and is responsible for The Star Sydney’s gaming strategy and gaming revenue growth. Prior to his current role, he has served in a variety of senior positions with The Star Entertainment Group including Group Casino Officer and as Managing Director at The Star Sydney.
He has over 22 years’ experience spanning key Australasian and Asian gaming markets.
Greg joined The Star Entertainment Group from Melbourne where he was Chief Executive of Crown Melbourne. Prior to this he was based in Macau for five years and oversaw the development and operation of hotels and casino there, including The City of Dreams integrated resort.
Greg has extensive operational and strategic gaming experience and provides valuable insight into the Asian VIP and premium mass market sectors.

GEOFF HOGG | Chief Casino Officer (QLD)
Geoff has more than 20 years of operational casino experience at a senior executive level. He was appointed to his current position on 1 July 2020.
Prior to this, Geoff had groupwide responsibility for operations at The Star Sydney, The Star Gold Coast, the Gold Coast Convention & Exhibition Centre and Treasury Brisbane. He was also Managing Director Queensland for The Star Entertainment Group for over 10 years.
Geoff is an active participant in the Queensland business community and in particular, the tourism and entertainment industry. He is a member of the Responsible Gambling Advisory Committee, a director on the National Retail Association and a Board Director of Major Events Gold Coast.

GEORGE HUGHES | Chief Marketing Officer
George joined The Star Entertainment Group in 2017 and is responsible for its marketing activities. Prior to that, he worked for David Jones where he was responsible for direct and digital marketing, customer insights, loyalty and customer relationship management.
Since his appointment, George has unified the marketing team and sought to drive brand growth nationally. He has transformed the business unit and brought together specialist, functional expertise and talent both existing within the team as well as that available outside the business and from a variety of sectors.
George has a wealth of executive experience in diverse roles across marketing, customer engagement, finance, M&A and strategy, gained in the retail, entertainment, postal and banking sectors.

ALISON SMITH | Group Executive External Affairs
Alison has been with The Star Entertainment Group since mid-2015. Her role covers government, industry and media relations, as well as internal communications.
In addition to her role with The Star, Alison is Chair of the Brisbane Festival board, an executive committee member of The Committee for Brisbane, Vice President of the Queensland Futures Institute Corporate Affairs Council and a Board Director of Women in Gaming and Hospitality Australia.
Prior to joining The Star Entertainment Group, Alison worked in the public and private sectors in information and communications technology, transport, energy, police and corrective services.
FY2020 GROUP PERFORMANCE

Group Performance Highlights

The Star Entertainment Group delivered strong performance across all business segments before the onset of COVID-19. However, FY2020 results were impacted by temporary property closings from 23 March 2020.

The Group implemented comprehensive actions to mitigate the effect of the pandemic.

The Group’s long-term growth strategy remains unchanged, with key milestones achieved over FY2020 despite COVID-19 disruptions.

Sydney
• Solid earnings growth on flat revenue prior to COVID-19
• Domestic earnings growth accelerated from 1H FY2020 into January-February 2020 vs pcp
• Operating expenses down 1.7% prior to COVID-19
• International VIP Rebate business broadly stable prior to COVID-19

Queensland (Gold Coast and Brisbane)
• Very strong normalised earnings growth prior to COVID-19
• Very strong domestic earnings growth accelerated into January-February 2020
• Operating costs well managed
• Gold Coast demonstrating improved returns on investment – normalised EBIT up 69.8% prior to COVID-19
• Statutory results impacted by unusually low actual win rate in International VIP Rebate business

The $3.6 billion Queen’s Wharf Brisbane development is the largest private sector project in Queensland and will employ more than 2,000 workers during peak construction and create more than 8,000 jobs in Queensland when fully operational.

The $3.6 billion Queen’s Wharf Brisbane development is being delivered by Destination Brisbane Consortium – a joint venture led by The Star Entertainment Group alongside its Hong Kong-based partners, Chow Tai Fook Enterprises and Far East Consortium.

Expected to open in late 2022, Queen’s Wharf Brisbane will transform the CBD with four new luxury hotels, around 50 new restaurants, cafes and bars, 2,000 residential apartments, and also offer more than 12 football fields of public space.

During the 2020 financial year, the transformational Queen’s Wharf Brisbane development reached significant milestones. These included:

• The completion of Waterline Park, a vibrant new public space opposite South Bank on the Brisbane riverfront as well as a 500-metre pedestrian walkway and an upgraded segregated bikeway
• The launch of the Queen’s Wharf Brisbane visitor centre and the Queen’s Wharf Residences display suite
• The near completion of the five levels of basement car park levels and excavation works. Close to 400,000 m³ of material removed from the site, 90 per cent of which was recycled
• The commencement of construction of all four towers, structures that will house three of four new luxury hotel brands as well as the 667-apartment Queen’s Wharf Residences tower
• The progression of ‘The Landing’ which provides 6,500 m² of new public space that sits above the river opposite South Bank, to become Brisbane’s newest parkland.

With main construction works well underway, the development will continue to take shape across the 2021 financial year. The Star Entertainment Group will continue to operate Treasury Brisbane until the new integrated resort opens and the transition to a new casino occurs.

The Queen’s Wharf Brisbane development is the largest private sector project in Queensland and will employ more than 2,000 workers during peak construction and create more than 8,000 jobs in Queensland when fully operational.
In the 2020 financial year, The Star Entertainment Group delivered several key projects at The Star Sydney, including:

- The launch of Bar Tikram, led by The Star Sydney’s talented Executive Chef, Dany Karam of BLACK Bar & Grill, showcasing a relaxed Mezze style share food menu.
- The new Sovereign (Sydney’s best private gaming and entertainment venue) was completed, with the official launch taking place on 3 July 2020. The facility consists of:
  - 5,000m² floor space including four private dining rooms and gaming salons
  - 83 pieces of multicultural art
  - 5 tonnes of Turkish and Italian marble
  - A 500,000-piece stainless steel sculpture by Beijing artist Zheng Lu
  - Views overlooking Sydney’s Darling Harbour
  - A new ‘Chairman’s’ premium gaming area for our Diamond members and their guests.

The 2020 financial year saw the next phase of The Star Gold Coast’s $2 billion master plan continued, with the following key projects advanced during the year:

- Construction of stage one, the 700-plus room Dorsett hotel and The Star Residences apartment tower continued. The development (being delivered by Destination Gold Coast Consortium, a joint venture development comprising The Star Entertainment Group and its Hong Kong-based partners, Chow Tai Fook Enterprises Limited and Far East Consortium International Limited) is expected to be completed in 2022.
- The second stage will deliver a 650-plus room 5-star hotel and apartments tower (also being delivered by Destination Gold Coast Consortium). Pre-sales of the residential apartments are progressing.

The Star Gold Coast will be home to Australia’s first Dorsett hotel, complete with signature views of the Gold Coast and complementary resort amenities. The hotel and apartments tower is due for completion in 2022.
### SUSTAINABILITY TIMELINE

#### 2013
- Completed $870 million transformation of The Star Sydney, and construction of The Darling
- Committed to long-term carbon and water reduction targets to achieve a 30% reduction by 2023 against the FY2013 base year on an intensity basis
- Achieved third-party certified environmental ratings for over 50% of the Casino and Gaming Industry sector (for second year)
- Completed 50 projects within the Energy and Water Project Pipeline to target resource reduction
- Completed portfolio wide energy and water audits
- Maintained a 5 Star NABERS Tenancy rating for the Sydney corporate office
- LAUNCHED
  - Sustainable Design Guidelines first released
  - Water Management Strategy developed and expanded to include organic waste streams in Sydney
  - Resource consumption metrics and targets developed and a reporting framework introduced
  - Committed to net-zero carbon emissions for our wholly owned and operated assets by 2030
  - LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2014
- Committed to net-zero carbon emissions for our wholly owned and operated assets by 2030
- Achieved a 16.7% reduction in carbon emissions intensity from the FY2013 base year
- Responsible Supply Chain Management Plan developed for implementation
- Supplier Code of Conduct released
- Achieved a 5 Star Green Star Interiors’ rating for the Sydney corporate office
- LAUNCHED
  - First Global Reporting Initiative Report released
  - Launch of group-wide Single-Use Plastic Reduction Commitment
  - Committed 50 projects within the Energy and Water Project Pipeline – saving $4.3m over previous five-year period

#### 2015
- Water’s Edge Parkland and Walkway at Queen’s Wharf Brisbane opened to the public
- Achieved ‘Green Star’ Performance rating for The Star Sydney
- Maintained a 5 Star NABERS Energy Tenancy rating for the Sydney corporate office
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2016
- Queen’s Wharf Brisbane becomes the first development in Brisbane to be awarded a DJSI for second year
- Committed to net-zero carbon emissions for our wholly owned and operated assets by 2030
- Achieved third-party certified environmental ratings for over 50% of the Group’s portfolio
- LAUNCHED
  - Renewed Green Event Guide
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2017
- Conducted climate impact risk assessments with mitigation and adaptation actions
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2018
- Launch of group-wide Single-Use Plastic Reduction Commitment
- Completed 50 projects within the Energy and Water Project Pipeline – saving $4.3m over previous five-year period
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2019
- Mandated a minimum of 25% renewable energy reporting in alignment with the United Nations Sustainable Development Goals and targets
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2020
- Planning for the release of the Group’s first stand-alone Sustainability Report
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

#### 2021
- Targeting the release of the Group’s first stand-alone Sustainability Report
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’

### SUSTAINABILITY HIGHLIGHTS

**Achieved the global leadership position of the Casino and Gaming Industry sector in the Dow Jones Sustainability Index for the fourth consecutive year (2016 - 2019)**

- Donated or scheduled to recycle 100% of uniforms from the opening of the new Sovereign
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’
- Maintained a 5 Star NABERS Tenancy rating for the Sydney corporate office
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’
- Over 33,600 kilograms or the equivalent of 100,900 meals donated to food rescue charities
- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’
- **33,600 KQ**

**Achieved third-party certified environmental ratings for over 50% of the Group’s portfolio**

- LAUNCHED
  - ‘Beyond 2020 – The Star’s Sustainability Action Plan’
- Recognised on the 2019 Refinitiv Diversity and Inclusion Index (second in Australia and 25th globally)

The Star Entertainment Group’s sustainability approach continues to focus on creating long-term value in the management of environmental, social and governance risks and opportunities and increasing performance year on year. In FY2020, the Group’s sustainability strategy ‘Our Bright Future’ entered its fourth year. The sustainability strategy combines the Group’s key priorities and objectives in a four-pillar framework that supports the Group’s business plan. The four sustainability strategic objectives are:

- We strive to be Australia’s leading integrated resort company
- We build and operate world-class properties
- We actively support guest wellbeing
- We attract, develop and retain talented teams.

**MATERIALITY**

The Group remains focused on identifying and responding to material issues that are reaffirmed annually through our rigorous materiality assessment process. The materiality assessment identifies the Group’s key emerging and operational environmental, social and governance issues and seeks to respond to these as part of the Sustainability Strategy’s key priorities.

In the 2020 financial year, the Group’s key material issues have remained consistent with the previous year. As a result of aligning the materiality assessment with the United Nations Sustainable Development Goals and Targets, the Group is able to support the goals further through business key performance indicators and targets within the sustainability strategy and the sustainability action plan.

The FY2020 materiality assessment process was completed and validated in mid-March 2020. Since that time, the business has continued to monitor the impacts of the COVID-19 pandemic and expects any changes to be reflected in the materiality assessment to be completed in March 2021.

**MATERIALITY MATRIX**

The following materiality matrix outlines our significant issues assessed by their ‘Importance to The Star’ and ‘Importance to external stakeholders’. All issues have been classified as ‘Emerging/Strategic’ or ‘Ongoing/Operational’.

**LEADING COMPANY**

- Ethical business operation
- Community wellbeing and trust
- Privacy and security
- Sustainable and ethical supply chain
- ESG transparency
- Sustainable business performance

**WORLD-CLASS PROPERTIES**

- Climate resilience
- Minimising environmental impacts through operating efficiently
- Sustainable precincts

**GUEST WELLBEING**

- Responsible gaming
- Safety and security
- Healthy environments

**TALENTED TEAMS**

- Diversity, inclusion and equal opportunity
- Employee engagement and development
- Employee health, safety and wellbeing

**UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS**

- No poverty
- Good health and wellbeing
- Quality education
- Gender equality
- Clean water and sanitation
- Industry innovation and infrastructure
- Responsible consumption and production
- Affordable and clean energy
- Sustainable cities and communities
- Peace justice and strong institutions
- Life on land
- Life below water
- Climate action
- Peace justice and strong institutions
- Sustainable development goals

Most Material Issues:

- Climate resilience
- Sustainable and ethical supply chain
- Healthy environments
- Sustainable precincts
- Minimising environmental impacts
- ESG transparency
- Employee health, safety and wellbeing
- Employee engagement and development
- Diversity, inclusion and equal opportunity
- Privacy and security
- Ethical business operation
- Community wellbeing and trust
- Safety and security
- Responsible gaming

Importance to the Star:

- Leading Company
- Guest Wellbeing
- World-Class Properties
- TALENTED TEAMS
- Emerging/Strategic
- Ongoing/Operational

Importance to Stakeholders:

- Leadership
- Guest wellbeing
- World-class properties
- Talented teams
- Emerging/strategic
- Ongoing/operational
To date, the Group has third party certified environmental ratings for over 50% of its controlled properties which includes a 5 Star Green Star Interiors rating, a 5 Star NABERS Tenancy rating, a Green Star Performance rating and commitments to further Green Star Performance and Design and As Built ratings.

Destination Brisbane Consortium (on behalf of The Star Entertainment Group and its joint venture partners) continues towards delivery of 6 Star Green Star Communities rating for the Queen’s Wharf Brisbane precinct, 6 Star Green Star Design & As Built ratings for all new buildings, and Australian best practice sustainability outcomes on the repurposing of existing heritage buildings.

**Climate Change Response**

The Star Entertainment Group has identified climate change as a material issue and acknowledges its potential impacts. The Group recognises the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), and importantly that the Group’s investments may be susceptible to future changes in climate.

Within the year, the Group has been working to align its existing climate related projects and targets to the TCFD recommendations through a progressive roadmap. In 2020, the Group released its first disclosure report on the company website detailing our progress to date against the four framework areas of Governance, Strategy, Risk Management and Metrics and Targets.

In 2020, the Group expanded its commitment to a low carbon future by setting a target to achieve net-zero carbon emissions for its wholly owned and operated assets by 2030 as a long-term measure. The pathway to achieve this target includes the purchasing of renewable energy (in progress), the assessment of onsite solar, continuing the company’s energy efficiency program and developing a carbon offsetting strategy. The Group remains committed to immediate action through its interim targets to achieve a 30% reduction in carbon and water intensity by FY2023 against the base year FY2013.

The Group continues to prioritise and improve the resilience of business operations and assets. Climate change risk and response has been embedded into our risk register and management processes and climate mitigation and adaptation requirements form part of the Group’s Sustainable Design and Operational Standards which can be found on the company website. Resource consumption and carbon emissions management continue to be both a material issue and a focus which are managed by the continuation of energy audits and physical climate risk assessments.

**Reporting and Assurance**

The Star Entertainment Group has prepared its reporting in accordance with the Global Reporting Initiative (GRI) Standards (Core option). The index can be found on the company website and provides a guide on where information can be found throughout the Group’s reporting suite as it relates to the GRI reporting requirements. In line with the Group’s commitment to expanding sustainability disclosures annually, this report has also included additional disclosures to progress the reporting level to ‘comprehensive’ over time.

The Star Entertainment Group has obtained ‘Limited Assurance’ by EY for FY2020 across its energy and carbon data. The assurance opinion can be found on the company website.

---

### Delivering World-Class Properties

The Star Entertainment Group develops and operates world-class, liveable, environmentally sustainable and resilient integrated resorts and precincts. The Group continues to support this strategic commitment by designing and building for efficiency and it commitment to third party environmental ratings.

Destination Brisbane Consortium (on behalf of The Star Entertainment Group and its joint venture partners) continues towards delivery of 6 Star Green Star Communities rating for the Queen’s Wharf Brisbane precinct, 6 Star Green Star Design & As Built ratings for all new buildings, and Australian best practice sustainability outcomes on the repurposing of existing heritage buildings.

### Targeting 90% Coverage of Third-Party Certified Environmental Ratings Across the Group's Portfolio by 2022

To date, the Group has third party certified environmental ratings for over 50% of its controlled properties which includes a 5 Star Green Star Interiors rating, a 5 Star NABERS Tenancy rating, a Green Star Performance rating and commitments to further Green Star Performance and Design and As Built ratings.

Destination Gold Coast Consortium (on behalf of its joint venture partners) continued to work towards a 5 Star Green Star Design and As Built rating commitment for the Dorsett hotel and apartments tower (to be constructed on Broadbeach Island, Broadbeach, Queensland).

During the 2020 financial year, a Green Star Commitment Agreement was also registered for the second tower (Tower 2) to achieve a 5 Star Green Star Design & As Built v2.2 rating in line with the Dorsett hotel and apartments tower.

As part of the construction of Dorsett hotel and apartments tower, a successful design review was submitted during the year to the Green Building Council of Australia. To date, the tower has recycled over 90% of its construction waste and is targeting outcomes above the requirements of the 5 Star Green Star rating where possible. In the manufacture of the concrete required for construction, 40% of the portion of Portland cement has been replaced with a more sustainable option, fly ash, which is a by-product from industrial processes. To ensure the use of recycled content, 46% of the fine aggregate in the concrete mix is reclaimed and/or recycled.

To reduce potable water consumption, 93% of the water used in the concrete manufacture is reclaimed and/or recycled. To reduce potable water consumption, 93% of the water used in the concrete manufacture is reclaimed and/or recycled.

The Star Entertainment Group develops and operates world-class, liveable, environmentally sustainable and resilient integrated resorts and precincts. The Group continues to support this strategic commitment by designing and building for efficiency and it commitment to third party environmental ratings.

Destination Brisbane Consortium (on behalf of The Star Entertainment Group and its joint venture partners) continues towards delivery of 6 Star Green Star Communities rating for the Queen’s Wharf Brisbane precinct, 6 Star Green Star Design & As Built ratings for all new buildings, and Australian best practice sustainability outcomes on the repurposing of existing heritage buildings.

### Targeting Net-Zero Carbon Emissions by 2030 for the Group's Owned and Operated Assets

### Targeting a 30% Reduction in Carbon and Water Intensity by FY2023 Against the FY2013 Base Year

Destination Brisbane Consortium (on behalf of The Star Entertainment Group and its joint venture partners) continues towards delivery of 6 Star Green Star Communities rating for the Queen’s Wharf Brisbane precinct, 6 Star Green Star Design & As Built ratings for all new buildings, and Australian best practice sustainability outcomes on the repurposing of existing heritage buildings.

### Green Building Ratings

**The Star Entertainment Group Has Achieved 50% Third Party Certified Environmental Ratings Across Its Portfolio**

**Queen’s Wharf Brisbane**
- 6 Star Green Star Communities v1 rating
- 6 Star Green Star Design & As Built v11 rating for non-residential new buildings
- Industry Best Practice Design & As Built v11 ratings for existing heritage buildings

**The Star Gold Coast, Broadbeach Island, Broadbeach, Qld**
- 5 Star Green Star Design & As Built v11 rating
- 5 Star Green Star Design v1.1 Review

**The Dorsett Hotel and Apartments Tower**
- 5 Star Green Star Design v1.1 Review
- 5 Star Green Star Design & As Built v11 rating

**The Star Gold Coast - Tower 2**
- 5 Star Green Star Design v1.1 Review

**The Star Sydney, 80 Pyrmont Street, Pyrmont, NSW**
- Green Star Performance rating

**The Star Entertainment Group’s Sydney Corporate Office, 60 Union Street, Pyrmont, NSW**
- 5 Star NABERS Tenancy rating
- 5 Star Green Star Interiors rating

**Certified Environmental Ratings**
RESOURCE EFFICIENCY PROJECTS

The Star Entertainment Group continues to invest in and enhance its integrated resorts. With several expansion projects underway, energy use is expected to increase across the properties in the coming years as we open and operate more floor space. To mitigate against these increases, the Group continues to target resource efficiency through building design and operations and through an active engineering program to reduce carbon emissions, energy use and cost.

To ensure energy and water efficiency is achieved in refurbishment and development projects, the Group’s Sustainable Design and Operational Standards (available on the company’s website) have been applied to all large-scale development projects. The Standards are aligned to green building ratings criteria and ensure projects achieve best practice sustainable outcomes.

The Group’s Energy and Water Project Pipeline, first established in FY2015, continues to prioritise, monitor and track projects that deliver cost and environmental benefits. Utilising a building optimisation and analytics platform, a total of 107 small scale tuning and efficiency projects were completed from July 2019 to March 2020 at The Star Sydney and The Star Gold Coast. Several efficiency opportunities are ongoing at both properties and will continue into FY2021. To track the benefit of efficiency projects, resource consumption performance is measured and reported in absolute terms and as intensity metrics on a per visitor and per square metre basis. In FY2020, 21 tuning and efficiency projects were completed at The Star Sydney, delivering savings of 55,246 kWh in energy use, 45 tonnes of carbon emissions and $8,287 in cost. Two trial projects were activated in February 2020 involving carpark fan sensors and dead band setpoints. The carpark fan trial project, completed in March 2020, identified benefits from adjusting temperatures to prevent carpark fans running unnecessarily for cooling purposes. Standard operating speeds were reduced from 100% to 40% on average with no effect to comfort levels. The project is expected to save an estimated $46,000 per annum. The dead band trial involved introducing temperature set point dead bands into the air conditioning logic. As common industry practice, these adjustments are expected to deliver ongoing savings as our property responds to full operating capacity.

RESOURCES PERFORMANCE

At The Star Gold Coast, 86 tuning and efficiency projects were implemented during FY2020 as a result of the building optimisation and analytics system delivering savings of over 223,502 kWh in energy use, 184 tonnes of carbon emissions and $34,873 in cost. As a result of energy audits, two capital upgrade projects were completed in FY2020. A heat pump replacement project is expected to save over $550,000 in energy use costs per annum and avoid 322 tonnes of carbon emissions per year. A steam optimisation project is expected to save approximately $112,000 in energy costs and avoid 171 tonnes of carbon emissions at the property.

SUSTAINABILITY

ANNUAL REPORT 2020

ENERGY AND CARBON EMISSIONS

In the 2020 financial year, the Group’s total emissions in carbon dioxide equivalents (CO2-e) from purchased gas and electricity were 94,945 tonnes. This footprint equates to a decrease of 11.1% from FY2019 which was 106,845 tonnes and an overall decrease of 12.6% from base year FY2013 which was 108,595 tonnes. The Star Entertainment Group’s FY2020 emissions were comprised of 8,952 Scope 1 emissions and 85,933 Scope 2 emissions.

On an intensity basis, carbon emissions per square metre decreased by 12.6% from 0.35 tonnes CO2-e per square metre in FY2019 to 0.31 tonnes CO2-e per square metre in FY2020. Overall carbon emissions intensity per square metre reduced by 26.2% in FY2020 from FY2013 contributing positively to the Group’s target to achieve a 30% reduction in emissions intensity per square metre by FY2023 against base year FY2013.

With 14 million visitors in FY2020 (down from previous years due to the COVID-19 pandemic) carbon emissions intensity on a per visitor basis increased from 5.69 kilograms CO2-e per visitor in FY2019 to 6.38 kilograms CO2-e per visitor in FY2020 which is expected to decline in FY2021 when venues reopen fully.

The Group’s total energy consumption from purchased gas and electricity for FY2020 was 555,911 gigajoules (GJ), which was a 13.1% decrease from FY2019 which was 639,726 GJ and an 8.5% decrease from base year FY2013. On an intensity basis, energy per square metre reduced by 14.5% from 2.11 GJ per square metre in FY2019 to 1.80 GJ per square metre in FY2020 and decreased by 22.7% against base year FY2013. Energy consumption per visitor increased in FY2020 by 9.8% from 34.05 MJ per visitor in FY2019 to 37.38 MJ per visitor in FY2020, as a result of reduced visitation due to COVID-19 impacts.

Energy consumption per visitor increased 64% overall from base year FY2013 and is expected to reduce again in FY2021. The decline in carbon emissions and energy consumption both on an absolute and intensity basis was expected due to property closures and restricted operations between March and June 2020 in line with Government regulations. Both large scale plant upgrades and energy efficiency initiatives in the Group’s Energy and Water Project Pipeline were delivered between July 2019 and March 2020 contributing to the energy and carbon emissions reductions within the year.

Notes: The Group’s total carbon emissions, as reported, equate to emissions from purchased gas and electricity only, which aligns with the Group’s targets that cover our material sources of carbon emissions. Additional sources of Scope 1 emissions include refrigerant gases and fuel consumption, both of which range less than 1% of total emissions for the year. Additionally, 1% of FY2020 utility invoices were unbilled at the time of reporting, these amounts, based on cost. The interim uptake has been estimated as 62% (13,800 capsules) and 38% (2,119 cups) for Nespresso and Lavazza capsules respectively. The 1,900 capsules of unfilled espresso grinds only which is defined as space that has been mechanically lodged to be filled by the machine that had operational control over at the end of each financial year.

POTABLE WATER USE

The Group’s total potable water consumption was 644,025 kilolitres (KL) in the 2020 financial year, a decrease of 22% from FY2019 (2023,419 KL) and a decrease of 6.5% from base year FY2013 which was 688,440 KL.

Water consumption intensity per square metre decreased by 23.3% in FY2020 from 2,73 KL per square metre in FY2019 to 2.09 KL per square metre in FY2020. Water intensity decreased by 21%, moving towards the Group’s target of a 30% reduction in water intensity per square metre set for FY2023 against base year FY2013. On a per visitor intensity basis, the Group’s water intensity decreased by 15%, from 43.96 litres per visitor in FY2019 to 43.30 litres per visitor in FY2020. However, the Group experienced a slight increase of 2.6% against base year FY2013.

Water efficiency activities (including water auditing and leak detection projects) were conducted from July 2019 to March 2020 which contributed to the reduction in water use in FY2020. A significant portion of the reduction during FY2020 was due to property closures and restricted operations from March 2020 to June 2020 when minimal water was consumed.

Note: 1.1% of FY2020 utility invoices were unbilled at the time of reporting based on cost (from water). The missing usage has been estimated as 5.8% (37ML) for water. The FY2013 base year for waste generation figures includes all operations. The Group benchmarks waste and recycling performance against the base year FY2013 to ensure that improvements are measurable. In FY2020, the Group diverted 30 recycling streams from landfill including batteries, argon, soft plastics, cardboard, linen and uniforms.

The Group’s recycling rates have increased from 30% overall waste diversion in FY2013 to 37% diversion in FY2020 across all operations. A slight reduction in recycling rates was experienced in FY2020 as a result of the waste collection task being relocated at The Star Gold Coast which caused disruption to recycling and waste services. Training and education remain a priority, with behaviour change activities scheduled into FY2021 to ensure that recycling intensity increases over time.

WATER CONSUMPTION

INCREASING RECYCLING

The Group remains focused on waste reduction as a material issue and increasing its recycling targets each year to lift performance. Waste and recycling figures include all waste generated from operations. The Group benchmarks waste and recycling performance against the base year FY2013 to ensure that improvements are measurable. In FY2020, the Group diverted 30 recycling streams from landfill including batteries, argon, soft plastics, cardboard, linen and uniforms.

The Group’s recycling rates have increased from 30% overall waste diversion in FY2013 to 37% diversion in FY2020 across all operations. A slight reduction in recycling rates was experienced in FY2020 as a result of the waste collection task being relocated at The Star Gold Coast which caused disruption to recycling and waste services. Training and education remain a priority, with behaviour change activities scheduled into FY2021 to ensure that recycling intensity increases over time.

PROGRESS IN REDUCING SINGLE-USE PLASTICS

The Star Entertainment Group continued to replace single-use plastics with compostable and more sustainable alternatives across all operations. A Sustainable Product Replacement Guide was developed to assist our food and beverage team, events team and suppliers with the switch.

Despite heavily impacted trading from March 2020 due to COVID-19, there was a 12% uplift in compostable takeaway container purchases and a 4% increase in compostable cup purchases across the business as a result of removing single-use plastic items from ordering systems.

Where sustainable product alternatives are not currently available, the Group continues to actively work with suppliers to customise and create alternatives for our guests and the wider market. Testing of new projects to market is ongoing, with a five key strategic suppliers and collaboratively work with them to build enhanced visibility of our extended supply chain.

This process will then be refined and progressively rolled out based on risk assessment and criticality of suppliers to complement ongoing risk assessment and assurance activities.

In the first three quarters of the 2020 financial year, the Group continued to risk assess its suppliers, with a focus on critical and high-risk suppliers. Due to the COVID-19 pandemic, the Group’s existing goal of 40% of Tier 1 suppliers was deferred to calendar year 2021, whilst 100% of new suppliers were assessed on environmental, social, and governance risks prior to being onboarded.

Following the closure of its properties on 23 March 2020, all non-essential businesses were closed all restaurants and food outlets across the Group’s food and beverage, hotel and gaming operations to reduce waste, with all commitments entered into prior to closure being honoured. As we were progressively able to reopen certain areas of the business, we commenced the resumption of supplier engagement to the fullest extent that our limited operations allowed.

INCREASING RECYCLING

The Group remains focused on waste reduction as a material issue and increasing its recycling targets each year to lift performance. Waste and recycling figures include all waste generated from operations. The Group benchmarks waste and recycling performance against the base year FY2013 to ensure that improvements are measurable. In FY2020, the Group diverted 30 recycling streams from landfill including batteries, argon, soft plastics, cardboard, linen and uniforms.

The Group’s recycling rates have increased from 30% overall waste diversion in FY2013 to 37% diversion in FY2020 across all operations. A slight reduction in recycling rates was experienced in FY2020 as a result of the waste collection task being relocated at The Star Gold Coast which caused disruption to recycling and waste services. Training and education remain a priority, with behaviour change activities scheduled into FY2021 to ensure that recycling intensity increases over time.

PARTNERING AND ENGAGEMENT

The Star Entertainment Group continues to take a long-term view to managing and maintaining relationships with suppliers and contractors which enables the company to proactively identify and implement improvements in the sustainability of sourcing and property management activities.

In FY2020, the Group extended this commitment by commencing its response to the Modern Slavery Act 2018. In FY2021, the Group will undertake an extensive review into future strategic suppliers and collaboratively work with them to build enhanced visibility of our extended supply chain. This process will then be refined and progressively rolled out based on risk assessment and criticality of suppliers to complement ongoing risk assessment and assurance activities.

SUSTAINABLE SUPPLY CHAIN

The Star Entertainment Group continues to be active in local government programs and partnerships to support and deliver sustainability outcomes within the business and across the industry.

The Group is a founding partner of the City of Sydney’s Sustainable Destination Partnership, a collaboration of accommodation, entertainment and tourism organisations working together to achieve a more sustainable Sydney. The Group’s representatives chair the Leadership Panel and co-chair the project orientated Technical Working Groups.

The Group is also a long-term member of City of Sydney’s CitySwitch program.

The Group’s sustainability team partnered with national waste contract provider Veolia to engage team members across all properties for National Recycling Week in November 2019 and subsequently trained 480 team members on recycling best practices.

Across the Group, the Sustainability Advisory Board and the Executive Sponsor, the Chief Legal and Risk Officer, oversee sustainability governance, performance and strategy and report on the progress to the Board’s People, Culture and Social Responsibility Committee. Property Sustainability Committees continue to engage team members at the property level to support sustainability education and direct operational outcomes.

St Vincent de Paul collected over 6,000 pieces of uniform for reuse in both domestic and international markets.

A further 300 items, including suit pants, jackets and buttoned shirts were donated to ‘Dress for Success’, a local charity that provides a dressing and support service for women seeking employment.

FOOD DONATIONS

Following state and federal government directives to close all non-essential businesses on 23 March 2020, all restaurants and food outlets across the Group’s properties were impacted.

Team members from across the business quickly mobilised to help donate fresh food and produce (which were at risk of perishing) to our community partners and food rescue organisations.

Working with OzHarvest and Foodbank Queensland, The Star Sydney, The Star Gold Coast and Treasury Brisbane helped feed the most vulnerable members in our community, and saved over 33 tonnes of food going to landfill – the equivalent of 100,000 meals.

The Star Sydney and The Star Gold Coast continued to provide monthly donations of 800 kilograms on average, going to landfill - the equivalent of 100,900 meals.
The Star Entertainment Group provides a variety of engaging entertainment experiences at its properties.

RESPONSIBLE GAMBLING

Most of our guests enjoy gambling as part of their leisure and entertainment experience and do so within their financial means. Unfortunately, a small percentage of our guests may experience some difficulty in controlling their gambling.

The Group’s responsible gambling program promotes early identification and intervention with guests who may be exhibiting signs of problem gambling.

The objective of the responsible gambling program is to minimise the potential harm caused by gambling (such as financial hardship, emotional distress and relationship breakdown), and to provide guests with the ability to make informed decisions about managing their gambling behaviours. Each property operates under a ‘Responsible Gambling Code of Practice’ which sets the standards and requirements to be followed for the responsible delivery of gambling products and services.

Key operational elements of our responsible gambling program are:

- We provide guests with readily accessible information about problem gambling, including symptoms and treatment options.
- A comprehensive training program including mandatory responsible gambling training for all our team members.
- We work with external support agencies to provide assistance to problem gamblers.
- We offer sensitive and confidential support to guests seeking to exclude themselves from attending one or more of our casinos (we have in place agreements with selected Gambling Help Services in Queensland and New South Wales to allow individuals to self-exclude from a casino without having to attend the casino in person).
- We assist guests who have self-excluded from our casinos to also self-exclude from other gambling venues.
- Where we believe there is sufficient reason to do so, we exclude people who are at risk of gambling problems, including on the basis of third-party information.
- We monitor the amount of time a guest spends on property and encourage regular breaks in play.
- We prevent intoxicated guests from participating in gambling activities.
- We prohibit the cashing of cheques to fund gambling activities (other than by prior arrangement).
- We do not allow betting on credit cards.
- We conduct advertising and marketing campaigns in compliance with applicable regulations and industry codes of practice.
- Our security and surveillance staff are trained to prevent minors and excluded persons from gaining access to gaming areas.
- We have a dedicated Responsible Gambling Team that oversees all areas of the responsible gambling program (including compliance with the Responsible Gambling Policy) across the Group.

RESPONSIBLE SERVICE OF ALCOHOL

Excessive consumption of alcohol can have serious adverse health, social and economic consequences for individuals, their family and friends, and for the broader community.

The Group’s responsible service of alcohol (RSA) practices comply with relevant state-based regulations and liquor licences supported by a group RSA policy framework.

At each property, all team members who are directly involved in the service or supply of alcohol, including those supervising or managing these processes, must have a current RSA training course certificate. All other employees are also required to complete in-house RSA training upon commencement of employment, even though they are not directly involved in the service or supply of alcohol.

In addition to strict refusal of entry policies, each property has in place processes for:

- Monitoring that the premises are not unduly affected by excess consumption of alcohol
- Empowering food and beverage managers to identify high-risk periods and manage consumption by limiting the amount of drinks that can be purchased at any one time
- Mandatory reporting of all serious RSA related incidents (to be documented within the approved incident reporting databases and records)

The Group’s properties have also taken the following measures to support responsible service of alcohol:

- The use of toughened or tempered glass for many of the beverages served in the public areas of the Gold Coast and Brisbane casino properties (excluding restaurants)
- The use of toughened or tempered glass in the main gaming floor venues and the use of plastic drinking vessels at Sky Terrace, the Sights Bar and Marquee Nightclub during restricted periods at The Star Sydney.

$100 million+ contributed to Queensland’s Gambling Community Benefit Fund since 1987
$14.6 million contributed to the Responsible Gambling Fund (NSW) in FY2020
Our goals include eliminating work-related injuries, illnesses and unsafe work practices and promoting the health and welfare of our team members. In FY2020 we continued to drive improvements in six key areas.

Operating safely has always been paramount at The Star Entertainment Group’s properties, however COVID-19 has necessitated an even greater focus on caring, engagement and compliance.

In the 2020 financial year, we continued to pursue our goal of minimising work related injuries and illnesses, and eliminating unsafe work practices. We also continued to promote the physical and psychological health and welfare of our team members. Further development of our safety management system and extensive engagement and consultation with our team members has made us even more reliable, consistent and efficient, and most importantly it has continued to set the foundations for our culture of care and continuous improvement.

We have reduced our injuries resulting in time off work by 16% from 2019. Improved safe work practices, focus on risk mitigation, safety in the design phase of construction, timely reporting, comprehensive injury management, leader accountability and personal responsibility have all played a part.

Our increased focus on the mental health and wellbeing of our team members has continued with mental health training sessions have been presented to team members, with a focus on self-care as well as learning how to identify and support team members who are experiencing difficult times. Detailed guidance is provided for how to manage emergency situations and for when it is appropriate to assist with referrals for medical or psychological intervention.

With increased promotion of our Employee Assistance Program, including face-to-face wellness and coaching sessions and comprehensive online resources, coupled with the challenges created by COVID-19, we have seen an increase in the uptake of these services.

Significant construction activity has continued throughout the year and we have worked closely with contractors to identify, assess and manage risk when planning and executing our building projects to ensure a safe environment for all those who work at, stay at and visit our properties.

Collectively, The Star Entertainment Group’s properties welcome around 20 million guests each year, however visitation was around 24 million in FY2020, impacted by COVID-19. The Group’s properties continued to deliver a range of world-class food and beverage, accommodation, theatre and entertainment options for local, domestic and international tourists.

The Group is committed to providing all guests with a safe, secure and comfortable experience at each of our properties. Our properties are subject to a high level of oversight from various external regulators. The Group works with police, casino regulators and the local community in each city so our properties remain safe for all of our guests.

We take a zero-tolerance approach to illegal, undesirable and anti-social behaviour in conjunction with our Responsible Gambling and Responsible Service of Alcohol (RSA) practices.

The Star Entertainment Group’s properties maintain leading security and surveillance operations. All properties are supported by 24 hours-a-day seven-days-a-week security and surveillance operations.

Across the Group’s three properties, our security and surveillance team comprises over 400 team members. Each property has in place standard operating procedures to deal with and respond to any suspected undesirable conduct. An incidents register is maintained at each property and for residents and stakeholders.

In March 2020, The Star Entertainment Group, alongside its Hong Kong-based partners, Chow Tai Fook Enterprises and For East Consortium opened the Queen’s Wharf Brisbane Visitor Centre to the public. The Visitor Centre’s major attraction is an interactive, locally-made 3D model of the $3.6 billion development including surrounding CBD and South Bank areas.

Other features include: a display dedicated to showcasing the precinct’s 190+ year European heritage with photos and artefacts; a media room to watch videos including time-lapse camera footage of the construction to date; a project timeline; and a photo booth where guests can picture themselves in the future precinct.
In the 2020 financial year, The Star Gold Coast maintained several long-term relationships with key charity partners in Queensland, including Surf Life Saving Queensland (SLSQ), Cancer Council Queensland, Gold Coast Hospital Foundation and Currumbin Wildlife Hospital.

We also worked closely with a variety of charitable groups and community partners to help raise further funds to assist those most in need in the local community, across our region and in Queensland.

As part of an annual collection and giving program with our selected community partners and other fundraising initiatives, The Star Gold Coast donated nearly $200,000. To mark The Star Gold Coast’s 25-year partnership with SLSQ, we served a craft beer made by SLSQ and Newstead Brewing Co., Nineteen 09, on tap at two of our venues – Harvest Buffet and M&G Café and Bar. A portion of proceeds from the sale was allocated to supporting volunteer surf lifesavers.

Supporting national and state bushfire fundraising efforts, The Star Gold Coast raised $50,000 by diverting its 2020 New Year’s Eve fireworks budget and donating all profits from drinks sold on the night at Garden Kitchen and Bar to the ‘GIVIT’ bushfire relief appeal.

During The Star Gold Coast Magic Millions Carnival in January 2020, we also worked with our partners and organisers to raise additional funds for the national bushfire relief appeal throughout the 12-day carnival. The Star Gold Coast kickstarted the drive with a $50,000 donation, while the appeal raised more than $11 million in total.

Although various events were impacted by COVID-19, we continued to be involved in partnerships that drive tourism and economic prosperity to the region. These include positioning The Star Gold Coast as Naming Rights Partner of Gold Coast Magic Millions Carnival and Race-day, and host and event partner of the TV Week Logie Awards.
The Star Sydney continued to support significant events, charitable groups and organisations that are important to the city and the local Pyrmont community.

As part of its ongoing community donations and giving program, The Star Sydney allocated over $148,000 to local groups and charities across Sydney. These included:

- Pyrmont Cares – a group that provides household goods, furniture and whitegoods to those in greatest need
- Pyrmont Ultimo Chamber of Commerce – which supports local businesses
- Innari Inc – a grassroots Indigenous organisation which assists families and individuals who are homeless or at risk of homelessness
- Lifeline Australia
- Ultimo Public School and Fun Run
- OzHarvest.

In February 2020, The Star Sydney expanded its commitment to racing in New South Wales and The Star Entertainment Group’s 20-year association with Australian Turf Club (ATC) as well as naming rights to Sydney Autumn Racing Carnival’s showpiece, The Star Championships.

The partnership ensures that official naming rights for The Star Championships continues through to 2023. The Star will also have naming rights for The Star Mile run as a part of The Everest Carnival line-up in October 2020 and 2021.

The Star Sydney continued a variety of partnerships and sponsorships including:

- NSW Rugby League
- Sydney Gay and Lesbian Mardi Gras
- Quer Screen (a not-for-profit arts organisation that showcases LGBTQI screen content)
- Sydney FC
- Sydney Swans
- City of Sydney’s Lunar New Year Festival
- ARIA Awards
- AACTA Awards

The Star Sydney allocated over $148,000 to local charitable groups and organisations that are important to the city and the local Pyrmont community.

The program’s delivery framework continues to evolve and lead the way in training future chefs. The apprenticeship program has a positive external brand within the hospitality industry, professional associations and education sector.

The attraction for apprentices is the diversity of training offered through the variety of outlets at the Group’s properties which provide the apprentices with valuable experiences working with different cuisines, production and service offerings, whilst receiving expert mentorship from senior chefs.

One of the major highlights was the international recognition of our apprentice, Cristopher Matkowski. Cristopher proudly represented both The Star Entertainment Group and Australia at the 2019 WorldSkills competition held in Kazan, Russia. This competition is referred to as the “Olympics” for trade and vocational skills.

The process for WorldSkills competitions commences in Australia and SCI prepares a team of New South Wales and Queensland apprentices to compete in the challenge under the SCI banner. The apprentices are trained in-house and by TAFE NSW or TAFE Queensland, with the support from the Group’s preferred suppliers. Cristopher has now graduated from the culinary apprenticeship program and is a Commis Chef at Flying Fish at The Star Sydney.

Other international opportunities were created through external competitions hosted by education partners and professional associations. The apprentices are proud to represent the Group internationally, whilst gaining new skills, cultural awareness and an international experience to share with other apprentices and chefs.

The Group continues to attract highly talented and diverse university graduates into the expanding graduate program across all locations. The graduates learn on-the-job, developing their career skills by working within the operations teams and on dedicated projects with the executive team. To date, all successful graduates have been offered employment opportunities with the Group upon completion of the graduate program.

The 2020 graduate program is focussing on developing women in leadership, with a 50/50 gender split.
SUSTAINABILITY

Supporting Team Member Wellbeing and Connectivity through COVID-19

The physical health, emotional, and financial wellbeing of our team members has remained at the forefront of our focus throughout the COVID-19 crisis.

On 23 March 2020, the Group announced the closure of all its property operations in Sydney, Gold Coast and Brisbane following a shut-down order by the Australian Government. More than 95% of the Group’s approximately 9,000 workforce was stood down following the initial announcement. In reaction, the Group took immediate steps to provide support to our team members.

To guide our actions and responses, a range of support materials and initiatives were deployed to shape our collective resilience. Support and initiatives deployed included:

Physical Support

• From January 2020, all team members were welcome to bring and wear their own medical face mask.
• The Group also offered a supply of face masks for team members (on request) and to ensure correct application and removal of face masks, qualified nurses were available on-site to offer instructions.
• Extra hand sanitisers were distributed across all back of house areas including team cafes, bathrooms, team entry, and kitchens.

Social Connection and Learning Support

The need for our team members to be socially connected was recognised. To support this connectivity and as a way to promote two-way communications with a largely stood down workforce, we established The Star Connected Facebook page.

The Star Connected Facebook group has welcomed over 4,600 team members who received continuous updates on COVID-19 and had an opportunity to remain connected with colleagues and leaders.

Health and Wellbeing Support

• A range of practical tips including COVID-19 specific podcasts, YouTube videos, and mental health support links and resources to keep our people healthy, shared regularly via email and on the Group’s dedicated COVID-19 intranet page.
• To ensure a centralised point for all information and team member communications, a dedicated intranet page was established.
• The Star COVID-19 Hotline was established to help team members with coronavirus related health questions manned by specialist registered nurses available 24/7 to answer any medical or leave questions about COVID-19.

Direct Access to COVID-19 Support for Leaders and Team Members

Immediately following the Australian Government’s shut-down order, a dedicated email address was established for a working team (the MyQueries team) to receive and respond to all non-health related queries from team members and leaders.

The MyQueries team responded to over 22,000 emails.

Financial and Employment Related Support

In March 2020, the Group offered two weeks of paid Pandemic Leave in addition to existing statutory leave entitlements and other employment obligations, to assist team members impacted by the COVID-19 pandemic.

Partnerships were established with Woolworths, the Queensland Government and NOVA Partners, and communications were activated via email and on the Group’s intranet to notify team members of alternative job opportunities and free training.

In May 2020, the Group implemented the ‘Star Offers Support’ (SOS) initiative to provide additional financial support for team members experiencing sudden and severe financial hardship as a result of the COVID-19 pandemic.

This initiative assisted over 600 team members with SOS payments totalling around $3 million, alongside the paid pandemic leave distribution of $18 million.

Diversity and Inclusion Groups

Our diversity and inclusion program sits at the heart of The Star Entertainment Group’s culture, and is represented in all areas of our team members’ experience. These include our Employee Values Proposition, our Vision, our Values, our Service Commitment and our talent and development strategies.

Our team member-led working groups focus on four key areas of diversity: multicultural; LGBTQI; gender; and age. In the 2020 financial year, the working groups re-evaluated the Group’s diversity targets with the support of the Board.

Multicultural Diversity - Unity@The Star

Sponsor: Greg Hawkins, Chief Casino Officer (NSW)

Target: 20% Asian representation of leaders (levels 1 - 3) by 2023.

AIM: To leverage and champion our cultural diversity to become Australia’s leading integrated resort company, creating inclusive frameworks to promote career development for all team members and to extend personalised excellence to our guests.

Gender Diversity - Women@The Star

Sponsor: Paula Martin, Chief Legal & Risk Officer

Target: 45% female and 45% male representation of leaders (levels 1 - 4) by 2023 (with the remaining 10% reflecting scope for non-binary gender identities).

AIM: To promote gender equality in all aspects of our business by championing change and advocating opportunities for all individuals.

LGBTQI Diversity - Spectrum

Sponsor: George Hughes, Chief Marketing Officer

Target: LGBTQI-inclusive employer as measured by increasing our scores on the Australian Workplace Equality Index (AWEI) by 5% year-on-year.

AIM: To foster a safe, inclusive and welcoming environment for LGBTQI team members and guests, and to enable everyone to be their best and true self.

Age Diversity - Young@Heart

Sponsor: Geoff Hagg, Chief Casino Officer (QLD)

Target: Providing a welcoming culture for our mature aged Team Members as measured by our employee engagement survey.

AIM: To encourage everyone to be their best self at every age and every stage, primarily through the provision of greater career support for mature aged employees and through a range of policies and practices that allow for people to optimise their career.

Diversity & Inclusion Recognition and Awards

Reffinitiv Diversity & Inclusion Index

The Star Entertainment Group was ranked number 2 in Australia, and number 25 globally in the 2019 Reffinitiv Diversity and Inclusion Index.

Australian Workplace Equality Index

In 2020, The Star Entertainment Group was recognised as a Bronze Employer in the Australian Workplace Equality Index.
EVENTS AND CELEBRATIONS
The Group’s annual ‘Walk and Talk’ event celebrates International Women’s Day. Around 400 leaders and team members came together across our three properties to take action against inequality and to raise awareness against gender bias. The Star Sydney has been an active participant and sponsor of the Sydney Gay and Lesbian Mardi Gras for the past five years. At the 2020 event, 70 team members, including senior management, from across Sydney, Brisbane and the Gold Coast participated in the parade.
More than half of the Group’s 9,000 team members come from culturally diverse backgrounds, and collectively are fluent in over 70 languages and dialects.

EQUALITY AT THE STAR
• The Group is actively reducing the gender pay gap through targeted remuneration increases which has resulted in a year-on-year decrease of the gap for salaried team members.
• The percentage of women promoted to manager positions increased by 23.28% to 42.9% in FY2020.
• Overall female representation has remained at just above 44% for the past three years.
• Female representation in levels 1, 2, 3 and 4 has steadily increased in the past three years.

SHAPING OUR CULTURE
The Group’s culture is underpinned by its ‘Values’, ‘Strategy on a Page’, ‘Star Quality’, and ‘Guest Excellence programmes’. A series of executive forums were held over the 2020 financial year to further explore the mindsets, behaviours and traits necessary to support the Group’s cultural framework.
As a result of this exploration, the following activities were undertaken:
• Executive Leadership Cultural Assessment, including interviews with Executive Leadership Teams (ELT) and select direct reports.
• ELT and select direct reports attended a 4.5 hour Cultural Alignment session.
• ELT and select direct reports attended a Future State Cultural Blueprint planning session.

RELAUNCH OF CAREERS WEBSITE AND RECRUITMENT CAMPAIGN
To reflect and showcase the Group’s commitment to hiring, developing and promoting team members regardless of age, gender, sexual orientation or cultural background, and to support our future growth plans, The Star launched the ‘You’re Welcome’ recruitment campaign via its refreshed careers website www.thestarcareers.com.

REWARD & RECOGNITION
In FY2020, The Star continued its reward and recognition framework first established in the previous financial year. The annual Star Awards Gala, an event to celebrate and show appreciation of team members, was scheduled for September 2020 but has been postponed as a result of COVID-19.
The Star Awards is our premier program for rewarding and recognising top performers - team members who are delivering thrilling guest experiences and leaders who are living our values and demonstrating leadership competencies. Team members are recognised across four key areas: Guest Excellence, Service Support, Leadership and a Team Award.
In FY2020, formal recognition was awarded to 543 team members (including all nominated team members and the quarterly winners). In addition, the Group recognised approximately 300 team members for long-term tenures of 5, 10, 20 and 30 years of service via its Let’s Celebrate initiative.

CHANGE LEADERSHIP & ORGANISATIONAL EFFECTIVENESS
Recent organisational changes provided an opportunity to simplify and look at consistency across the business. This assisted the Group’s ability to adapt and respond effectively to the COVID-19 crisis.
To assist our leaders in navigating change and new ways of working, a series of two-hour workshops were held across the Group’s properties to refocus and re-energise its 200-plus leadership cohort. These workshops highlighted the long term objectives of the organisation and aimed to equip our leaders with the capability and mindsets required to lead enterprise-wide cultural transformation post change and in readiness for completion of the Queen’s Wharf Brisbane development.
The Directors of The Star Entertainment Group Limited (the “Company”) submit their report for the consolidated entity comprising the Company and its controlled entities (collectively referred to as the “Group”) in respect of the financial year ended 30 June 2020.

1. Directors

The names and titles of the Company’s Directors in office during the financial year ended 30 June 2020 and until the date of this report are set out below. Directors were in office for this entire period.

2. Operating and Financial Review

The Directors’ Report for the year ended 30 June 2020 has been designed to provide shareholders with a clear and concise overview of the Group’s operations, financial position, business strategies and prospects. The review also discusses the impact of key transactions and events that have taken place during the reporting period and material business risks faced by the Group, to allow shareholders to make an informed assessment of the results and future prospects of the Company. The review complements the Financial Report and has been prepared in accordance with the guidance set out in ASIC’s Regulatory Guide 247.

2.1. Principal activities

The principal activities of the Group are the management of integrated resorts with gaming, entertainment and hospitality services. The Group operates The Star Sydney (“Sydney”), The Star Gold Coast (“Gold Coast”) and Treasury Brisbane (“Brisbane”). The Group also manages the Gold Coast Convention and Exhibition Centre on behalf of the Queensland Government and invests in a number of strategic joint ventures.

2.2. Business strategies

The key long term strategic priorities for the Group, in pursuit of its vision to be Australia’s leading integrated resort company, remain unchanged:

- Create world class integrated resorts with local spirit;
- Manage planned capital expenditure programs on time and budget to deliver value and returns for shareholders;
- Increase volume of high-value visitation from local, domestic and international markets through continued emphasis on loyalty and gaming strategies;
- Grow the domestic and International VIP Rebate business;
- Identify, retain, develop and engage a highly talented team of employees across properties and the Group; and
- Improve customer experience, including providing customers with tailored product and service offerings.

The Group has continued to make good progress on all these key strategic priorities during the year, despite the impact of COVID-19, with:

- Solid domestic earnings growth pre-COVID-19, including growth from Gold Coast investments;
- Comprehensive response to COVID-19 pandemic - safeguarded customers and staff, secured group funding, reduced operating expenditure during closure and positioned the business for post-pandemic recovery;
- Long term agreement to FY2041 was concluded with the NSW Government, providing regulatory certainty over gaming taxes, casino exclusivity in relation to electronic gaming machines and other key issues;
- Cessation of the process to create a second integrated resort on the Gold Coast with no requirement for additional capital expenditure;
- Joint venture growth projects are proceeding to plan, including $1.6 billion in debt funding secured for Queen’s Wharf Brisbane on terms agreed pre-COVID-19;
- Ongoing construction of first Gold Coast joint venture tower and continued presales for second tower; and
- Delivery on time and on budget of the upgraded and expanded Sovereign in Sydney, opened on 3 July 2020.

2.3. Group performance

The Group continued executing its growth strategy despite an unprecedented environment. Whilst acknowledging the impacts of COVID-19 have been challenging, the fundamental earnings opportunity for the Group remains unchanged, underpinned by valuable long-term licences in sought after destinations.

Group performance in FY2020 was significantly affected by COVID-19. Following Federal and State Government directives requiring the closure of all non-essential businesses, the Group ceased gaming, food and beverage, banqueting and conferencing operations at all its properties from 23 March 2020. Hotel accommodation remained open in a significantly reduced capacity. The Star Sydney re-opened on a highly restricted basis from 1 June 2020 in accordance with a COVID-Safe Plan which complied with NSW Government health orders. At the re-opening, The Star Sydney was initially limited to serving up to 500 customers at one time due to COVID-19 spatial distancing requirements. The Star Gold Coast and Treasury Brisbane did not re-open until 3 July 2020.

The closure of the Group’s properties on 23 March 2020 followed a period of lower visitation and revenue, impacted by border closures and travel restrictions as a response to COVID-19. Given the exogenous disruption and property closures as a result of COVID-19, the Group’s financial performance in FY2020 may be considered from 29 February 2020 (the Group’s performance pre-COVID-19) as well as over FY2020 (incorporating the property closures and restricted trading).

Gross revenue, before commissions, of $1,748.9 million was down 30.4% on the prior comparable period (pcp). For the period to February 2020, gross revenue, before commissions of $1,586.1 million was down 7.6% on the pcp, largely due to the unusually low win rate in the International VIP Rebate business of 0.69% (1.45% in the pcp). This was partially offset by 2.4% growth in domestic revenue, driven by broad based growth across the Queensland properties. Normalised1 revenue increased 7.5% to $1,817.7 million, reflecting growth in International VIP Rebate volumes, up 25.3%.

State Government imposed restrictions lead to a deterioration of revenue post February 2020, as social distancing measures were progressively imposed, up to closure of the properties on 23 March 2020. Gross revenues post February 2020 of $162.8m includes $31.5m related to the Sydney property re-opening in June and revenue initiatives during closure.

For the period to February 2020, operating costs were flat on pcp, reflecting domestic and International VIP volume growth, higher wages, performance based provisioning and International VIP debt provisioning, offset by cost out benefits. Gaming taxes and levies were down 2.3%, in line with lower revenue. Significant expense items ($7.7 million before tax) relate to written off costs related to the Sydney Ritz-Carlton Tower.

Looking forward into FY2021, the focus will be on the following key priorities:

Operational priorities
- Safely and effectively lift performance through the COVID-19 recovery;
- Address the introduction of casino competition into the Sydney market through leveraging the newly opened sovereign, upgrades to the loyalty program, focused marketing and sales plans, and retention of key staff;
- Continue to differentiate the value proposition of each of the properties through brand, depth and breadth of gaming offer, loyalty, customer service, hospitality and tourism; and
- Maintain operating expenses disciplines.

Balance sheet priorities
- Maintain robust cash position through ongoing management of capital expenditures and suspension of the dividend;
- Constructive engagement with lenders to obtain covenant waivers that are likely to be required; and
- Continue capital recycling program of non-core operating assets, including the Sydney carpark, VIP assets, and other options.

Strategic priorities remain unchanged
- Deliver on operating model by leveraging improved capabilities and retain cost management benefits; and
- Progress investment strategy in Sydney, the Gold Coast masterplan, and Queen’s Wharf Brisbane in partnership with Chow Tai Fook (CTF) and Far East Consortium (FEC).

The Group has excluded from this report any further information on the likely developments in the operations of the Group and the expected results of those operations in future financial years, as the Directors have reasonable grounds to believe that to include such information will be likely to result in unreasonable prejudice to the Group.
Post February 2020, operating costs were $108.9 million, which includes approximately $10 million per month during property closures. Gaming taxes and levies were $12.5 million, reflecting the significantly reduced revenue over the period. Significant expense items ($148.2 million before tax) relate to increased provision for VIP debts, asset impairments and one-off COVID-19 related expenditures.

Earnings before interest, tax, depreciation, amortisation (EBITDA) (excluding significant items) of $282.0 million was down 49.0% on pcp. Normalised EBITDA (excluding significant items) of $429.6 million was down 22.8% on pcp. For the period to February 2020, EBITDA (excluding significant items) of $263.8 million was down 35.0% on pcp. Normalised EBITDA (excluding significant items) of $420.7 million was up 12.1% on pcp.

Depreciation and amortisation expense of $205.0 million was down 0.4% on pcp, reflecting $9.0 million of one-off accelerated depreciation in the pcp, partially offset by $8.1 million of depreciation on leased assets, introduced for the first time in FY2020 following adoption of the new accounting standard AASB 16 Leases. Finance costs of $48.4 million (excluding significant items) were up 37.1%, reflecting the higher average drawn debt balances.

Net loss after tax was $94.6 million. Normalised net profit after tax, excluding significant items, was $120.8 million, $478.8 million) with an EBITDA to cash conversion ratio of 102% (30 June 2019: 92%). Operating cash flow before interest and tax was $157.6 million (30 June 2019: $225.6 million, up 17.4% on pcp due to an improved win rate of 1.22% (1.02% in the pcp). Domestic revenue growth of 5.2% was broad based, and primarily driven by realisation of investments into the Gold Coast property. Gaming revenue grew across both slots and table, while non-gaming benefited from an uninterrupted year of open food and beverage outlets and greater room rates in the hotels. International VIP Rebate revenue was $14.4 million, down 93.2%. Down by turnover of $16.4 billion, up 80.3%, revenue declined due to an extraordinarily low win rate of 0.69% (2.33% in the pcp). Normalised gross revenue in Queensland was $741.7 million, up 20.2% on the pcp. For the period to February 2020, gaming taxes and levies were down 10.8% on the pcp, in line with decreased revenue.

Depreciation and amortisation expense of $205.0 million was down 0.4% on pcp, reflecting $9.0 million of one-off accelerated depreciation in the pcp, partially offset by $8.1 million of depreciation on leased assets, introduced for the first time in FY2020 following adoption of the new accounting standard AASB 16 Leases. Finance costs of $48.4 million (excluding significant items) were up 37.1%, reflecting the higher average drawn debt balances.

Net loss after tax was $94.6 million. Normalised net profit after tax, excluding significant items, was $120.8 million, down 46.0% on the pcp. Basic and Diluted Earnings per Share were both (10.3%) cents (both 6.1 cents in the pcp).

2.4. Group financial position

The Group remains committed to maintaining a balance sheet that positions it for post-COVID-19 recovery. No final dividend was declared, and the interim dividend was deferred, allowing for settlement via a fully underwritten share issue on 2 July 2020. In accordance with the conditions of debt covenant waivers at 30 June 2020, no further cash dividends will be paid until the Group’s gearing, which represents the ratio of net debt to 12 month trailing statutory EBITDA, is below 2.5 times. Patрон receivables continue to be recovered, however collection has been subordinated due to closures of casinos in the region and international travel restrictions limiting VIP patron visitation.

For the period to February 2020, gross revenue was $1,169.5 million, down 25.4% on the pcp and EBITDA (excluding significant items) was $284.1 million, down 7.6% on the pcp. Normalised EBITDA was $276.9 million, down 24.6% on the pcp. The property was subject to progressively imposed social distancing measures through March 2020, culminating in closure of the property on 23 March 2020. While the property was re-opened on 1 June 2020, this was under restricted capacity limits.

For the period to February 2020, gross revenue was $1,051.0 million, up 17.4% on pcp. International VIP Rebate revenue was $225.6 million, up 3.9% on pcp to an improved win rate of 1.22% (1.02% in the pcp). Domestic revenue was up 0.7%, driven by non-gaming revenue. Hotel cash revenue was up 5.4% due to higher occupancy and rates while food and beverage cash revenue, up 7.1%, benefited from a full year of trading in the new outlets.

Domestic gaming revenue was flat on a strong pcp. Normalised gross revenue in Sydney was $1,076.0 million, up 0.3% on the pcp.

For the period to February 2020, gaming taxes and levies of $247.8 million were up 2.4% on the pcp, in line with increased revenue. Sydney’s average non-rebate tax rate was 31.3%, down from 31.5% in the pcp (top marginal tax rate of 50.0% in both years). Operating expenditure of $423.4 million was down 1.7% on the pcp, reflecting increased domestic volumes and higher wages offset by lower International VIP Rebate volumes.

2 Net debt is shown as interest bearing liabilities (excluding lease liabilities), less cash and cash equivalents, less net position of derivative financial instruments.
The Queensland Government has ceased the process to create a Global Tourism Hub or second integrated resort on the Gold Coast and has confirmed it has no intention of revising the market process for a new integrated resort. The Group continues to focus on delivery of its major investment projects in Queensland.

Capital expenditure, excluding equity investments into the new tower with joint venture partners CTF and FEC, in the current year was approximately $30 million across various minor projects. The Group also continues to manage the Gold Coast Convention and Exhibition Centre adjacent to the casino.

Brisbane

In November 2015 contractual close was reached between the Queensland Government and Destination Brisbane Consortium (DBC) on the Queen’s Wharf Brisbane development. DBC’s Integrated Resort ownership structure requires capital to be contributed 50% by the Group and 25% each by CTF and FEC. The Group will act as the operator under a long-dated casino management agreement.

The Group holds a perpetual casino licence in Queensland that is attached to the lease of the current Treasury site that expires in 2070. Upon opening of the Integrated Resort, the Group’s casino licence will be surrendered and DBC will hold a casino licence for 99 years including an exclusivity period of 25 years.

CTF and FEC will each contribute 50% of the capital to undertake the residential and related components of the broader Queen’s Wharf Brisbane development. The Group is not a party to the residential apartments development joint venture.

Shell, core and façade work is underway, with construction progressed above ground. Works have been uninterrupted by the COVID-19 pandemic, however appropriate contingencies are in place should an issue arise.

Target total project costs are estimated to be approximately $2.4 billion, excluding government payments and Treasury Brisbane repurposing costs, with increased capital return expectations. Hotel fit out costs were contracted in 2H FY2020, bringing the total project costs under lump sum terms to approximately 75%. A further 13%, related to the next stage of hotel fit out, is expected to be contracted in 1H FY2021.

$1.6 billion project level debt facility was established in May 2020. The debt runs for a 5.5 year term, which includes the next stage of hotel fit out, is expected to be contracted in 1H FY2021. The Group is not a party to the residential apartments development joint venture.

The Group’s Global Reporting Index (GRI) Index for the fourth year running.
The Group’s Global Reporting Index (GRI) report is published on the Company’s website, demonstrating a ‘core’ level of compliance. The GRI Reporting Standards are the most widely used standards for sustainability reporting, and represent global best practice for reporting on economic, environmental and social impacts.
The Company is registered under the National Greenhouse Energy Reporting System (NGERS) and reports all energy consumption and greenhouse gas emissions to the Federal Government each year. The Company’s Environmental Management Policy, Sustainability Strategy and Action Plan, Materiality Assessment and Sustainable Design and Operational Standards can be found on the Company’s website. Sustainability performance and progress against the Sustainability Strategy is reported to the People, Culture and Social Responsibility Committee regularly.

3. Earnings per share (EPS)
Basic and diluted EPS for the financial year was (10.3) cents (2019: 21.6 cents), 147.7% down on the pcp

4. Dividends
4.1 Dividend per share
An interim dividend of 10.5 cents per share (fully franked) was declared on 19 February 2020 and payable on 1 April 2020. However, due to the impact of COVID-19, payment of the interim dividend was deferred and paid on 2 July 2020. In order to maintain a balance sheet that positions the Group for a post COVID-19 recovery, no final dividend was declared.

5. Significant events after the end of the financial year
On 2 July 2020, the Group issued 30,730,998 new shares to settle the interim dividend (refer to note A6). Existing shareholders who elected to participate in the Dividend Reinvestment Plan (DRP) received 6,849,977 new shares.

As part of the Group’s commitment to building world class properties, the Group continues to target sustainable

An active energy and water project pipeline, first established in FY2014, continues to monitor and track projects that

2.8. Environmental regulation and performance
The Group is committed to sustainability leadership in the entertainment sector and reducing resource consumption

The Group’s Global Reporting Index (GRI) Index for the fourth year running.

The Group’s business continuity framework enables early identification of material risks to the continued operation of a resort facility. The framework is supported by a suite of emergency response, crisis management, and disaster recovery plans that are regularly tested and updated.

Risk and description
Data and systems security and reliability
The Group has a dedicated IT security function which continuously tests and monitors technology systems to detect and block viruses and other threats to the security of the Company’s data. Employees are regularly trained on the importance of maintaining effective cyber security and data privacy processes.

Financial management
The ability to maintain financial performance and a strong balance sheet which enables the Group to fund future growth opportunities on commercially acceptable terms.

Corporate governance
The ability to maintain a strong and effective governance structure which supports a culture of transparency, accountability, and compliance.

The Group has a well-defined governance framework which identifies the roles and responsibilities of the Board, the Board Committees and senior management. The Group also has a complementary set of key policies, compliance with which is monitored on an ongoing basis. The Group operates an integrated “3 lines of defence” model to identify and manage key risks and to provide assurance that critical controls are effective in managing those risks.

The Group has in place a five-year Sustainability Strategy, ‘Our Bright Future’, which is focused on building business
capability and delivering continuous improvement in the management of environmental, social and governance issues (ESG). The Sustainability Strategy is aligned to the business strategy and groups ESG objectives and targets into four key pillars:

- we strive to be Australia’s leading integrated resort company;
- we actively support guest wellbeing;
- we attract, develop and retain talented teams; and
- we develop and operate world class properties.

The Sustainability Strategy is underpinned by a structured materiality assessment process that is conducted annually to ensure ESG issues remain relevant. In January 2020, the Group released ‘Beyond 2020, The Star’s Sustainability Action Plan’ to support the delivery of the Sustainability Strategy pillars. The Star’s Beyond 2020 Sustainability Action Plan highlights the Group’s achievements to date, material issues, priorities, commitments and future goals.

Mitigation strategy
The Group has a dedicated IT security function which continuously tests and monitors technology systems to detect and block viruses and other threats to the security of the Company’s data. Employees are regularly trained on the importance of maintaining effective cyber security and data privacy processes.

A - Number of meetings attended as a Board or Committee member.
B - Maximum number of meetings available for attendance as a Board or Committee member.
C - The Managing Director and Chief Executive Officer is not a member of any Board Committee but may attend Board Committee meetings upon invitation. This attendance is not recorded here.

Details of the functions and memberships of the Committees of the Board and the terms of reference for each Board Committee are available from the Corporate Governance section of the Company’s website.

10. Indemnification and insurance of Directors and Officers

The Directors and Officers of the Company are indemnified against liabilities pursuant to agreements with the Company. The Company has entered into insurance contracts with third party insurance providers, in accordance with normal commercial practices. Under the terms of the insurance contracts, the nature of the liabilities insured against and the amount of premiums paid are confidential.

11. Indemnification of auditors

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young Australia, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young during or since the end of the financial year.

12. Non-audit services

Ernst & Young, the external auditor to the Company and the Group, provided non-audit services to the Company during the financial year ended 30 June 2020. The Directors are satisfied that the provision of non-audit services during this period was compatible with the general standard of independence for auditors imposed by the Corporations Act 2001 (Cth). The nature and scope of each type of non-audit service provided did not compromise auditor independence. These statements are made in accordance with advice provided by the Audit Committee.

The Audit Committee reviews the activities of the independent external auditor and reviews the auditor’s performance on an annual basis.

Limited authority is delegated to the Company’s Chief Financial Officer for the pre-approval of audit and non-audit services proposed by the external auditor, limited to $50,000 per engagement and capped at 40% of the relevant year’s audit fee. Delegated authority is only exercised in relation to services that are not in conflict with the role of statutory auditors, where management does not consider the services to impair the independence of the external auditor and the external auditor has confirmed that the services would not impair their independence. Any other non-audit related work to be undertaken by the external auditor must be approved by the Chair of the Audit Committee.

Further details relating to the Audit Committee and the engagement of auditors are available in the Corporate Governance Statement.

Ernst & Young, acting as the Company’s external auditor, received or is due to receive the following amounts in relation to the provision of non-audit services to the Company:

- Fees for other assurance and agreed-upon-procedures services (including sustainability assurance) under contractual arrangements where there is discretion as to whether the service is provided by the auditor - $90,000
- Fees for other advisory and compliance services - $224,414

Total of all non-audit and other services - $314,414

13. Rounding of amounts

The Star Entertainment Group Limited is a company of the kind specified in the Australian Securities and Investments Commission’s ASIC Corporations (Rounding in Financial/Directors’ Reports) Instrument 2016/191. In accordance with that Instrument, amounts in the Financial Report and the Directors’ Report have been rounded to the nearest hundred thousand dollars unless specifically stated to be otherwise.

14. Auditor’s independence declaration

Attached is a copy of the auditor’s independence declaration provided under section 307C of the Corporations Act 2001 (Cth) in relation to the audit of the Financial Report for the year ended 30 June 2020. The auditor’s independence declaration forms part of this Directors’ Report.

This report has been signed in accordance with a resolution of Directors.

John O’Neill AO
Chairman
Sydney
20 August 2020
Auditor’s Independence Declaration to the Directors of The Star Entertainment Group

As lead auditor for the audit of the financial report of The Star Entertainment Group for the financial year ended 30 June 2020, I declare to the best of my knowledge and belief, there have been:

a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and

b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of The Star Entertainment Group and the entities it controlled during the financial year.

Ernst & Young

20 August 2020

Introduction from the Remuneration Committee Chair

Dear Shareholder,

On behalf of the Board, I present the Remuneration Report for the year ended 30 June 2020 (FY20). This report is prepared on a consistent basis to the previous year for ease of reference.

2019 Annual General Meeting (AGM)

The FY19 Remuneration Report received positive shareholder support at the 2019 AGM, with 97.05% of votes in favour of the resolution.

At the 2019 AGM, shareholders approved a grant to the Managing Director and Chief Executive Officer of performance rights under the Long Term Incentive Plan (LTI). His total remuneration package for FY20 was unchanged from the prior year with the exception of the COVID-19 salary sacrifice adjustments in the last quarter of FY20.

COVID-19 impact

On the 25 March 2020, the Group announced the cessation of gaming activities and closure of food and beverage outlets pursuant to Federal, New South Wales and Queensland Governments’ COVID-19 related directives, requiring the closure of all non-essential businesses. The shutdown of the casino properties had a material impact on The Star’s operations and performance for the year, including the temporary standing down of approximately 90% of the workforce. Remuneration adjustments or reduced hours were accepted by executives, including a 40% salary reduction for the Managing Director and Chief Executive Officer and a 50% fee reduction for Non-Executive Directors for the remainder of FY20.

Prior to the closure of operations, the Group was on track to meet its Normalised Net Profit after Tax (NPAT) target (at the end of February 2020 (pre-COVID-19), NPAT was 105% against target and up 16% on the prior corresponding period), and on track to meet its non-financial performance measures of Guest Satisfaction and Safety - Total Reportable Injury Frequency Rate. However, the shutdown has resulted in a Statutory Net Loss After Tax for the Group of $94.6 million for FY20.

FY20 Short Term Incentive (STI)

The Group did not achieve the financial gateway under the STI, however, the Board has decided to exercise its discretion to make limited equity awards under the FY20 STI. The rationale for the exercise of discretion and details of the awards made are set out in section 4.4 of this report.

Long Term Incentive (LTI)

The FY16 LTI award was tested for vesting during the period and did not vest as the relative Total Shareholder Return (TSR) and Earnings per Share (EPS) hurdles were not met.

The FY17 LTI will be tested for vesting in October 2020. The guiding principles communicated in FY19 will be applied to support a fair and reasonable outcome. Further updates on the outcomes will be provided ahead of the 2020 AGM.

In light of the uncertainty created by the pandemic, the target setting for the FY21 LTI awards will be delayed, refer to section 4.5 of this report.

KMP changes

During the year, the Chief Financial Officer (CFO) role was assumed by Harry Theodore, who replaced the outgoing Group CFO Chad Barton. Details of the separation arrangements and remuneration details for the CFO are provided in this report.

We thank you for your support in FY20 and welcome your feedback on our Remuneration Report.

Yours sincerely,

Sally Pitkin
Remuneration Committee Chair
This Remuneration Report is comprised of the following sections:

PLEASE NOTE: Page numbering from the original Directors’, Remuneration and Financial Report released to ASX on 20 August 2020 are also included for reference.

The Directors of The Star Entertainment Group Limited (The Star Entertainment Group or the Company) have approved this Remuneration Report for the consolidated entity comprising the Company and its controlled entities (collectively referred to as the Group) in respect of the financial year ended 30 June 2020.

This Remuneration Report outlines the remuneration arrangements for Key Management Personnel (KMP) who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of The Star Entertainment Group Limited. This report has been prepared in accordance with the requirements of the Corporations Act 2001 (Cth) (the Corporations Act) and its regulations. The information has been audited as required by section 308(3C) of the Corporations Act where indicated.

For the purposes of this report, the term Executive KMP means the executive director (Managing Director and Chief Executive Officer) and senior executives (the Chief Financial Officer, the Chief Casino Officer and Group Executive Operations) but excludes Non-Executive Directors (NEDs).

1. Summary for FY20

Remuneration Reviews

In accordance with its Reward Strategy, the Company annually assesses the remuneration levels and mix for Executive KMP to identify where adjustments are appropriate based on market benchmarking against relevant peer groups. The Company considers companies with a market capitalisation within the range of 70%-160% of The Star Entertainment Group’s market capitalisation and appropriate gaming and entertainment peers. Following the annual remuneration review completed in September 2019, the Board made no changes to the Managing Director and Chief Executive Officer’s fixed remuneration and short-term incentive for FY20. There were no increases to the total annual reward for other Executive KMP. Following the impact of the COVID-19 health crisis on the business, remuneration adjustments were made for all executives, including a 40% salary reduction for the Managing Director and Chief Executive Officer and a 50% fee reduction for Non-Executive Directors for the remainder of FY20.

Further details on Executive KMP remuneration are provided in Table 10.

For FY21, there will be no change made to the Managing Director and Chief Executive Officer’s remuneration.

Short Term Incentive (STI)

For purposes of the FY20 STI the Group was on track to meet its performance gateway prior to COVID-19, however as a result of the mandatory shutdown of operations in March 2020, the full year result was impacted and the NPAT gateway was not met.

The Board considered a range of factors, including the impact of COVID-19 on the Group’s operations, team members, shareholders, guests and other stakeholders. Management’s response to the pandemic, including the delivery of significant milestones critical for future success and shareholder value creation, in spite of the challenging environment were considered. The Board also considered the aim of the STI, which is to reward participants for the achievement of the Group’s strategy and operational goals, as well as to retain talent, particularly in an environment of increased competition (including in Sydney from 2021) and uncertainty.

Based on this assessment, the Board approved a limited STI pool, determined as a percentage of the on target STI amount. For the MD and CEO and Executive Committee, 40% of the STI on-target amount was approved (individual outcomes for Executive KMP are outlined in Table 1). For the remaining 779 STI participants, 60% of the on-target amount was approved.

The FY20 STI awards will be delivered in shares to preserve cash and be subject to a one year retention restriction from the date of issue.

Details are provided in section 4.4 of this report.

Long Term Incentive (LTI)

Performance rights relating to the FY16 LTI award were tested in September 2019 with none of these rights vesting into fully paid ordinary shares. The TSR performance of the Group was -3.089% with a percentile ranking of 14.93 and the EPS performance was 22.4 cents (below the target of 35.2 cents and threshold of 33.5 cents). The FY17 LTI will be tested for vesting in October 2020.

Due to the uncertainty created by COVID-19 on the budget setting and strategic planning processes, target setting for the FY21 LTI will be delayed.

Remuneration Outcomes

Table 1 provides a summary of total remuneration received by Executive KMP during the 2020 financial year. This information differs from the Statutory Remuneration Table 11 on page 32, which presents remuneration in accordance with accounting standards.

In response to the COVID-19 business closures, all Executive KMP (excluding Mr Barton) elected to take temporary reductions to their fixed remuneration ranging from 20% – 40% for the period from 1 April to 30 June 2020.
Mr Chad Barton's responsibilities were transitioned to Mr Harry Theodore who joined The Star in 2011 and previously held the role of Chief Commercial Officer.

Mr Barton's fixed remuneration for the year comprised $252,498 in fixed remuneration, $394,615 paid as an Employment Termination Payment (ETP) and an on-ear payment of $317,448.

¹ On 16 August 2019, the Company announced Mr Chad Barton’s decision to leave the business effective 1 November 2019. From 1 September 2019, Mr Barton’s responsibilities were transferred to Mr Harry Theodore who joined The Star in 2011 and previously held the role of Chief Commercial Officer.

Use of remuneration advisors

The Committee seeks external advice from time to time to ensure it is fully informed when making remuneration decisions. Remuneration advisors are engaged by, and report directly to, the Committee. The Group went to market during FY20 for remuneration advisory services and as a result, PricewaterhouseCoopers (PwC) were re-appointed as the Group’s independent external remuneration consultants. No remuneration recommendations as defined by the Corporations Act were provided by PwC during FY20.

Remuneration Report approval at 2019 Annual General Meeting (AGM)

The FY19 Remuneration Report received positive shareholder support at the 2019 AGM, with 97.05% of votes in favour of the resolution.

Gender pay equity

The Group is committed to all employees being remunerated fairly and equitably. The Group conducts annual gender pay equity reviews that are presented to the Remuneration Committee and continues to address any gender pay equity issues as they arise.

3. Remuneration Governance

The Remuneration Committee (the Committee) considers matters relating to the remuneration of KMP as well as the remuneration policies of the Group generally. This includes reviewing and recommending to the Board the remuneration of the Chairman and NEDs, Executive KMP and other direct reports to the MD and CEO. The main responsibilities of the Committee are outlined in the Remuneration Committee Terms of Reference, available on the corporate governance page of the Company’s website: www.starentertainmentgroup.com.au/corporate-governance/.

Under the Remuneration Committee Terms of Reference, the majority of Committee members must be independent non-executive directors and the Chair of the Committee must be an independent non-executive director. All members of the Remuneration Committee (including the Chair of the Committee) are independent non-executive directors. Details of members of the Committee and their background are included in the Directors’ Report on pages 9 to 12.

The following diagram represents The Star Entertainment Group’s remuneration decision-making structure.

4. Remuneration Strategy and Programs

The remuneration strategy at The Star Entertainment Group is designed to support a high performance culture, achieve superior performance and as a result, sustainable value for shareholders. The reward programs are designed to promote individual accountability and entrepreneurship in employees and are aligned to prudent risk taking and the Company’s long term financial soundness.

To achieve these objectives, the key reward principles are shaped around:

- Being market competitive to attract and retain high performing individuals (refer section 4.1 – Fixed remuneration);
- Paying above market for superior performance outcomes that drive sustainable value for shareholders (refer section 4.2 – Variable (at risk) remuneration);
- Delivering a meaningful quantum of awards in equity to create alignment with shareholder interests and manage risk; and

2. Key Management Personnel

The names and titles of the Company’s KMP for the year ended 30 June 2020 are set out below.

Mr Harry Theodore assumed the role of Chief Financial Officer from 1 September 2019, following the decision by Mr Chad Barton to leave the Company effective 1 November 2019.

• Linking remuneration components and outcomes to the achievement of the Group’s strategic objectives. Table 2 summarises the components of Executive KMP’s Total Annual Reward (TAR) and their link to the strategic objectives of the Group. Additional details on these elements are included further on in this report as referenced.

Table 2: Components of Executive KMP’s TAR Opportunity

<table>
<thead>
<tr>
<th>Element</th>
<th>Summary</th>
<th>Reference</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Annual Remuneration (TAR)</td>
<td>Total Annual Reward (TAR) is comprised of a fixed and a variable component. The variable component is a short term and a long term incentive plan. The Group balances the level of fixed versus variable remuneration informed by the market for talent, the views of shareholders and the need for effective reward mechanisms to connect short and long-term performance against the Group’s strategic priorities. Total annual remuneration is targeted at the median of the relevant market with an opportunity to earn above median pay, up to the 75th percentile, where higher levels of performance are realised. Benchmark peer groups include comparable ASX-listed organisations, determined based on similar market capitalisation (range 70% to 100% of The Star Entertainment Group’s market capitalisation) and appropriate gaming and entertainment peers.</td>
<td>Section 4.1 and 4.2</td>
</tr>
<tr>
<td>Fixed Remuneration</td>
<td>Fixed remuneration forms an integral component of the overall employee value proposition of the Group, designed to attract and retain the talented teams required to operate the business. These teams will be critical in delivering on our business plan to achieve excellence in guest service, build and operate world class properties, and create long term shareholder value. Annual pay reviews occur in August each year with remuneration changes effective from 1 September.</td>
<td>Section 4.1</td>
</tr>
</tbody>
</table>
| Short Term Incentive Plan (STI) | The STI is designed to drive the execution of the business plan in the short and long term and aligns performance outcomes to shareholder value creation. STI performance targets are underpinned by the Group’s strategic priorities that include:
- Shareholder Value
- World Class Properties
- Guest Service Excellence (differentiated value proposition)
- Talented Teams
- Risk Management and Sustainability

A financial gateway is in place to determine any payments under the STI and the overall size of the bonus pool. The size of the pool is moderated to consider non-financial performance relating to guest satisfaction and improvements to safety. - TRIP. Individual payments are performance based and assessed using a weighted balanced scorecard approach. | Section 4.2, 4.3 and 4.4 |
| Long Term Incentive Plan (LTI) | The LTI is principally designed to reward participants for their contributions towards achieving the Group’s strategic priorities orientated around delivering long term sustainable shareholder value creation. Performance is measured against three criteria:
- Relative Total Shareholder Return (TSR)
- Earnings per Share (EPS)
- Return on Invested Capital (ROIC)

These measures are aligned to shareholders’ interests, business performance and returns on capital investments, and collectively drive the creation of sustainable shareholder value. | Section 4.2, 4.5 and 4.6 |

4.1 Fixed remuneration

The fixed remuneration received by Executive KMP may include base salary, superannuation and non-monetary benefits. The amount of fixed remuneration an executive receives is based on the following:

• Scope and responsibilities of the role;
• Reference to the level of remuneration paid to executives of comparable ASX-listed organisations, with similar market capitalisation (range 70% to 160% of The Star Entertainment Group’s market capitalisation) and appropriate gaming and entertainment peers; and
• Level of international and domestic gaming knowledge, skills and experience of the individual.

Fixed remuneration is reviewed annually, and the policy is to target fixed remuneration at the median of the market. Fixed remuneration may deviate from the market median depending on the individual’s capabilities and other business factors.

4.2 Variable (at risk) remuneration

Variable remuneration (comprising STI and LTI) accounts for the majority of the total remuneration mix for the Managing Director and Chief Executive Officer and other Executive KMP as illustrated in Figure 1 below:

![Figure 1: Remuneration mix for FY20](image)

**4.3 Short Term Incentive Plan (STI)**

The STI is designed to reward participants for execution of the Group’s strategy and achievement of operational goals during the performance period.

Payments only accrue under the plan if the Group achieves its financial performance gateway, achieving a direct link between pay and performance (refer Figure 2).

The number of employees who participated in the STI for FY20 was 784 (decreased from 877 for FY19). Each of the Executive KMP participated in the plan.

Table 3 sets out the key features of the STI, all of which are consistent with the prior year.

For FY21, the Remuneration Committee is reviewing the operation of the STI to determine whether the plan design, including gateway measures, remain appropriate and fit for purpose.

Table 3: Key design features of the STI

<table>
<thead>
<tr>
<th>Purpose</th>
<th>To reward participants for execution of the Group’s strategy and achievement of operational goals during the performance period.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Gateway</strong></td>
<td>The minimum level of financial performance required before any incentives accrue under the STI is referred to as the gateway. The gateway hurdle is 95% of the budgeted Normalised NPAT of the Group as approved by the Board. This gateway applies to all Executive KMP and other participants in the plan. The Board may use its discretion to make payments to reward for significant non-financial performance.</td>
</tr>
</tbody>
</table>
| **Pool size** | The pool size is determined by the Board through an assessment of Group performance, including:
1. Financial performance (Normalised NPAT)
   - 0% of target pool vests at below 95% of budgeted NPAT
   - 50% of target pool vests at 95% of budgeted NPAT
   - 100% of target pool vests at 100% of budgeted NPAT
2. Non-financial performance measures and strategic priorities (Guest Service and Safety). |
| **Incentive opportunity levels** | The payment range available is 0%-150% of the participant’s incentive target. |
| **Payment calculation** | Individual performance is determined by using a weighted scorecard of measures (Table 4) to arrive at a performance rating. Performance ratings link to payment ranges as follows:
5 = Outstanding (125% – 150% of target)
4 = Exceeds (100 – 125% of target)
3 = Meets (75 – 100% of target)
2 = Meets some (0 – 75% of target)
1 = Did not meet (0% of target) |
The Group responded to protect team members and guests, as well as to protect the interests of the Company. The Stars response to COVID-19

Based on a review of a number of factors (see details below), and taking into account the prudent and disciplined approach

Exercise of discretion

Based on a review of a number of factors (see details below), and taking into account the prudent and disciplined approach taken by the Board with respect to paying for performance (for example in FY17 and FY19, no awards were made as targets were not achieved), the Board resolved to exercise its discretion for the first time and approved a limited equity award under the STI plan for FY20, subject to a one year retention restriction from the date of the award.

Impact of COVID-19 on performance and a broad range of stakeholders

The Group was performing strongly against all key strategic and operational metrics in FY20 until the COVID-19 pandemic occurred, resulting in the mandatory shutdown of operations in March 2020.

Pre-COVID-19, Normalised NPAT up to the end of February 2020 was 15.6% ahead of the pcp and 5% ahead of budget. The COVID-19 pandemic also had a significant impact on the Group’s stakeholders, including the workforce, shareholders, guests and suppliers.

• Approximately 90% of team members were stood down in March 2020 when operations ceased. Spend on contractors was significantly curtailed with many projects put on hold.
• The impact on shareholders was significant, with a fall in share price of 31% as at 30 June 2020, compared to the prior year. The payment of the interim dividend was deferred, and no final dividend was declared.
• The shutdown of operations resulted in the closure of our venues to guests which had an impact on our suppliers.

The Star’s response to COVID-19

The Group responded to protect team members and guests, as well as to protect the interests of the Company.

To support team members, the Group immediately applied to participate in the Federal Government’s JobKeeper payment scheme to deliver payments of up to $130 million to almost 7,000 team members (based on estimates up to and including 27 September 2020). For the period 1 April 2020 to 30 June 2020, approximately $64.8 million had been received with $55.2 million or 85% of that amount flowing to team members who were stood down or working reduced hours. The remaining $9.6 million or 15% was retained by the Group to contribute toward the payment of wages to team members who were stood up or working reduced hours (and earned above the minimum JobKeeper amount of $1,500 per fortnight).

STI outcome for FY20

As the financial gateway under the FY20 STI was not met, the Board undertook a rigorous process to ensure the exercise of discretion is in the best interests of the Company. This included considering ASIC guidelines, receiving external advice and reviewing extensive information on how the Group performed pre and post the COVID-19 pandemic.

The Board considered a range of factors, including the impact of COVID-19 on the Group’s operations, team members, shareholders, guests and other stakeholders. Management’s response to the pandemic, including the delivery of significant milestones critical for future success and shareholder value creation, in spite of the challenging environment, were considered. The Board also considered the aim of the STI, which is to reward participants for the achievement of the Group’s strategy and operational goals, as well as to retain talent, particularly in an environment of increased competition (including in Sydney from 2021) and uncertainty.

Based on these factors, the Board has decided to create a limited STI pool, determined as a percentage of the on target STI amount, and assess individual performance against scorecard metrics and performance during the COVID-19 pandemic. For the MD and CEO and Executive Committee, 40% of the STI on-target amount was approved (individual outcomes for Executive KMP are outlined in Table 1). For the remaining 776 STI participants (that include a large number of frontline managers), 60% of the on-target amount was approved.

STI payments compared to financial performance over last 5 years

As noted above, although the STI financial gateway was not achieved, the Board exercised its discretion for the first time to make limited awards under the STI for FY20. All of these awards will be delivered as deferred equity subject to a one year retention restriction. For the MD and CEO and Executive Committee, 40% of the STI on-target amount was approved. Figure 2 shown below, illustrates how bonus payments made to the MD and CEO and Executive Committee under the STI, vary with the Group’s historic financial performance and illustrates the limited discretionary award approved in FY20.

Table 1: STI outcome for FY20

</tr>
</tbody>
</table>

The COVID-19 pandemic also had a significant impact on a range of the Group’s stakeholders, including the workforce, shareholders, guests and suppliers. The Board considered the aim of the STI, which is to reward participants for the achievement of the Group’s strategy and operational goals, as well as to retain talent, particularly in an environment of increased competition (including in Sydney from 2021) and uncertainty.

Based on these factors, the Board has decided to create a limited STI pool, determined as a percentage of the on target STI amount, and assess individual performance against scorecard metrics and performance during the COVID-19 pandemic. For the MD and CEO and Executive Committee, 40% of the STI on-target amount was approved (individual outcomes for Executive KMP are outlined in Table 1). For the remaining 776 STI participants (that include a large number of frontline managers), 60% of the on-target amount was approved.
Normalised NPAT

Normalised NPAT is used to determine whether any payments are made under the STI as it reflects the underlying performance of the business. The Normalised NPAT result removes the inherent win rate volatility associated with the International VIP Rebate business and excludes significant items that are considered by their nature and size unusual or not in the ordinary course of business. For FY20, significant items after tax of $112.2 million included costs relating to one-off COVID-19 related expenditure, provision for doubtful debts and impairment (see note A7 of Financial Statements for further detail).

When determining payments under the STI, the Board will examine the adjustments made to arrive at the Normalised NPAT result, to ensure they do not inappropriately impact remuneration outcomes. The adjustments did not result in the Group achieving its budgeted NPAT in FY20. The Board exercised discretion to make awards for FY20 as the gateway under the STI was not met.

Table 4.1 shows the weighting of the financial and non-financial targets, and strategic priorities.

**ANNUAL REPORT 2020**

**Shareholder Value Creation**
- Investments that drive significant increase in shareholder value.
- Realisation of strategic investments with high returns.
- Focus on long-term sustainability.

**Reinvestment and Redevelopment Plans**
- Invest in properties for long-term growth.
- Enhance guest experience across all properties.
- Competitive returns on investments.

**Guest Satisfaction**
- Elevate guest service experience.
- Continuous improvement of guest satisfaction indices.
- Team member engagement and feedback.

**Leadership in Loyalty**
- Achieve leadership position in the loyalty and golden hospitality sectors.
- Strategic partnerships for growth.
- Engagement and development of team members.

**Employee Engagement and Safety**
- Attract and retain talented teams through competitive Employee Value Proposition.
- Engagement and feedback from team members.
- Commitment to safety and well-being.

**Safety**
- Prior to the shutdown of operations, the Group's FyD: Total Reportable Injury Frequency Rate (TRIFR) was in line with the limit set by the Board at the beginning of the year.
- The Group implemented protective measures to ensure the safety of guests, employees and the community.
- Compliance with COVID-19 safety protocols.

**Governance, Risk and Sustainability**
- Risk and compliance environment within a strong risk and compliance framework.
- Long-term agreement with the NRMA, ensuring regulatory continuity and financial stability in relation to electronic gaming machines and other licenses.
- Compliance with the Group's policies and procedures.

**Remuneration Report (Audited)**

<tbody>
<tr>
<td>Unvested rights may be clawed back where there has been a material misrepresentation of the financial outcomes on which the award had been assessed and/or the participant’s actions have been found to be fraudulent, dishonest or in breach of the Company’s Code of Conduct (e.g., misconduct).</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**4.5 Long Term Incentive Plan (LTI)**

The LTI is principally designed to reward participants for their contributions towards achieving the Group’s strategic priorities oriented around delivering long term sustainable shareholder value creation. There were no changes to the plan design or performance measures in place.

For FY20, there were 28 participants invited to participate in the plan (decreased from 29 participants for FY19). Each of the Executive KMP participants in the plan.

**Pre-COVID above target**
- Guest satisfaction exceeded target pre-COVID-19 (Dec 19 to Feb 20)

**Post-COVID**
- Full year on track
- Full year below target
- Full year nil

**Determination of the number of rights**
- The number of performance rights allocated to a participant is based on their Target LTI award, divided by the Face Value of a Performance Right as shown in the following calculation:

**The Face Value reflects the face value of the share at the effective Grant Date with reference to the volume weighted average price (VWAP) of the Company’s shares traded on the ASX on the 20 trading days prior to the Effective Grant Date. Details of annual grants to participants are set out in Table 9.**

**Dividend entitlements**
- Participants are not entitled to dividends until shares are allocated (based on vesting and meeting the relevant performance hurdles). At that time, dividends will either be paid by allocating dividend equivalent shares or by means of a cash equivalent payment, based on actual dividends paid to shareholders during the vesting period, the degree to which performance hurdles were met and the extent of vesting of the award.

**Test Date and vesting date**
- Performance rights are vested on the fourth anniversary of the Grant Date and are not subject to retesting.

**Cessation of employment, Change of Control and Clawback**
- All unvested performance rights lapse immediately upon cessation of employment with the Group. However, the Board has discretion in special circumstances to determine the number of performance rights retained and the terms applicable. Special circumstances include events such as retirement, redundancy, death and permanent disability. If a Change of Control Event occurs, or the Board determines in its absolute discretion that a Change of Control Event may occur, the Board will determine in its absolute discretion appropriate treatment regarding any awards.

**Vesting conditions (hurdles) and schedule**
- TSR (33.5% of the award)
- The Company’s TSR ranking against the peer group of companies (relative TSR) is used as a performance hurdle, as it directly aligns the interests of participants with the interests of shareholders, which is to maximise the TSR compared with the TSR for peer companies.

**The table below sets out the vesting scale for TSR. The Company’s TSR ranking, compared to its peer group, must be at least at the 50th percentile for any vesting to occur.**

<table>
<thead>
<tr>

**ANNUAL REPORT 2020**
Vesting conditions and schedule cont.

EPS (33.3% of the award)

The EPS hurdle measures statutory earnings per ordinary share adjusted for the theoretical win rate in the VIP Ralate business. It drives a line of sight between shareholder value creation and management’s financial performance.

The threshold hurdle is set by the Board by reference to market consensus. The target hurdle is set by the Board by reference to the Company’s Board approved five-year business plan. While the Board may exercise certain discretions under the LTI, the Board will only consider exercising its discretion with respect to any applicable adjustments to thresholds and targets, at the time of testing for vesting purposes (refer to guiding principles below).

The table below sets out the percentage of the performance rights subject to the Company’s EPS performance as at the Test Date.

<table>

<td>Between threshold and stretch</td>
<td>Pro-rata between threshold and stretch</td>
</tr>
<tr>
<td>Stretch target</td>
<td>100%</td>
</tr>
</tbody>
</table>

ROIC (32.4% of the award)

The ROIC hurdle measures statutory EBIT, adjusted for the theoretical win rate in the International VIP Ralate business, as a proportion of average Net Debt and average Shareholder Equity. That is:

\[
\text{ROIC} = \frac{\text{EBIT}}{\text{Average Net Debt} + \text{Average Shareholder Equity}}
\]

The ROIC hurdle measures the efficiency of earnings generated from capital investments made by the Group and seeks to create alignment of incentive programs in driving the execution of the Group’s capital intensive strategy to build new assets and improve existing properties, with the aim of generating additional revenue and ultimately sustainable shareholder value.

The threshold hurdle is set by the Board based on the Group’s present ROIC levels, and the target hurdle is set with reference to the Group’s five-year business plan. While the Board may exercise certain discretions under the LTI, the Board will only consider exercising its discretion with respect to adjustments to thresholds and targets at the time of testing for vesting purposes and applying the guiding principles set out below.

The table below sets out the percentage of performance rights subject to the Company’s ROIC performance as at the Test Date.

</tr>
</tbody>
</table>

Impact of COVID-19

The impact of COVID-19 on the outcome of the FY17 LTI will be assessed at the time of testing in October 2020. The guiding principles communicated in FY19 and outlined below, will be applied to support a fair and reasonable outcome. Further updates on the outcomes will be provided ahead of the 2020 AGM.

Target setting for the FY21 awards will be deferred until such time as reliable performance hurdles can be determined using the methodology outlined above and to ensure participants are neither advantaged nor disadvantaged by matters outside of their control.

Disclosure of performance hurdles

The Company will disclose the EPS and ROIC targets on a retrospective basis to ensure that the Company’s competitive position is not undermined. The increased competition in Sydney in early calendar year 2021 will introduce casino-based competition to The Star Sydney for the first time. This will impact the earnings of The Star Sydney and therefore the Group overall and as a result affect the targets and threshold amounts for the purposes of the LTI in the relevant years. The Board will continue to consider these and other factors when setting targets and evaluating outcomes under the LTI.

Guiding principles for adjustments to LTI measures

The Board has adopted a set of guiding principles when it considers adjustments to performance outcomes under the LTI. The process for adjustments and principles applied are outlined below.

1. Nature and timing of adjustments - adjustments, both positive and negative, will only be made to the performance/outcome (rather than the target) at the time of testing. Each adjustment is tested and before being considered.

2. Transparency - the Company will provide a clear rationale and disclosure, for any adjustments made (for example, providing a reconciliation to statutory results), especially in cases where, prima facie, performance has not been achieved. Where possible, advance disclosure of events that may give rise to adjustments will be disclosed to ensure early communication to shareholders.

3. Material or significant events - adjustments will only be made for events or items over the testing period that have a material impact on the outcome. Adjustments will also only be made where it has an impact on the result of the award. Where possible, the item will be referenced back to the assumptions used in the business plan from which the target was set, to determine whether there has been a material deviation in the assumptions used and whether this was outside of management’s control. For example, if there has been a change to accounting policies resulting in the EPS and/or ROIC targets being determined in a different way to how the outcome is determined at the time of testing.

4. Balance interests of shareholders and management - adjustments will be made that balance the interests of shareholders and management, for example, if shareholders are experiencing poor results, then management should share in the burden, and vice versa (unless there are compelling reasons for this not being the case, in which event, details will be provided).

5. Maintain plan integrity - adjustments will be carefully considered to ensure they maintain the plan’s integrity and purpose (i.e. to incentivise and reward management for undertaking transactions that deliver long-term sustainable shareholder value).

4.6 Vesting under the LTI

Since the Company’s inception in 2011, there have been eight awards made under the LTI, with four awards tested and two vesting outcomes (FY14 and FY15 awards). Table 7 outlines the performance rights issued over the last five financial years.

Table 7: Details of performance rights issued to date

<td>N/A</td>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Performance rights relating to the FY16 award were tested in September 2019. The TSR performance of the Group was -3.089% (excluding the value of franking credits), with a percentile ranking of 14.93. As this was below the 75th percentile, none of the TSR component of the FY16 award vested. The EPS performance hurdle of 21.2 cents was below the target of 35.2 cents and accordingly none of the EPS component of the FY16 award vested.

The FY17 award, due to be tested on 5 October 2020, has EPS and TSR performance hurdles that each comprise 50% of the award outcome. Details of the performance outcomes relative to target and threshold amounts will be provided to shareholders ahead of the 2020 AGM and reported in the FY21 Remuneration Report.

Table 8 outlines the performance of the Group and shareholder returns over the last five financial years.

*Subject to automatic inclusion in the Long-term Incentive Plan without further action being taken during FY20. The amount shown for FY20 includes $676,000 provided by the Group in FY20 in relation to LTI Royalties earned in prior years. The value of these royalties is included in the FY20 amounts presented in this report. The Royalties are subject to performance hurdles and vest on a pro-rata basis over three years. The 2019 Royalties were received in August 2020.*

(i) Matt Harry Theodore assumed the role of Chief Financial Officer, effective 1 September 2019 following his decision to leave the business, effective 1 November 2018.

(ii) Exclusion from being engaged in any business or activity in Australia which competes with or is substantially similar to the business of The Star Entertainment Group.
7. NED Remuneration

Remuneration Policy
- NEDs (excluding the Chairman) receive a Board fee and a Committee fee for their participation as Chair or member of each Committee.
- The Chairman receives an all-inclusive fee as Chairman of the Board and as an ex-officio member of all Board Committees.
- NEDs do not receive any performance or incentive payments and are not eligible to participate in any of the Group’s reward programs. This policy aligns with the principle that NEDs act independently and impartially.
- Board fees are not paid to the Managing Director and Chief Executive Officer. Executive KMPs do not receive fees for directorships of any subsidiaries.

NED Fees
The aggregate fees payable to NEDs for their services as directors are limited to the maximum annual amount approved by shareholders, currently set at $2,500,000 including superannuation contributions. The Board did not approve any increase to Committee fees in FY20 however, the Chairman and Non-Executive Directors accepted a 50% reduction in their fees for quarter four of FY20. There will be no fee changes for FY21.

Table 13: NED Remuneration
Table 13 sets out total remuneration received by each NED.

8. Other information

8.1. KMP shareholdings
To support the alignment of the interests of the Board and Executive KMPs with the interests of shareholders, the Group has minimum shareholding policies for KMP. There is also a separate minimum shareholding policy that applies to other executives who report directly to the Managing Director and Chief Executive Officer.

Minimum Shareholding Policy for NEDs
NEDs are required to progressively acquire shares over a three year period from the date of commencement of their unconditional appointment (within three years from the date of commencement of the policy (for existing directors)). NEDs are to hold shares of equal value to their respective annual base fee applicable at the time of their unconditional appointment. Direct and indirect holdings will count towards the minimum shareholding target.

Minimum Shareholding Policy for Executive KMP
Executive KMP are required to progressively acquire shares over a five year period from the date of their appointment (for new Executive KMP), or within five years from the date of commencement of the policy (for existing Executive KMP).

The Managing Director and Chief Executive Officer is to hold a minimum number of shares which is of equal value to 150% of one year’s salary at the time of his unconditional appointment. Other Executive KMP are to hold a minimum number of shares which is of equal value to 100% of one year’s salary at the time of their unconditional appointment. Direct and indirect holdings in shares will count towards the minimum shareholding target. Unvested performance rights do not count towards minimum shareholding requirements.

Tables 14 and 15 show the number of shares and performance rights held by NEDs and Executive KMP respectively at the beginning and end of the financial year unless otherwise stated.

Table 14: Shares held by NEDs at 30 June 2020

---

Zlatko Todorcevski 2020 193,934 10,116
Richard Sheppard 2020 186,347 17,703
John O'Neill AO 2020 402,935 21,003
Katie Lahey AM 2020 186,347 17,703
Gerard Bradley 2020 186,347 17,703

TOTAL FY20 1,014,620 119,336 1,032,926

---

(1) Comprises superannuation contributions per Superannuation Guarantee legislation and salary sacrificed superannuation.
(2) During FY20, NEDs accepted a 50% reduction fees in April to June 2020 following the impact of COVID-19 on the business.

(i) Includes shares acquired under the Dividend Reinvestment Plan, and transfer from restricted shares where the holding lock has been lifted. Excludes FY20 STI equity award as shares are issued in September 2020.
(ii) Restricted shares that are no longer subject to a holding lock are transferred into the ordinary shares category.
(iii) Includes 865 ordinary shares acquired in FY20 through salary sacrifice under the General Employee Share Plan. The shares are subject to a holding lock. Performance testing criteria for each applicable grant.

Following Mr Bartons departure, the Board resolved for a pro-rata number of unvested performance rights to remain on foot FY20 STI equity award as shares are issued in September 2020.

PLEASE NOTE: Page numbering from the original Directors’, Remuneration and Financial Report released to ASX on 20 August 2020 are also included for reference

Refer to the Operating and Financial Review (OFR) within the Directors' Report for details of the key transactions during the year.

The Group
The Group comprises two main divisions: The Star Gold Coast and Treasury.

The Star Gold Coast
Comprises The Star Gold Coast’s casino operations, including hotels, theatre, restaurants, bars and other entertainment facilities.

Treasury
Comprises Treasury’s casino operations, including hotel, restaurants and bars.

For the year ended 30 June 2020

</table>

Note: Gross revenues represent the gross gaming win before player rebates and promotional allowances of $261.9 million (2019: $355.9 million).

Government COVID-19 related restrictions greatly impacted the operations of the business from March 2020, including rolling international border closures, closure of the properties on 23 March 2020, a series of heavily restricted operating conditions and staged re-openings. Accordingly, the segment results have been presented for both February 2020 year to date (YTD) (representing the last month of February 2020) and for the corresponding period of the prior year.

A2 Revenue

<table>
<thead>
<tr>
<th></th>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic gaming</td>
<td>1,011.0</td>
<td>1,342.4</td>
</tr>
<tr>

<td>10.2</td>
<td>11.0</td>
</tr>
<tr>
<td>Total revenue</td>
<td>1,487.0</td>
<td>2,158.1</td>
</tr>
</tbody>
</table>

Revenue is down $671.1 million or 31.1% on the prior comparable period (pcp) due to an unusually low win rate in the International VIP Rebate business coupled with the impact of COVID-19. These impacts include rolling international border closures, closure of the properties on 23 March 2020, a series of heavily restricted operating conditions and staged re-openings.

Revenue

Revenue is recognised when the Group satisfies its obligations in relation to the provision of goods and services to its customers in the ordinary course of business. Revenue is measured at an amount that reflects the consideration to which the Group expects to be entitled in exchange for performing these obligations, including any discounts, rebates, price concessions, incentives or performance bonuses. Revenue is constrained such that the significant reversal of revenue in a future period is not highly probable. Revenue comprises net gaming win, less player and gaming promoter rebates and promotional allowances, as well as other non-gaming revenue from hotels, restaurants and bars.

Customer Loyalty programs

The Group operates customer loyalty programs enabling customers to accumulate award credits for on-property spend. A portion of the spend, equal to the fair value of the award credits earned and reduced for expected breakage, is treated as deferred revenue (refer to note F7). Revenue from the award credits is recognised in the income statement when the award is redeemed or expires. The stand alone selling price of complimentary services (including hotel room nights, food and beverage, and other services) that are provided to casino guests as incentives related to gaming play are recorded as revenues related to the respective goods or services, as they are provided to the patron. The residual amount is recorded as gaming revenue.

A3 Other income and expenses

Profit before income tax is stated after charging the following expenses and significant items:

<td>130.3</td>
<td>184.0</td>
</tr>
<tr>
<td></td>
<td>377.3</td>
<td>544.0</td>
</tr>
</tbody>
</table>

a The significant reduction in gaming taxes and levies is due to closure of gaming operations from 23 March 2020. Reduced capacity gaming operations recommenced in New South Wales on 1 June 2020 and in Queensland on 3 July 2020, subsequent to year end.

Employment costs:

<table>
<thead>
<tr>

<td>529.7</td>
<td>704.9</td>
</tr>
</tbody>
</table>

c Salaries and wages have reduced significantly due to the temporary stand down of over 90% of employees as a result of business closures on 23 March 2020 following COVID-19 Federal and State Government directives. This amount is net of $64.8 million of financial support provided by the Federal Government under the JobKeeper wage subsidy scheme. Reduced capacity re-openings in June saw 58% of employees return to work. As a result of the JobKeeper subsidy, the Group has received a $9.6 million benefit towards salaries and wages expenses, for employees who have been stood up or are working reduced hours.

<td>1.2</td>
</tr>
<tr>
<td>Total depreciation and amortisation</td>
<td>205.0</td>
<td>205.8</td>
</tr>
</tbody>
</table>

a Includes $8.1 million (2019: nil) depreciation expense of right-of-use assets (refer to note A8).

Depreciation is calculated using a straight line method. The useful lives over which the assets are depreciated are as follows (for further details of the useful lives of intangible assets refer to note B5):

- Freehold and leasehold buildings : 10 - 95 years
- Leasehold improvements : 4 - 75 years
- Plant and equipment : 5 - 20 years
- Software : 3 - 10 years
- Licences : Until expiry

Operating equipment (which includes uniforms, casino chips, kitchen utensils, crockery, cutlery and linen) is recognised as a depreciation expense based on usage. The period of usage depends on the nature of the operating equipment.

Right of use assets, which includes plant, equipment and property, is depreciated on a straight line basis over the shorter of its estimated useful life and the lease term. The Group’s lease portfolio includes assets with lease terms between 1 and 75 years.

The residual values and useful lives are reviewed annually, and adjusted if appropriate, at each financial reporting date.
Net finance costs include $3.8 million of finance costs associated with COVID-19 affected loan facilities (refer to note A7).

4.0 15.3 52.2 (9.9) (5.3) - 4.0 - 44.0 4.7 8.1 - - 10.5 - 39.5

No final dividend was declared for the year ended 30 June 2020 (2019: 10.0 cents per ordinary share, fully franked).

for employees experiencing sudden and severe financial hardship, finance costs associated with COVID-19 affected loan facilities, abandoned capital projects, perishable food and beverage supplies expired during closure of the properties and other costs associated with COVID-19 restricted operating conditions. This amount is net of $7.8 million of financial support provided by the Federal Government under the JobKeeper wage subsidy scheme. The full amount received was $64.8 million (refer note A3).

b Incremental impact to the Group’s expected credit loss model as a result of the COVID-19 pandemic, government imposed restrictions, international travel bans and other economic conditions (refer note B2).

c One-off impairment expense for write-down to fair value of assets held for sale, equity accounted share of impairment loss for the Group’s interest in the Sheraton Grand Mirage Resort, Gold Coast, consumables upgrade costs in Sydney and costs associated with cessation of the Gold Coast and Tropical North (Cairns) Global Tourism Hubs processes and the rejected Sydney Ritz-Carlton Tower development proposal.

d Gain on disposal of Gold Coast land to the Destination Gold Coast Consortium joint venture for construction of the first residential, hotel and retail tower.

e Restructuring and redundancy costs relating to Group reorganisation.

Significant items are determined by management based on their nature and size. They are items of income or expense which are, either individually or in aggregate, material to the Group or to the relevant business segment and:

not in the ordinary course of business (for example, the cost of significant reorganisations or restructuring); or

part of the ordinary activities of the business but unusual due to their size and nature (for example, impairment of assets).

A8 Leases

The following amounts relating to AASB16 leases are recognised in the income statement:

Depreciation expense of right-of-use assets Interest expense on lease liabilities Expense relating to short-term leases Expense relating to leases of low-value assets

5.1 4.0 - - 12.1 Total

A6 Dividends

Dividends per share

2020 2019

Cents per share 10.5 a 10.5

Final dividend - 10.0 b

Total dividend 10.5 20.5

In order to maintain a balance sheet that positions the Group for a post COVID-19 recovery, no final dividend was declared. In accordance with agreed terms associated with the waiver of covenants at 30 June 2020 from debt providers, no further cash dividends will be paid until gearing, which represents the ratio of net debt to 12 month trailing statutory EBITDA, is below 2.5 times.

2020 2019

$ m $ m

Dividends declared and paid during the year on ordinary shares

Final dividend paid during the year in respect of the year ended 30 June a

91.7 119.2 91.7 215.6

a A final dividend of 10.0 cents per share fully franked for the year ended 30 June 2019 (30 June 2018: 13.0 cents) was declared on 15 August 2019 and paid on 26 September 2019 (2018: declared on 23 August 2018 and paid on 4 October 2018).

b An interim dividend of 10.5 cents per share fully franked for the half year ended 31 December 2019 (31 December 2018: 10.5 cents) was declared on 19 February 2020 and paid on 2 July 2020 (2019: declared on 20 February 2019 and paid on 3 April 2019). Dividend payment was deferred from the original payment date of 1 April 2020 due to the exceptional circumstances associated with COVID-19 requiring the closure of the properties, and a revised Dividend Reinvestment Plan (DRP) which was fully underwritten by Credit Suisse Equities (Australia) Limited. On 2 July 2020, subsequent to year end, the Group issued 30,730,998 new shares to settle the interim dividend (refer to note C3). Existing shareholders who elected to participate in the DRP received 6,849,977 new shares. In accordance with the underwriting agreement, Credit Suisse Equities (Australia) Limited received 23,861,021 new shares in exchange for $75.1 million cash to fund the dividend cash payment.

A5 Net finance costs

2020 2019

$m $m

Interest paid on borrowings 46.4 44.0

Capitalised to property, plant and equipment a (9.9) (7.1)

Borrowing costs 15.3 4.7

Fair value hedging adjustment 2.4 (0.6)

Interest income (0.4) (0.4)

Leases interest 4.0 -

Net finance costs recognised in the income statement b 52.2 35.3

a Borrowing costs of $9.9 million (2019: $7.1 million) were capitalised during the year and are included in ‘Additions’ in note B4. The capitalisation rate of 4.4% was equal to the Group’s weighted average cost of borrowings applicable to the Group’s outstanding borrowings during the year.

b Net finance costs include $3.8 million of finance costs associated with COVID-19 affected loan facilities (refer to note A7).

Net finance costs of $52.2 million were up 47.9% on the pcp due to increased underlying borrowings, expensing of unamortised borrowing costs related to the refinanced bank facilities in July 2019, fluctuations in the fair value of hedging and incremental costs associated with COVID-19 affected loan facilities.

A7 Significant Items

Profit before income tax (PBT) is stated after charging the following significant items:

One-off COVID-19 related expenditure a 32.3 -

Provision for doubtful debts b 84.1 -

Impairment c 39.5 -

Gain on disposal of land d - (9.7)

Restructuring and redundancy costs e - 42.1

Net significant items 155.9 32.4

Significant items net of tax

$ m (43.7) 112.2 18.4

a Incremental, one-off COVID-19 related expenditure including payments to employees for pandemic leave, support payments for employees experiencing sudden and severe financial hardship, finance costs associated with COVID-19 affected loan facilities, abandoned capital projects, perishable food and beverage supplies expired during closure of the properties and other costs associated with COVID-19 restricted operating conditions. This amount is net of $7.8 million of financial support provided by the Federal Government under the JobKeeper wage subsidy scheme. The full amount received was $64.8 million (refer note A3).

b Incremental impact to the Group’s expected credit loss model as a result of the COVID-19 pandemic, government imposed restrictions, international travel bans and other economic conditions (refer note B2).

c One-off impairment expense for write-down to fair value of assets held for sale, equity accounted share of impairment loss for the Group’s interest in the Sheraton Grand Mirage Resort, Gold Coast, consumables upgrade costs in Sydney and costs associated with cessation of the Gold Coast and Tropical North (Cairns) Global Tourism Hubs processes and the rejected Sydney Ritz-Carlton Tower development proposal.

d Gain on disposal of Gold Coast land to the Destination Gold Coast Consortium joint venture for construction of the first residential, hotel and retail tower.

Significant items are determined by management based on their nature and size. They are items of income or expense which are, either individually or in aggregate, material to the Group or to the relevant business segment and:

not in the ordinary course of business (for example, the cost of significant reorganisations or restructuring); or

part of the ordinary activities of the business but unusual due to their size and nature (for example, impairment of assets).

<tr>
<td></td>
<td>$99.5</td>
<td>$235.5</td>
</tr>
</tbody>
</table>

Past due not impaired receivables of $52.8 million were down $1.9 million from the pcp. Closure of the properties resulted in no new gaming receivables since late March. Collections against receivables have slowed due to closure of casinos and borders across the region and debtor liquidity constraints, resulting from COVID-19.

Outstanding debts continue to be pursued in full, however expected credit loss requirements have resulted in an increased level of provisions compared to pcp.

(i) Provision for impairment reconciliation

</tbody>
</table>

a These amounts are included in other expenses in the income statement (refer to note A3).

The estimates and assumptions associated with the Group’s expected credit loss model were revised as a result of COVID-19. An additional $84.1 million provision has been recognised, reflecting the uncertainty around the duration for which restricted operating conditions will remain and when normal operations will recommence.

A large portion of debtors’ businesses rely on the casino industry operating under normal conditions. Extended periods of border restrictions across the region place uncertainty on the collectability of those debts. Trade receivables are non-interest bearing and are generally on 30 day terms.

Intangible assets

Intangible assets are amortised using the straight line method as follows:

- The Sydney casino licence is amortised from its date of issue until expiry in 2093.
- The Sydney casino concessions granted by the New South Wales government include product concessions in New South Wales which are amortised over the period of expected benefits.
- The Brisbane casino licence is amortised over the remaining life of the lease to which the licence is linked, which expires in 2070. The Group will continue to amortise the casino licence over its current term up until it is surrendered, following the expected opening of the Integrated Resort at Queen’s Wharf Brisbane (QWB) in 2022.

Intangible asset additions relate predominantly to software as the Group progresses its strategic priority to maximise value from technology, including further enhancing gaming and loyalty experience and delivering new integrated IT platforms.

Asset useful lives and residual values

Intangible assets are amortised using the straight line method as follows:

- The Sydney casino licence is amortised from its date of issue until expiry in 2003.
- The Sydney casino concessions granted by the New South Wales government include product concessions in New South Wales which are amortised over the period of expected benefits.
- The Brisbane casino licence is amortised over the remaining life of the lease to which the licence is linked, which expires in 2070. The Group will continue to amortise the casino licence over its current term up until it is surrendered, following the expected opening of the Integrated Resort at Queen’s Wharf Brisbane (QWB) in 2022.
- Software is amortised over useful lives of 3 to 10 years.
Impairment testing and goodwill

Goodwill is assessed for impairment on an annual basis and is carried at cost less accumulated impairment losses. Refer to note B6 for the accounting policy on asset impairment and details of key assumptions included in the impairment testing calculation.

B6 Impairment testing and goodwill

Goodwill acquired through business combinations has been allocated to the applicable cash generating unit for impairment testing. Each cash generating unit represents a business operation of the Group.

The recoverable amount of each of the three cash generating units at year end (Sydney, Gold Coast and Brisbane) is determined based on ‘fair value less costs of disposal’, which is calculated using the discounted cash flow approach. This approach utilises cash flow forecasts that represent a market participant’s view of the future cash flows that would arise from operating and developing the Group’s assets. These cash flows are principally based upon Board approved business plans for a five-year period, together with longer term projections and approved capital investment plans, extrapolated using an implied terminal growth rate of 2.5% (2019: 2.5%). These cash flows are then discounted using a relevant long term post-tax discount rate specific to each cash generating unit, ranging between 8.3% to 8.8% (2019: 8.3% to 8.8%). The pre-tax discount rates range between 10.7% to 11.7% (2019: 10.4% to 11.3%).

No impairment was recognised in any of the cash generating units at 30 June 2020 (2019: nil).

Key assumptions

The fair value measurement is valued using level 3 valuation techniques (refer to note E2(vi) for details of the levels). The key assumptions on which management based its cash flow projections when determining ‘fair value less costs of disposal’ are as follows:

i. Cash flow forecasts

The cash flow forecasts are based upon Board approved business plans for a five-year period, together with longer term projections, growth rates and approved capital investment plans for each cash generating unit. COVID-19 has had a profound impact on Australian and international economies. A level of uncertainty previously unseen in the Group’s history has resulted in increased difficulty in developing earnings forecasts. Consequently, the Group’s impairment model, which historically relied on a ‘most likely’ cashflow forecast, will also include a range of different cashflow scenarios.

The range of scenarios prepared analysed the Group’s expected cashflows based on the time required for the broader Australian and international economy to recover to pre-COVID-19 levels. The scenarios considered a short (1 year), medium (2 year) and long (4 year) term recovery and were weighted based on expected likelihood. The key variables affecting cashflows include:

- Short term: the duration for which restricted operating conditions imposed by the government will remain, including social distancing, maximum patrons, health and safety. Also, how international border control will impact visitation.
- Medium term: economic condition and recovery when all COVID-19 related restrictions are lifted, and how international border control will impact visitation.
- Long term: whether earnings recover to the same levels expected prior to COVID-19.

The worst case scenario assumed earnings gradually recover to the same forecasted levels expected prior to COVID-19 after four years (ie in FY2025). While this scenario materially reduced headroom, an impairment to the Group’s cash generating units was not required. The likelihood of this scenario is considered remote.

ii. Terminal value

The terminal growth rate is used in line with the forecast long term underlying growth rate in the Consumer Price Index (CPI).

The Group successfully refinanced its bank facilities on 3 July 2019, with new bilateral bank facilities replacing all Syndicate Bank Facilities, which have been repaid and cancelled. The new facilities have maturities of between one and five years, with an average weighted maturity of 4.0 years. In addition, a new $200 million club facility was executed, to provide additional liquidity during the COVID-19 pandemic, if needed, and matures on 21 April 2021. The new bank facilities have a total limit of $1.4 billion (increased from $0.8 billion of bank facilities at 30 June 2019).

Net debt was $1,382.7 million, up 42.2% on the previous year. The Group is exposed to foreign currency movements through the movements in the USD/AUD exchange rate. The Group has entered into cross currency swaps in order to hedge this exposure.

Refer to note F9 (iii) for Capital management disclosures and the calculation of the gearing ratio.

**USPP Notes**

- Bank loans - unsecured (net of unamortised borrowing costs) & US Private Placement (USPP)
- Bank loans and working capital facility
- Interest on bank facilities is variable, linked to Bank Bill Swap Bid Rate (BBSY), plus a margin.

The Group has entered into interest rate swap agreements to hedge underlying debt obligations and allow $200 million of floating rate bank loans to be swapped to fixed rate borrowings. Further details about the Group's exposure to interest rate movements are provided in notes E1 and E2.

**USPP**

- The $531.5 million (2019: $531.5 million) USPP borrowings are stated in the table above at the AUD amount repayable under cross currency swaps at maturity. Interest is a combination of fixed and variable, linked to BBSW (Bank Bill Swap Rate), and a defined gearing ratio at the end of certain test dates. The USD443.4 million (2019: USD443.4 million) translated at 30 June 2020 spot rate is AUD$665.1 million (2019: $632.3 million).

**Financial Risk Management**

As a result of the USPP borrowings, the Group is exposed to foreign currency risk through the movements in USD/AUD exchange rate. The Group has entered into cross currency swaps in order to hedge this exposure. As at 30 June 2020, 100% of the USPP borrowings balance of USD443.4 million (2019: USD443.4 million) is hedged.

The Group is also exposed to the interest rate risk as a result of bank loans and the USPP borrowings. To hedge against this risk, the Group has entered into interest rate swaps. As at 30 June 2020, after taking into account the effect of interest rate swaps, approximately 30.0% (2019: 38.8%) of the Group's borrowings are hedged at a fixed rate of interest. Further details about the Group's exposure to interest rate and foreign currency movements are provided in notes E1 and E2.

Total: 20.6

b Other commitments as at 30 June 2020 mainly include capital construction and related costs in connection with the Sydney redevelopment.

The Group has current capital commitments of approximately $0.9 billion in Destination Brisbane Consortium to fund construction of the Integrated Resort which is expected to open in late 2022 (subject to various approvals), $0.1 billion in Destination Gold Coast Consortium to fund the construction of the new residential and hotel tower on the Gold Coast and $0.04 billion in Destination Sydney Consortium to purchase a property asset in Sydney. The Group has $144.0 million of committed investments into associates and joint ventures, which fulfils the Group's remaining equity contributions. The remaining construction costs will be funded by project finance, which was fully committed at 30 June 2020.

Refer to note D5 for commitments in respect of investment in associate and joint venture entities.

C2 Contingent assets and liabilities

Legal challenges

There are outstanding legal actions between the Company and its controlled entities and third parties at 30 June 2020. The Group has notified its insurance carrier of all relevant litigation and believes that any damages (other than exemplary damages) that may be awarded against the Group, in addition to its costs incurred in connection with the action, will be covered by its insurance policies where such policies are in place. Where there are no policies in place, provisions are made for known obligations where the existence of a liability is probable and can be reasonably quantified. As the outcomes of these actions remain uncertain, contingent liabilities exist for possible amounts eventually payable that are in excess of the amounts covered for by the insurance policies in place or of the amounts provided for.

Financial guarantees

Refer to note E1 for details of financial guarantees provided by the Group at the reporting date.

C3 Subsequent events

On 2 July 2020, the Group issued 30,730,998 new shares to settle the interim dividend (refer to note A6). Existing shareholders who elected to participate in the DRP received 6,849,977 new shares. In accordance with the underlying agreement, Credit Suisse Equities (Australia) Limited received 23,881,021 new shares in exchange for $75.1 million cash to fund the dividend cash payment.

Other than those events disclosed in the Directors’ Report or elsewhere in these financial statements, there have been no other significant events occurring after the balance sheet date and up to the date of this report, which may materially affect either the Group's operations or results of those operations or the Group's state of affairs.
Transactions with controlled entities

The Star Entertainment Group Limited

During the period, the Company entered into the following transactions with controlled entities:

- Loans of $133.8 million were repaid by controlled entities (2019: the Company repaid loans of $46.5 million); and
- Income tax and GST paid on behalf of controlled entities was $117.9 million (2019: $211.6 million).

The amount receivable by the Company from controlled entities at year end is $702.0 million (2019: $835.8 million). All the transactions were undertaken on normal commercial terms and conditions.

Transactions with other related parties

Other transactions

During the period, in addition to equity contributions (refer to note D5), the Group entered into the following transactions with related parties:

- Amount paid to Destination Brisbane Consortium Integrated Resort Holdings Pty Ltd was nil (2019: $0.1 million) relating to capital works;
- Amount recharged to Destination Gold Coast Consortium Pty Ltd was $0.5 million (2019: $1.9 million). There was no outstanding balance at 30 June 2020 (2019: $0.1 million); and
- Amount paid to Destination Gold Coast Consortium Pty Ltd was $7.8 million (2019: $3.4 million) relating to capital works.

Guarantees

The Star Entertainment Group Limited has guaranteed the liabilities of The Star Entertainment Finance Limited and The Star Entertainment International No.3 Pty Ltd. As at 30 June 2020, the carrying amount included in current liabilities at 30 June 2020 was nil (2019: nil), and the maximum amount of these guarantees was $116.7 million (2019: $121.9 million) (refer to note E1). The Company has also undertaken to support its controlled entities when necessary to enable them to pay their debts as and when they fall due.

Accounting policy for investments in controlled entities

All investments are initially recognised at cost, being the fair value of the consideration given. Subsequently, investments are carried at cost less any impairment losses.
D3 Deed of cross guarantee
The Star Entertainment Sydney Holdings Limited, The Star Pty Limited, The Star Entertainment Pty Ltd, The Star Entertainment Sydney Properties Pty Ltd and Star City Investments Pty Limited are parties to a deed of cross guarantee under which each company guarantees the debts of the others. By entering into the deed, the wholly-owned entities have been relieved from the requirements to prepare a Financial Report and Directors' Report under Instrument 2016/785 issued by the Australian Securities and Investments Commission.

Consolidated income statement and summary of movements in consolidated earnings
The above companies represent a 'closed group' for the purposes of the Class Order, and as there are no other parties to the deed of cross guarantee that are controlled by The Star Entertainment Sydney Holdings Limited, they also represent the 'extended closed group'.

Set out below is a consolidated income statement and a summary of movements in consolidated retained earnings for the year ended 30 June 2020 of the closed group.

(i) Destination Brisbane Consortium Integrated Resort Holdings Pty Ltd

The Group has partnered with Hong Kong-based organisations Chow Tai Fook Enterprises Limited (CTF) and Far East Consortium International Limited (FEC) to form Destination Brisbane Consortium (DBC) for the Queen’s Wharf Brisbane Project. The parties have formed two vehicles (the Integrated Resort Joint Venture and the Residential Joint Venture), which together are responsible for completing the Queen’s Wharf Brisbane project.

Consistent with the ownership structure, the Group will contribute 50% of the capital to the development of the Integrated Resort and act as the casino operator under a long dated casino management agreement. CTF and FEC will each contribute 25% of the capital to the development of the Integrated Resort. CTF and FEC will each contribute 50% of the capital to undertake the residential and related components of the broader Queen’s Wharf Brisbane development. The Group is not a party to the residential apartments development joint venture.

Committments and contingent liabilities

DBC has current capital commitments of approximately $1.7 billion (2019: $2.0 billion) to fund the construction of the Integrated Resort, which is expected to open in 2022 (subject to various approvals).

(ii) Festival Car Park Pty Ltd

The Group has a 50% interest in Festival Car Park Pty Ltd, a joint venture that operates the Festival Car Park on Charlotte Street in Brisbane. This is a joint venture with CTF and FEC.

Committments and contingent liabilities

The joint venture had no capital commitments as at 30 June 2020 (2019: nil). There were no other contingent liabilities.

Summarised financial information

The financial statements of the joint venture are prepared on financial information that is unaudited and prepared for reporting purposes. The joint venture has a financial year end date of 31 March.

(iii) Destination Gold Coast Investments Pty Ltd

On 20 October 2016, a 50% interest was acquired in Destination Gold Coast Investments Pty Ltd (DGCI). DGCI is a joint venture with CTF and FEC involved in the operation of the Sheraton Grand Mirage Resort, Gold Coast. The Group’s interest is accounted for using the equity method.

The Securityholders’ Deed for Destination Gold Coast Investments Pty Ltd requires unanimous consent for each Board resolution. Due to the unanimous requirement for decisions, each party has joint control of the entity. The entity is designed to exist on its own and the Deed does not grant the rights to assets and liabilities directly to the Group. The investment has therefore been classified as a joint venture.

Commitments and contingent liabilities

The joint venture had no capital commitments as at 30 June 2020 (2019: nil). There were no other contingent liabilities.

Summarised financial information

The financial statements of the joint venture are prepared for the same reporting period as the Group and follow the same accounting policies of the Group.

a The share of loss/profit for the period includes a $20.0 million impairment of goodwill. The impairment reflects the impact of COVID-19 on DGCI’s operations, including significantly reduced occupancy and food and beverage offerings.

(iv) Destination Gold Coast Consortium Pty Ltd

On 22 November 2016, a 33.3% interest was acquired in Destination Gold Coast Consortium Pty Ltd (DGCC). DGCC is a joint venture with CTF and FEC for the purpose of constructing a new residential and hotel tower in Gold Coast. The Group’s interest is accounted for using the equity method.

Commitments and contingent liabilities

On 16 August 2018, DGCC entered into an agreement to commence construction in relation to the first residential, hotel and retail tower in Gold Coast. The construction of the tower continues and is expected to be $370 million. DGCC has current commitments of approximately $233.0 million (2019: $370.0 million) to fund the construction of the first residential, hotel and retail tower, which is expected to open in 2022. The remaining costs will be funded out of secured project level debt facilities, providing funding to meet liabilities as and when they fall due through project completion.

Summarised financial information

The financial statements of the joint venture are prepared for the same reporting period as the Group and follow the same accounting policies of the Group.

E Risk Management

E1 Financial risk management objectives and policies

The Group's principal financial instruments, other than derivatives, comprise cash, short term deposits, Australian

denominated bank loans, and foreign currency denominated notes.

The main purpose of these financial instruments is to provide funding for the Group’s operations. The Group has

varied other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its

operations. Derivative transactions are also entered into by the Group, being interest rate swaps, cross currency

swaps and forward currency contracts, the purpose being to manage interest rate and currency risks arising from the

Group’s operations and sources of finance.

The Group’s risk management policy is carried out by the Group Treasury function under the Group Treasury Policy

approved by the Board. Group Treasury reports regularly to the Board on the Group’s risk management activities and

policies. It is, and has been throughout the period under review, the Group’s policy that no trading in financial

instruments shall be undertaken.

The main risks arising from the Group’s financial instruments are interest rate risk, foreign currency risk, credit risk and

liquidity risk.

Details of significant accounting policies and methods adopted, including criteria for recognition, the basis of

measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset,

financial liability and equity instrument, are disclosed in note G.

Interest rate risk

The Group manages interest rate risk by using a floating versus fixed rate debt framework. The relative mix of fixed

and floating interest rate funding is managed by using interest rate swap contracts. The Group manages its cash flow

interest rate risk by using floating-to-fixed interest rate swap contracts.

Foreign currency risk

As a result of issuing private notes denominated in US Dollars (USD), the Group’s balance sheet can be affected by

movements in the USD/AUD exchange rate. In order to manage this exposure, the Group has entered into cross

currency swaps to fix the exchange rate on the notes until maturity. The Group agrees to exchange a fixed USD

amount for an agreed Australian Dollar (AUD) amount with swap counterparties, and re-exchange this again at

maturity. These swaps are designated to hedge the principal and interest obligations under the private notes.

Credit risk

Credit risk on financial assets which have been recognised on the balance sheet, is the carrying amount less any

allowance for non-recovery. The Group minimises credit risk via adherence to a strict credit risk management policy.

Collateral is not held as security.

Customer credit risk

Credit risk in trade receivables is managed in the following ways:

- The provision of cheque cashing facilities for casino gaming patrons is subject to detailed policies and procedures

  designed to minimise any potential loss, including the use of a central credit agency which collates information from

  the major casinos around the world; and

- The provision of non gaming credit is covered by a risk assessment process for customers using the Credit

  Reference Association of Australia, bank opinions and trade references.

Receivable balances are monitored on an ongoing basis with the result that the Group’s exposure to bad debts is
carefully managed and controlled.

Financial institution credit risk

Credit risk arising from other financial assets of the Group, which comprise cash, cash equivalents and derivative

contracts, is reduced by transacting with relationship banks that have acceptable credit ratings, as determined by a

recognised ratings agency.

Cash investments, derivative financial instruments, bank guarantees, and other contingent instruments create credit

risk in relation to the relevant counterparties, which are principally large relationship banks.

The maximum counterparty credit exposure on forward currency and cross currency swaps is the fair value amount

that the Group receives when settlement occurs, should the counterparty fail to pay the amount which it has committed

to pay the Group. The credit risk on interest rate hedges is limited to the positive mark to market amount to be received

from counterparties over the life of contracts that are favourable to the Group. The Group’s maximum credit risk

exposure in respect of interest rate swap contracts, cross currency swap contracts and forward currency contracts is
detailed in note E2.

Notes to the financial statements for the year ended 30 June 2020

ANNUAL REPORT 2020

Financial risk management

Credit risk includes liabilities under financial guarantees

For financial guarantee contract liabilities, the fair value at initial recognition is determined using a probability weighted
discounted cash flow approach. The fair value of financial guarantee contract liabilities has been assessed as nil

(2019: nil), as the possibility of an outflow occurring is considered remote. Details of the financial guarantee contracts

in the balance sheet are outlined below.

Fixed and floating charges

The controlled entities denoted (b) in note D1 have provided Liquor and Gaming NSW with a fixed and floating charge

over all of the assets and undertakings of each company to secure payment of all monies and the performance of all

obligations which they have to Liquor and Gaming NSW.

Guarantees and indemnities

The controlled entities denoted (b) in note D1 have entered into a guarantee and indemnity agreement in favour of

Liquor and Gaming NSW whereby all parties to the agreement are jointly and severally liable for the performance of

the obligations and liabilities of each company participating in the agreement with respect to agreements entered into

and guarantees given.

The Star Entertainment Finance Limited and The Star Entertainment International No. 3 Pty Ltd are called upon to give

in the ordinary course of business, guarantees and indemnities in respect of the performance of their contractual and

financial obligations. The maximum amount of these guarantees and indemnities is $118.7 million (2019: $121.9

million).

Liquidity risk

Liquidity risk arises from the financial liabilities of the Group and the Group’s subsequent ability to meet its obligations
to repay its financial liabilities as and when they fall due.

The Group manages liquidity risk through maintaining sufficient cash and adequate amount of committed credit

facilities to be held above the forecast requirements of the business. The Group manages liquidity risk centrally by

monitoring cash flow forecasts and maintaining adequate cash reserves and debt facilities. The debt portfolio is

periodically reviewed to ensure there is funding flexibility across an appropriate maturity profile.

Refer to notes B7 and E2 for maturity of financial liabilities.

The contractual timing of cash flows on derivatives and non-derivative financial assets and liabilities at the reporting
date, including drawn borrowings and estimated interest, are set out in the tables below:

(i) Non-derivative financial instruments

<table>
<thead>

<tr>
<td>Net outflow</td>
<td>(314.5)</td>
<td>(679.6)</td>
</tr>
</tbody>
</table>
The movements in profit are due to higher/lower interest costs from variable rate debt and investments. The movement in other comprehensive income is due to an increase/decrease in the fair value of financial instruments designated as cash flow hedges.

The numbers derived in the sensitivity analysis are indicative only.

Significant assumptions used in the interest rate sensitivity analysis include:
- reasonably possible movements in interest rates were determined based on the Group’s current credit rating and mix of debt, relationships with financial institutions and the level of debt that is expected to be renewed, as well as a review of the last two years’ historical movements and economic forecaster’s expectations;
- price sensitivity of derivatives is based on a reasonably possible movement of spot rates at the balance sheet date; and
- the net exposure at the balance sheet date is representative of what the Group was, and is expecting to be, exposed to in the next twelve months.

Foreign Exchange
The following sensitivity analysis is based on foreign currency risk exposures in existence at the balance sheet date. At 30 June, had the AUD moved, as illustrated in the table below, with all other variables held constant, post tax profit and other comprehensive income would have been affected as follows:

Judgements of reasonably possible movements:

<table>
<thead>
<tr>
<th>AUD/USD + 10 cents</th>
<th>AUD/USD - 10 cents</th>
</tr>
</thead>
<tbody>
<tr>
<td>$m</td>
<td>$m</td>
</tr>
<tr>
<td>AUD/USD + 10 cents</td>
<td>-</td>
</tr>
<tr>
<td>AUD/USD - 10 cents</td>
<td>-</td>
</tr>
</tbody>
</table>

There is no movement in net profit after tax as the Group has fully hedged its foreign currency exposure to the USPP. The movement in other comprehensive income is due to an increase/decrease in the fair value of financial instruments designated as cash flow hedges. Management believes the balance sheet date risk exposures are representative of the risk exposure inherent in the financial instruments. The numbers derived in the sensitivity analysis are indicative only.

Significant assumptions used in the foreign currency exposure sensitivity analysis include:
- reasonably possible movements in foreign exchange rates were determined based on a review of the last two years’ historical movements and economic forecaster’s expectations;
- the reasonably possible movement of 10 cents was calculated by taking the USD spot rate as at balance sheet date, moving this spot rate by 10 cents and then re-converting the USD into AUD with the ‘new spot-rate’. This methodology reflects the translation methodology undertaken by the Group; and
- price sensitivity of derivatives is based on a reasonably possible movement of spot rates at the balance sheet dates; and
- the net exposure at the balance sheet date is representative of what the Group was, and is expecting to be, exposed to in the next twelve months.
E2 Additional financial instruments disclosures

(i) Fair values

The fair value of the Group’s financial assets and financial liabilities approximates their carrying value as at the balance sheet date.

There are various methods available in estimating the fair value of a financial instrument. The methods comprise:

Level 1 – the fair value is calculated using quoted prices in active markets.

Level 2 – the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 – the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

All of the Group’s derivative financial instruments are valued using the Level 2 valuation techniques, being observable inputs. There have been no transfers between levels during the year.

Interest rate swaps and cross currency swaps

The fair value of cross currency contracts is calculated as the present value of expected future cash flows of these instruments. Key variables include market pricing data, discount rates and credit risk of the group or counterparty where relevant. Variables reflect those which would be used by the market participants to execute and value the instruments.

Forward currency contracts

Fair value is calculated using forward exchange market rates at the balance sheet date.

USPP

Fair value is calculated using discounted future cash flow techniques, where estimated cash flows and estimated discount rates are based on market data at the balance sheet date, in combination with restatement to current foreign exchange rates.

(ii) Financial instruments - interest rate swaps

Interest rate swaps meet the requirements to qualify for cash flow hedge accounting and are stated at fair value. These swaps are used to hedge the exposure to variability in cash flows attributable to movements in the reference interest rate of the designated debt or instrument and are assessed as highly effective in offsetting changes in the cash flows attributable to such movements. Hedge effectiveness is measured by comparing the change in the fair value of the hedged item and the hedging instrument respectively each quarter. Any difference represents ineffectiveness and is recorded in the income statement.

The notional principal amounts and periods of expiry of the interest rate swap contracts are as follows:

<table>
<thead>
<tr>
<th>Period</th>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than one year</td>
<td>198.0</td>
<td>-</td>
</tr>
<tr>
<td>One to five years</td>
<td>200.0</td>
<td>198.0</td>
</tr>
<tr>
<td>More than five years</td>
<td>-</td>
<td>-</td>
</tr>
<tr>
<td>Notional Principal</td>
<td>298.0</td>
<td>198.0</td>
</tr>
</tbody>
</table>

Fixed interest rate range p.a. 1.0% - 6.0% 2.4% - 6.0%

Net settlement receipts and payments are recognised as an adjustment to interest expense on an accruals basis over the term of the swaps, such that the overall interest expense on borrowings reflects the average cost of funds achieved by entering into the swap agreements.

(iii) Financial instruments - cross currency swaps (cash flow hedges)

Cross currency swap contracts are classified as cash flow hedges and are stated at fair value. These cross currency swaps, in conjunction with interest rate swaps are being used to hedge the exposure to the cash flow variability in the value of the USD debt under the USPP and are assessed as highly effective in offsetting changes in movements in the forward USD exchange rate. Hedge effectiveness is measured by comparing the change in the fair value of the hedged item and the hedging instrument respectively each quarter. Any difference represents ineffectiveness and is recorded in the income statement.

(iv) Reconciliation of movement in financing activities

Financial instruments - cross currency swaps (fair value hedges)

These cross currency swaps are being used to hedge the exposure to fair value changes of the USD debt under the USPP as a result of fluctuations in the underlying USD to AUD exchange rate and US interest benchmark and are assessed as highly effective. The decrease in fair value of the cross currency swaps at fair value of $22.0 million (2019: $17.9 million) has been recognised in finance costs and offsetting gain on the USPP borrowings. The ineffectiveness recognised in FY2020 was immaterial.

The principal amounts and periods of expiry of the cross currency swap contracts are as follows:

<table>
<thead>
<tr>
<th>Period</th>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>AUD $m</td>
<td>USD $m</td>
</tr>
<tr>
<td>Less than one year</td>
<td>98.1</td>
<td>105.0</td>
</tr>
<tr>
<td>One to five years</td>
<td>-</td>
<td>98.1</td>
</tr>
<tr>
<td>More than five years</td>
<td>433.4</td>
<td>338.4</td>
</tr>
<tr>
<td>Notional principal</td>
<td>531.5</td>
<td>443.4</td>
</tr>
</tbody>
</table>

Fixed interest rate range p.a. 4.3% - 5.9% 4.3% - 5.9%

The terms and conditions in relation to interest rate and maturity of the cross currency swaps are similar to the terms and conditions of the underlying hedged USPP borrowings as set out in note B7.

Net deferred tax (liabilities)/assets

| (172.8) | (0.1) | 2.2 | - | (170.7) |
### Tax consolidation

Effective June 2011, The Star Entertainment Group Limited (the Head Company) and its 100% owned subsidiaries formed an income tax consolidation group. Members of the tax consolidation group entered into a tax sharing arrangement that provides for the allocation of income tax liabilities between the entities should the Head Company default on its tax payment obligations. At balance date, the possibility of default is remote.

### Tax effect accounting by members of the tax consolidation group

Members of the tax consolidation group have entered into a tax funding agreement effective June 2011. Under the terms of the tax funding agreement, the Head Company and each of the members in the tax consolidation group have agreed to make a tax equivalent payment to or from the Head Company, based on the current tax liability or current tax asset of the member. Deferred taxes are recorded by members of the tax consolidation group in accordance with the principles of AASB 112 ‘Income Taxes’. Calculations under the tax funding agreement are undertaken for statutory reporting purposes.

The allocation of taxes under the tax funding agreement is recognised as either an increase or decrease in the subsidiaries’ intercompany accounts with the Head Company. The Group has chosen to adopt the Group Allocation method as outlined in Interpretation 1052 ‘Tax Consolidation Accounting’ as the basis to determine each members’ current and deferred taxes. The Group Allocation method as adopted by the Group will not give rise to any contribution or distribution of the subsidiaries’ equity accounts as there will not be any differences between the current tax amount that is allocated under the tax funding agreement and the amount that is allocated under the Group Allocation method.

### Income tax payable

The balance of income tax payable is the net of current tax and tax instalments/refunds during the year. A current tax liability arises where current tax exceeds tax instalments paid and a current tax receivable arises where tax instalments paid exceed current tax.

The income tax (payable)/receivable balance is attributable to:

<table>

Nature and timing of provisions

Workers' compensation

The Group self insures for workers' compensation in both New South Wales and Queensland. A valuation of the estimated claims liability for workers' compensation is undertaken annually by an independent actuary. The valuations are prepared in accordance with the relevant legislative requirements of each state and ‘Professional Standard 300’ of the Institute of Actuaries. The estimate of claims liability includes a margin over case estimates to allow for the future development of known claims, the cost of incurred but not reported claims and claims handling expenses, which are determined using a range of assumptions. The timing of when these costs will be incurred is uncertain.

* The Group operates customer loyalty programs enabling customers to accumulate award credits for gaming and on-property spend. A portion of the spend, equal to the fair value of the award credits earned, is treated as deferred revenue, and recognised in the income statement when the award is redeemed or expires.

F8  Treasury shares

During the year, the Group purchased 3,859,774 (2019: 1,458,361) of its own shares for use to settle future employee share based payment schemes.

Operating cash flow before interest and tax was $157.6 million, down 67.1% on the pcp, due to the exceptional circumstances associated with COVID-19. The EBITDA to cash conversion ratio was 102%.

(iii) Capital management

The Group's objectives when managing capital are to ensure the Group continues as a going concern while providing optimal returns to shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends to be paid to shareholders, return capital to shareholders or issue new shares. Gearing is managed primarily through the ratio of net debt to earnings before interest, tax, depreciation, amortisation, impairment, significant items and share of the net loss of associate and joint venture entities.

Net debt comprises interest bearing liabilities, with US dollar borrowings translated at the 30 June 2020 USD/AUD spot rate of 1.4999 (2019: 1.4261), after adjusting for cash and cash equivalents and derivative financial instruments.

The Group’s capital management also aims to ensure that it meets financial covenants attached to the interest bearing loans and borrowings that define capital structure requirements. There have been no breaches of the financial covenants of any interest bearing loans and borrowings in the current period. The Star secured a full waiver of its gearing and interest cover covenants for the 30 June 2020 covenant testing date from all its debt providers. Other than these banking covenants, the Group is not subject to externally imposed capital requirements.

</table>

(a) Net debt is shown as interest bearing liabilities (excluding lease liabilities), less cash and cash equivalents, less net position of derivative financial instruments.

(b) EBITDA is a non-IFRS disclosure and stands for earnings before interest, tax, depreciation, amortisation and impairment.

(c) Gearing ratio (times) has increased 7.0x. EBITDA has been negatively effected by the exceptional circumstances associated with COVID-19, which saw the closure of the Group's properties during FY2020. Net debt was also impacted by the cashflow reduction associated with the closure of the properties.

F9 Share capital and reserves

The Group purchased 3,859,774 (2019: 1,458,361) of its own shares for use to settle future employee share based payment schemes.

(a) There is only one class of shares (ordinary shares) on issue. These ordinary shares entitle the holder to participate in dividends and proceeds on winding up of the Company, in proportion to the number and amounts paid on the shares held. On a show of hands, every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote. The Company does not have authorised capital nor par value in respect of its issued shares.

(b) The Group purchased 3,859,774 (2019: 1,458,361) of its own shares for use to settle future employee share based payment schemes.

(ii) Share based payments reserve

The share based payments reserve is used to recognise the value of equity settled share based payment transactions provided under share based plans.

Employee share plans

1,433,959 24,402 3,224 - 32.5 -

Grants from 26 September 2014 include a market based hurdle (relative total shareholder return (TSR)) and an EPS component. Grants from 2 October 2017 include a market based hurdle (relative TSR), an EPS component and a return on investment capital (ROIC) component. The Performance Rights have been independently valued. For the relative TSR component, valuation was based on assumptions underlying the Black-Scholes methodology to produce a Monte-Carlo simulation model. For the EPS and ROIC component, a discounted cash flow technique was utilised.

a The number of Performance Rights forfeited during the year is net of Performance Rights reinstated for employees who were terminated in FY19 as part of the Group reorganisation, but subsequently deemed good leavers. The number of Performance Rights reinstated is 48,665 from the 5 October 2016 grant, 43,678 from the 2 October 2017 grant and 27,963 from the 3 October 2018 grant.

b Performance rights granted on 21 September 2015 were tested on 21 September 2019 and did not vest. The TSR percentile rank for the Company was 14.93%, below the 50th percentile rank. The EPS performance was 22.4 cents, below the 33.5 cents threshold. As a result, these Performance Rights lapsed and no shares were issued to participants.

The key assumptions underlying the Performance Rights valuations are set out below:

<td>32.5</td>
</tr>
<tr>
<td>Vessel</td>
<td>4.7</td>
</tr>
</tbody>
</table>

In June 2020, the Group tendered for sale an aircraft and a vessel. The sales are expected to be completed before the end of October 2020. The assets were classified as ‘held for sale’ and measured at the lower of their carrying value and fair value less costs to sell at the time of reclassification. This resulted in an impairment expense of $13.5 million (2019: nil) (refer to note A7). The assets’ fair values were determined by reference to independent market data. This is a level 2 measurement as per the fair value hierarchy set out in note E2(i).
G Accounting policies and corporate information

Significant accounting policies are contained within the financial statement notes to which they relate and are not detailed in this section.

Corporate Information

The Star Entertainment Group Limited (the Company) is a company incorporated and domiciled in Australia. The Financial Report of the Company for the year ended 30 June 2020 comprises the Company and its controlled entities (collectively referred to as the Group). The Company's registered office is Level 3, 159 William Street, Brisbane QLD 4000.

The Company is of the kind specified in Australian Securities and Investments Commission (ASIC) Instrument 2016/191. In accordance with that Instrument, amounts in the Financial Report and the Directors’ Report have been rounded to the nearest hundred thousand dollars, unless specifically stated to be otherwise. All amounts are in Australian dollars ($). The Company is a for profit organisation.

The Financial Report was authorised for issue by the Directors on 20 August 2020.

Notes to the financial statements

The financial statements comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board. The financial statements have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and other mandatory Financial Reporting requirements in Australia.

Current Period Impact

The COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020. The response of governments in dealing with the pandemic is impacting the general activity levels within the community, the economy and the operations of the Group. On 23 March 2020, following government directives, The Star’s properties in Sydney, Gold Coast and Brisbane:

- ceased gaming activities;
- closed food and beverage, banqueting and conferencing offerings with the limited exception of in-room dining services for hotel guests; and
- significantly reduced the capacity of its hotel accommodation services.

The Star’s properties commenced a staged return to operation, albeit at significantly reduced capacity. Restrictions remain in place around the number of patrons allowed onsite as well as minimum health and safety standards, the compliance to which require complete closure of the properties each day for 4 hours. It remains uncertain for how long these restrictions will remain in place.

At 30 June 2020 the Group has re-assessed all significant judgements and estimates included in the 30 June 2020 financial result and position, including but not limited to, provisions against debtors, liability to future claims, impairment of non-current assets, the fair valuation of debt and associated instruments as well as other provisions and estimates.

Future Impact and Going Concern

COVID-19 and the resulting border closures and other restrictions imposed by governments has had a significant impact on the current year financial results and financial position. COVID-19 has created significant uncertainty in relation to the Group’s cash flow forecasts. Furthermore, there is the potential that the Group may breach covenants associated with its borrowing facilities at 31 December 2020, which if not amended or waived by the lenders, may lead to those borrowings becoming due and payable. The Group would need to raise additional capital or secure new borrowing facilities to repay existing borrowings should this eventuate. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the entity not continue as a going concern.

The Directors have taken the following matters into consideration in forming a view that the Group is a going concern, amongst other matters:

- The Group has cash on hand and on deposit of $66.1 million at 30 June 2020;
- At 30 June 2020, the Group has $507 million available facility capacity, of which $307 million has a maturity beyond 12 months. Drawn debt facilities due to mature within 12 months, which comprises the $98 million USPP, can be met out of available facility capacity;
- The Group expects to realise $37.2 million in asset divestments related to an aircraft and a vessel, held for sale at 30 June 2020;
- The Group has approximately $102 million in planned and committed capital expenditure and $156 million in committed investments into associates and joint ventures. The Directors have the ability to control the cash flow of certain capital expenditure, should the need arise. The Group’s $156 million in committed investments into associates and joint ventures in FY21 fulfil the Group’s remaining equity contributions towards both the Queen’s Wharf development and Tower 1 on the Gold Coast. Remaining construction costs will be funded by project finance, which was fully committed at 30 June 2020;
- Scenario modelling has been undertaken, based on events known and current expectations, to forecast Group operating cashflows for the next 12 months. All scenarios, which assess different staged recoveries of the domestic economy and availability of international patrons, support operations which will generate operating cash flows to cover committed investing activities;
- As announced to the market, no further cash dividends will be paid until gearing, which represents the ratio of net debt to 12 month trailing statutory EBITDA, is below 2.5 times;
- The Group is required to test covenants at 31 December 2020, at which time it is likely additional waivers will be required from all lenders. The Group remains in contact with its lenders and is confident that as COVID-19 related restrictions continue to ease, waivers are obtainable at 31 December 2020. Historically, the Group has demonstrated an ability to successfully obtain waivers in previous periods, including most recently at 30 June 2020; and
- The Group has the opportunity to raise additional capital either through asset disposal or issuance of new shares, should the need arise. On 2 July 2020, 30,730,998 new shares were issued to settle the 2020 interim dividend.

Based on the above, the Directors are satisfied that sufficient cashflows will be generated along with the capacity to either amend existing funding agreements or obtain new funding, such that the Group will be able to meet its liabilities, as and when they fall due, over the next twelve months.

Significant accounting judgements, estimates and assumptions

Preparation of the financial statements in conformity with Australian Accounting Standards and IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

In the process of applying the Group’s accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements:

- Going concern (refer note above);
- Asset useful lives and residual values (refer notes A4 and B5);
- Impairment of assets (refer note B6);
- Valuation of derivatives and other financial instruments (refer note B3);
- Impairment of trade receivables (refer note B2);
- Significant items (refer note A7);
- Provisions (refer note F6); and
- Asset held for sale (refer note F13).
Notes to the financial statements

Property costs *
Net finance costs
Depreciation, amortisation and impairment

Changes in accounting policies and disclosures

(i) AASB 16 Leases

AASB 16 supersedes AASB 117 Leases, Interpretation 4 Determining whether an Arrangement contains a Lease, Interpretation 115 Operating Leases-Incentives and Interpretation 127 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model.

The Group has adopted the new standard using the modified retrospective method of adoption with the date of initial application of 1 July 2019. Under this transition method, prior period comparative financial statements are not required to be restated. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option (short-term leases), and lease contracts for which the underlying asset is of low value (low-value leases).

The impact of the new standard is that leases whereby the Group is lessee are required to be recognised on the balance sheet as a right-of-use (ROU) asset and lease liability, except for short-term leases and low-value leases. On transition, for existing leases, the lease liability is measured at the present value of future lease payments, discounted using the incremental rate of borrowing at transition date. The Group elected to use the exemption whereby on transition, the ROU asset is recognised at an amount consistent with the lease liability, adjusted for any existing lease related assets or liabilities (prepaid lease payments and accrued lease incentives).

The effect of adopting AASB 16 on the balance sheet is as follows:

<table>

</tr>
</tbody>
</table>

Leases previously accounted for as operating leases

Leasing accounting under AASB 16 is substantially unchanged from accounting under AASB 117. Lessor's costs represent the operating lease expense which would have originally been recorded under AASB 117.

* These costs are considered as finance expenses.

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets.

Lease liabilities as at 1 July 2019 can be reconciled to the operating lease commitments as at 30 June 2019:

</tbody>
</table>

Summary of new accounting policies

Right-of-use assets

The Group recognises ROU at the commencement date of the lease (i.e. the date the underlying asset is available for use). ROU assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of ROU assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The recognised ROU assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. ROU assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of buildings, leasehold improvements and plant and equipment, i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value (i.e. below $10,000). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

The above policies replace the lease policy in place at 30 June 2019, which reads: Leases of assets where the Group assumes substantially all the benefits and risks of ownership are classified as finance leases. Leases of assets under which substantially all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.
Notes to the financial statements for the year ended 30 June 2020

Basis of consolidation

Controlled entities

The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Controlled entities are consolidated from the date control is transferred to the Group and are no longer consolidated from the date control ceases. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated.

Foreign currency

The consolidated financial statements are presented in Australian dollars ($) which is the Group's functional and presentation currency.

Transactions and balances

Transactions denominated in foreign currencies are translated at the rate of exchange ruling on the transaction date. Monetary items denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Gains and losses arising from the translation are credited or charged to the income statement, with the exception of differences on foreign currency borrowings that are in an effective hedge relationship. These are taken directly to equity until the liability is extinguished, at which time they are recognised in the income statement.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense, it is recognised net of the related expense for which it is intended to compensate. There are no unfilled conditions or other contingencies attached to the grants.

Net finance costs

Finance income is recognised as the interest accrues, using the effective interest method. Finance costs consist of interest and other borrowing costs incurred in connection with the borrowing of funds. Finance costs directly associated with qualifying assets are capitalised, all other finance costs are expensed, in the period in which they occur.

Taxation

Income tax

Income tax comprises current and deferred income tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable on the taxable income for the period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for:

- goodwill; and
- the initial recognition of an asset or liability in a transaction which is not a business combination and that affect neither accounting nor taxable profit at the time of the transaction.

The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Goods and Services Tax (GST)

Revenues, expenses, assets and liabilities are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable;
- casino revenues, due to the GST being offset against government taxes; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Cash flows are included in the cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

Trade receivables

Trade receivables are carried at the lower of cost or recoverable amount. The recoverable amount is the higher of the net amount receivable at the reporting date and the present value of future cash flows. Impairment losses are measured at the lower of cost and net realisable value.

Goodwill

Goodwill represents the excess of the consideration transferred over the fair value of the identifiable net assets acquired and liabilities assumed. Goodwill is assessed for impairment on an annual basis and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed.

Intangible assets

Goodwill is allocated to cash generating units for the purpose of impairment testing. The allocation is made to those cash generating units or groups of cash generating units that are expected to benefit from the business combination in which the goodwill arose.
Other intangible assets
Indefinite life intangible assets are not amortised and are assessed annually for impairment. Expenditure on gaming licences acquired, casino concessions acquired, computer software and other intangibles are capitalised and amortised using the straight-line method as described in note B5.

Software
Costs associated with developing or maintaining computer software programs are recognised as expenses as incurred. However, costs that are directly associated with identifiable and unique software products controlled by the Group and which have probable economic benefits exceeding the costs beyond one year are recognised as intangible assets. Direct costs include staff costs of the software development team and an appropriate portion of the relevant overheads. Expenditure meeting the definition of an asset is recognised as a capital improvement and added to the original cost of the asset. These costs are amortised using the straight-line method, as described in note B5.

Casino licences and concessions
Refer to note B5 for details and accounting policy.

Impairment of assets
Assets held for sale
Assets that have an indefinite useful life are not subject to depreciation or amortisation and are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value less costs of disposal and value in use. In the Case of assets subject to impairment, the assets are grouped at the lowest level for which there are separately identifiable cash flows (cash generating units). Refer to note B6 for further details of key assumptions included in the impairment calculation.

Assets held for sale
Non-current assets are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction, rather than through continuing use, and a sale is considered highly probable. They are measured at the lower of their carrying value and fair value less costs to sell. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its fair value less costs to sell.

Provisions
A provision is recognised in the balance sheet when the Group has a present legal or constructive obligation and it is probable that an outflow of economic benefits will be required to settle the obligation and the amount can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Investment in associate and joint venture entities
Associates are all entities over which the Group has significant influence but not control or joint control. Joint control is the contractually agreed sharing of the joint arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. A joint venture is a type of arrangement whereby parties that have joint control of the arrangement have rights to the net assets of the joint venture. The Group’s investments in associate and joint venture entities are accounted for using the equity method of accounting, after initially being recognised at cost. Under the equity method of accounting, the investments are initially recognised at cost and are subsequently adjusted to recognise the Group’s share of the post-acquisition profits or losses of the investee in the income statement, and the Group’s share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received are recognised as a reduction in the carrying amount of the investment. The carrying amount of equity-accounted investments is tested for impairment in accordance with the Group’s policy.

Interest bearing liabilities
Interest bearing liabilities are recognised initially at fair value and include transaction costs. Subsequent to initial recognition, interest-bearing liabilities are recognised at amortised cost using the effective interest rate method. Any difference between proceeds and the redemption value is recognised in the income statement over the period of the borrowing using the effective interest rate method.

Interest bearing liabilities are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Employee benefits
Post-employment benefits
The Group’s commitment to defined contribution plans is limited to making the contributions in accordance with the minimum statutory requirements. There is no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees relating to current and past employee services.

Superannuation guarantee charges are recognised as expenses in the income statement as the contributions become payable. A liability is recognised when the Group is required to make future payments as a result of employees’ services provided.

Long service leave
The Group’s net obligation in respect of long term service benefits, other than pension plans, is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated using the expected future increases in wage and salary rates including related on-costs and expected settlement dates, and is discounted using rates attached to bonds with sufficiently long maturities at the balance sheet date, which have maturity dates approximating to the terms of the Group’s obligations.

Annual leave
Liabilities for annual leave are calculated at discounted amounts based on remuneration rates the Group expects to pay, including related on-costs when the liability is expected to be settled. Annual leave is another long term benefit and is measured using the projected credit unit method.

Share based payment transactions
The Company operates a long term incentive plan (LTI), which is available to employees at the most senior executive levels. Under the LTI, employees may become entitled to Performance Rights which may potentially convert to ordinary shares in the Company. The fair value of Performance Rights is measured at grant date and is recognised as an employee expense (with a corresponding increase in the share based payment reserve) over four years from the grant date irrespective of whether the Performance Rights vest to the holder. A reversal of the expense is only recognised in the event the instruments lapse due to cessation of employment within the vesting period.

The fair value of the Performance Rights is determined by an external value and takes into account the terms and conditions upon which the Performance Rights were granted.

The Company operates an Equity Retention Plan, whereby eligible employees may receive up to 100% of their fixed annual remuneration amount in value as fully paid ordinary shares after five years. The awards are issued at no cost to participants and are subject to a service condition of five years. Participants are entitled to dividends and may benefit from share price growth over the vesting period.

Under the Company's short term incentive plan (STI), eligible employees receive two thirds of their annual STI entitlement in cash and one third in the form of restricted shares which are subject to a holding lock for a period of twelve months. These shares are forfeited in the event that the employee voluntarily terminates from the Company. Due to the exceptional circumstances associated with COVID-19, the Board resolved to exercise its discretion to make a significantly reduced equity award under the FY2020 STI. The award will be delivered as a share based payment, subject to a holding lock of one year from the date of issue.

The cost is recognised in employment costs, together with a corresponding increase in equity (share based payment reserve) over the service period. No expense is recognised for awards that do not ultimately vest. A liability is recognised for the fair value of cash settled transactions. The fair value is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employment costs.

Derivative financial instruments
The Group uses derivative financial instruments to hedge its exposure to foreign exchange and interest rate risks arising from operational, financing and investment activities. In accordance with its Treasury Policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

Derivative financial instruments are recognised at fair value at the date the derivative contract is entered into and are subsequently remeasured to fair value at the end of each reporting period. The resulting gain or loss is recognised immediately in the income statement. However, where derivatives qualify for cash flow hedge accounting, the effective portion of the gain or loss is deferred in equity while the ineffective portion is recognised in the income statement.

The fair value of interest rate swap, cross currency swap and forward currency contracts is determined by reference to market values for similar instruments. Refer to note E2 for details of fair value determination.

Derivative assets and liabilities are offset and the net amount reported in the consolidated balance sheet if, and only if:
- there is a currently enforceable legal right to offset the recognised amount; and
- there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

89

90
Hedging
Cash flow hedges
Where a derivative financial instrument is designated as a hedge of the exposure to variability in cash flows that are attributable to a particular risk associated with a recognised asset or liability, or a highly probable forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in equity. When the forecast transaction subsequently results in the recognition of a non financial asset or liability, the associated cumulative gain or loss is removed from equity and included in the initial cost or other carrying amount of the non financial asset or liability.
If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or financial liability, then the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects the income statement (i.e. when interest income or expense is recognised). For cash flow hedges, the effective part of any gain or loss on the derivative financial instrument is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement. The ineffective part of any gain or loss is recognised immediately in the income statement.
When a hedging instrument expires or is sold, terminated or exercised, or the designation of the hedge relationship is revoked but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above when the transaction occurs. If the hedged transaction is no longer expected to take place, then the cumulative unrealised gain or loss recognised in equity is recognised immediately in the income statement.
Fair value hedges
Where a derivative financial instrument is designated as a hedge of the exposure to variability in the fair value of a recognised asset or liability, any change in the fair value of the hedge is recognised in the income statement as a finance cost. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the income statement as a finance cost.
Issued capital
Issued and paid up capital is recognised at the fair value of the consideration received. Issued capital comprises ordinary shares. Any transaction costs directly attributable to the issue of ordinary shares are recognised directly in equity, net of tax, as a reduction of the share proceeds received.
Operating segment
An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity’s executive decision makers to allocate resources and assess its performance.
The Group aggregates two or more operating segments when they have similar economic characteristics, and the segments are similar in each of the following respects:
- nature of the products and services;
- type or class of customer for the products and services;
- methods used to distribute the products or provide the services; and
- nature of the regulatory environment.
Segment results include revenue and expenses directly attributable to a segment and exclude significant items.
Capital expenditure represents the total costs incurred during the period to acquire segment assets, including capitalised interest.
Dividend distributions
Dividend distributions to the Company’s shareholders are recognised as a liability in the Group’s financial statements in the period in which the dividends are declared.
Basic earnings per share
Basic earnings per share is calculated by dividing the net earnings after tax for the period by the weighted average number of ordinary shares outstanding during the period.
Diluted earnings per share
Diluted earnings per share is calculated by dividing the net earnings attributable to ordinary equity holders adjusted by the after tax effect of:
- any dividends or other items related to dilutive potential ordinary shares deducted in arriving at profit or loss attributable to ordinary equity holders;
- any interest recognised in the period related to dilutive potential ordinary shares; and
- any other changes in income or expense that would result from the conversion of the dilutive potential ordinary shares;
by the weighted average number of issued ordinary shares plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.
INDEPENDENT AUDITORS REPORT

Independent Auditor's Report to the Members of The Star Entertainment Group Limited

Opinion

We have audited the financial report of The Star Entertainment Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors’ declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

a) giving a true and fair view of the consolidated financial position of the Group as at 30 June 2020 and of its consolidated financial performance for the year ended on that date; and

b) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board’s APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter: COVID-19 – Material uncertainty in relation to going concern

We draw attention to Note G of the financial report which notes the impact of the COVID-19 pandemic on the Directors’ assessment of the ability of the Group to continue as a going concern. The impact of COVID-19, indicates that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. Note G describes the basis of the directors’ assessment that the Group has the ability to continue as a going concern and the actions they are planning to take to respond to this uncertainty. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

We have fulfilled the responsibilities described in the Auditor’s Responsibilities for the Audit of the Financial Report section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

Recoverability of trade receivables

As disclosed in Note B2, the Group’s consolidated statement of financial position included $157.3m of gross trade receivables and an associated provision for impairment of $103.6m at 30 June 2020. As disclosed in note B2, the calculation of the expected credit losses (ECL) is inherently subjective. A small difference in any one of the key assumptions may result in a significant change in the ECL.

The Directors’ assessment as to the recoverability of trade receivables relating to VIP revenue involves judgement, specifically relating to the individual circumstances of each aged debtor.

The Group applies Australian Accounting Standard AASB 9 Financial instruments in calculating the provision for doubtful debts, applying a forward-looking expected loss impairment model. This involves judgement as to the expected credit losses must reflect information about past events, current conditions and forecasts of future conditions, and the impact that COVID-19 and the closure of the international border has had on the Company’s trade debtors.

On a sample basis, we performed the following procedures for selected debtors:

- Assessed whether the ageing of trade receivables was being correctly calculated.
INDEPENDENT AUDITOR’S REPORT

Why significant to the audit

As disclosure in note B2, there is significant recoverability uncertainty as at 30 June 2020 arising from the COVID-19 pandemic due to casino closures, international border closures, and significant uncertainty in international economies. The total increase in the ECL provision for the year was $97.3m.

This was a key audit matter due to the inherent subjectivity that is involved in making judgements in relation to credit exposures to determine the recoverability of trade receivables.

How our audit addressed the key audit matter

▸ Assessed the effectiveness of relevant controls in relation to the granting of credit facilities, including credit checks.
▸ Compared the Group’s provisioning rates to determine whether they are reasonable and supportable based on objective and observable evidence with reference to the individual customers circumstances.
▸ Assessed the appropriateness and consistency in the application of the considerations of the provision taking into account future events and conditions. The key assumptions are listed in note B2.
▸ Evaluated cash receipts after year-end to determine any remaining exposure at the date of the financial report.

Our audit procedures also included the following:

▸ Evaluated whether the expected credit loss impairment model met the criteria set out in AASB 9 and tested the mathematical accuracy of the calculations.
▸ Considered whether there have been any indicators of material changes in recoverability of trade receivables from 30 June 2020 up to the date of our opinion.
▸ Assessed the adequacy of the Group’s disclosures in relation to trade receivables included in the financial report.

Impairment testing of Goodwill

Why significant to the audit

The Group has goodwill of $1,442.2 million as at 30 June 2020. The Group performs an impairment assessment on an annual basis to support the carrying value of goodwill. In addition, an impairment assessment is performed when there is an impairment indicator present.

The impairment assessment is complex and judgemental, as it includes modelling a range of assumptions and estimates that are affected by expected future performance and market conditions such as cash flow forecasts, growth rates, discount rates and terminal value assumptions. Accordingly, the Group’s impairment assessment was a key audit matter.

Key assumptions, judgements and estimates used in the Group’s assessment of impairment of intangibles assets are set out in Note B6 of the financial report. Given the conditions at balance date, a range of scenarios around the Group’s expected cash flows have been considered. In this situation, the disclosures in Note B6 of the financial report provide particularly important information about the key assumptions made in the impairment models at 30 June 2020.

As at 30 June 2020 there is significant uncertainty arising from the COVID-19 pandemic and the response of Governments to it. This means that the cash flow forecasts and assumptions may change significantly and unexpectedly over a relatively short period of time. The COVID-19 pandemic resulted in closure of operations during the year. Upon resumption of operations, social distancing requirements, venue capacity restrictions, and international border closures imposed by governments will constrain short term revenue and may change with limited notice.

Accordingly, we considered this a key audit matter due to the uncertainty and judgements required in the impairment testing of goodwill. For the same reasons we consider it important that attention is drawn to the information in Note B6 of the financial report in assessing the impairment testing of goodwill at 30 June 2020.

How our audit addressed the key audit matter

Our audit procedures included the following:

▸ Evaluated the cash flow forecasts, which supported the recoverable value of the goodwill.
▸ Compared the forecasts to the Board approved budgets and five-year financial plan. We also considered the historical reliability of the Group’s cash flow forecasting and budgeting processes.
▸ Involved our valuation specialists to assess whether the methodology applied was in accordance with Australian Accounting Standards and to evaluate the key assumptions applied in the impairment models, in particular changes made as a result of COVID-19. These included the discount rates, growth rates, terminal value assumptions, resumption of overseas travel, and easing of social distancing requirements.
▸ Tested whether the models used were mathematically accurate.
▸ Performed sensitivity analysis around the key assumptions to ascertain the extent to which changes in those assumptions would result in impairment.
▸ Assessed the adequacy of the disclosures included in Notes B5 and B6 of the financial report, and in particular those relating to the cash flow forecasts are appropriate.
▸ We have considered whether there have been any indicators of material changes in the carrying value of goodwill from 30 June 2020 up to the date of our opinion.
Information Other than the Financial Report and Auditor’s Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group’s 2020 Annual Report other than the financial report and our auditor’s report thereon. We obtained the Directors’ Report that is to be included in the Annual Report, prior to the date of this auditor’s report, and we expect to obtain the remaining sections of the Annual Report after the date of this auditor’s report.

Our opinion on the financial report does not cover the other information and we do not and will not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting.

Auditor’s Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Remuneration

We have audited the Remuneration Report included in pages 16 to 36 of the directors' report for the year ended 30 June 2020.

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 16 to 36 of the directors' report for the year ended 30 June 2020.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Sydney

20 August 2020

SHAREHOLDER INFORMATION

AS AT 14 AUGUST 2020

ORDINARY SHARE CAPITAL

The Star Entertainment Group Limited has 948,053,728 fully paid ordinary shares on issue.

SHAREHOLDING RESTRICTIONS

The Star Entertainment Group’s Constitution, as well as certain agreements entered into with the New South Wales Independent Liquor and Gaming Authority and the Queensland Office of Liquor and Gaming Regulation, contain certain restrictions prohibiting an individual from having a voting power of more than 10% in The Star Entertainment Group without the written consent of the New South Wales Independent Liquor and Gaming Authority and of the Queensland Minister. The Star Entertainment Group may refuse to register any transfer of shares which would contravene these shareholding restrictions or require divestiture of the shares that cause an individual to exceed the shareholding restrictions.

In July 2012, written consent was granted by the New South Wales Independent Liquor and Gaming Authority and the relevant Queensland Minister for Perpetual Investment Management Limited to increase its shareholding in The Star Entertainment Group from 20% up to a maximum of 15% of issued shares.

VOTING RIGHTS

All ordinary shares issued by The Star Entertainment Group Limited carry one vote per share. Performance rights do not carry any voting rights.

Gambling legislation in New South Wales and Queensland and The Star Entertainment Group’s Constitution contain provisions regulating the exercise of voting rights by persons with prohibited shareholding interests, as well as the regulation of shareholding interests.

The relevant Minister has the power to request information to determine whether a person has a prohibited shareholding interest. If a person fails to furnish these details within the time specified or, in the opinion of the Minister, the information is false or misleading, then the Minister can declare the voting rights of those shares suspended.

Failure to comply with gambling legislation in New South Wales and Queensland or The Star Entertainment Group’s Constitution, including the shareholder restrictions mentioned above, may result in suspension of voting rights.

EQUITY PLACEMENT

On 29 March 2018, The Star Entertainment Group Limited announced that:

(a) it had entered into a subscription agreement dated 28 March 2018 with its joint venture partners, Chow Tai Fook Enterprises Limited (CTF) and Far East Consortium International Limited (FEC) (Subscription Agreement) under which the respective nominated entities of each of CTF and FEC separately acquire 45,825,000 new fully paid ordinary shares in The Star Entertainment Group (equivalent to a 4.99% stake each) at $5.35 per share, for a total consideration of $245,163,750 each; and

(b) in addition to existing agreements, The Star Entertainment Group had entered into a Strategic Alliance Agreement with CTF and FEC which provides a framework for the three parties to work together further to grow The Star Entertainment Group’s properties and businesses, collaborate on potentially mutually beneficial development opportunities and establish a marketing alliance (Strategic Alliance).

In accordance with the terms of the Subscription Agreement, 45,825,000 new fully paid ordinary shares were issued to each of the respective nominated entities of CTF and FEC on 16 April 2018.

TOP-UP RIGHT

The Subscription Agreement grants to CTF and FEC certain top-up rights that entitles each of them to participate in future equity raisings undertaken by The Star Entertainment Group during the term of the Strategic Alliance in order to maintain their pre-equity raising ownership interests (Top-Up Right).

The ASX has granted The Star Entertainment Group a waiver from listing rule 6.18 which permits an entity to grant an option exercisable over a percentage of the entity’s capital. The waiver granted by ASX permits CTF and FEC (and their nominees) to maintain, by way of a right to participate in any issue of shares or to subscribe for shares, their percentage relevant interest in the issued share capital of The Star Entertainment Group in respect of a diluting event.

The waiver from listing rule 6.18 is subject to the terms and conditions imposed by ASX which are set out in The Star Entertainment Group’s ASX Announcement dated 21 May 2018, including a requirement that a summary of the Top-Up Right be included in each Annual Report.
The following is a summary of the substantial shareholders as at 14 August 2020 pursuant to notices lodged with ASX in accordance with section 673B of the Corporations Act 2001.

In accordance with the Top-Up Right, if The Star Entertainment Group undertakes an equity raising during the term of the Strategic Alliance which would result in The Star Entertainment Group issuing 3% or more of its share capital (or would have such an effect in the case of an issue of convertible securities) (Equity Raising), then The Star Entertainment Group must give each of CTF and FEC (or their respective nominees) an opportunity to participate in the Equity Raising on a basis that allows them to maintain their pre-Equity Raising shareholding percentage.

CTF and FEC (or their respective nominees) will be entitled to participate in the Equity Raising on the same terms and conditions (including price) as all other participants in the Equity Raising.

The Top-Up Right does not operate in respect of issues of securities:

• under a dividend or distribution plan;
• under an employee incentive scheme (including on the conversion of any convertible securities issued under any such scheme); or
• pursuant to any takeover bid or scheme of arrangement; or
• as consideration for the acquisition of an asset by The Star Entertainment Group or any of its related bodies corporate.

The Top-Up Right will automatically terminate in circumstances where:

• CTF or FEC or their respective nominees and affiliates (as applicable) cease to hold the shares issued under the Subscription Agreement; or
• the waiver of ASX Listing Rule 6.18 ceases to apply (either as a result of the lapse of time or CTF or FEC no longer complying with the terms and conditions of the waiver).

If the Top-Up Right ceases or terminates, and The Star Entertainment Group undertakes an Equity Raising then (subject to any applicable laws, rules or regulations) it must consider making (but is not obliged to make) an offer to CTF and FEC and will not raise shareholding percentage on a basis that allows them to maintain their pre-Equity Raising shareholding percentage.

SUBSTANTIAL SHAREHOLDERS

The following is a summary of the substantial shareholders as at 14 August 2020 pursuant to notices lodged with ASX in accordance with section 673B of the Corporations Act 2001.

SHARE BUY-BACKS

There is no current or planned buy-back of The Star Entertainment Group’s shares.
This Annual Report is available on-line from The Star Entertainment Group’s website www.starentertainmentgroup.com.au. Annual Reports will only be sent to those shareholders who have requested to receive a copy. Shareholders who no longer wish to receive a hard copy of the Annual Report or wish to receive the Annual Report electronically are encouraged to contact the share registry. This will assist with reducing the costs of production of the hard copy of the Annual Report.

The Star Entertainment Group’s website www.starentertainmentgroup.com.au offers investors a wide range of information regarding its activities and performance, including Annual Reports, interim and full year financial results, webcasts of results and Annual General Meeting presentations, major news releases and other company statements.

Investors seeking more information about the Company are invited to contact The Star Entertainment Group’s Shareholder Relations Team:

Address: GPO Box 13348
George Street Post Shop
Brisbane QLD 4003

Telephone: +61 7 3228 0000
Facsimile: +61 7 3228 0099
Email: investor@star.com.au

Investors seeking information about their shares in The Star Entertainment Group should contact The Star Entertainment Group’s share registry. Investors should have their Shareholder Reference Number (SRN) or Holder Identification Number (HIN) available to assist the share registry in responding to their enquiries.

Information in this report has been prepared by The Star Entertainment Group Limited, unless otherwise indicated. Information may be reproduced provided it is reproduced accurately and not in a misleading context. Where the material is being published or issued to others, the sources and copyright status should be acknowledged.

This Annual Report may include forward looking statements and references which, by their very nature, involve inherent risks and uncertainties. These risks and uncertainties may be matters beyond The Star Entertainment Group’s control and could cause actual results to vary (including materially) from those predicted.

Forward looking statements are not guarantees of future performance. Past performance of shares is not indicative of future performance and should not be relied upon as such. The value of investments and any income from them is not guaranteed and can fall as well as rise. The Star Entertainment Group recommends that investors make their own assessments and seek independent professional advice before making investment decisions.

2020 CORPORATE GOVERNANCE STATEMENT

2020 ANNUAL GENERAL MEETING
The 2020 Annual General Meeting of The Star Entertainment Group Limited will be held as a virtual (online) meeting on Thursday, 22 October 2020.

Information and guidance on how to join the Annual General Meeting will be made available with the Notice of Meeting which will be provided electronically via The Star Entertainment Group’s website www.starentertainmentgroup.com.au/annual-general-meetings.
