After Selecting the Package...

When you have come to a decision regarding your video package, we require a 50% deposit and signing of contract. If you have selected a package that includes drone video, we will verify that all FAA flight areas to be filmed meet the requirements set out by the FAA Part 107. This will be done prior to the signing of the contract. Ground Up Productions is a fully insured company.

If your ceremony is taking place in a church, we will contact the church in advance to verify their policies regarding the use of tripods. This will be done prior to the signing of the contract.

After signing the contract and paying deposit

At this time, you are booked for your date and have a beautiful video production scheduled for the big day. We ask that the couple provide us with a schedule for the wedding day as it is developed. Please note that providing us with a final schedule of your wedding day is necessary in order for us to plan out your wedding film. We work with your other service providers and vendors on the day off as a team.

10 Days before your Wedding Day

We ask for the remaining 50% deposit to be paid. This payment will cover the remainder of your balance for your chosen wedding video package. If you seek hours outside the contracted amount with your package it will fall into overtime. We offer overtime hours at \$100 dollars an hour per videographer. The bride and groom will be given a 30-minute warning and will be given the option for overtime hours if requested.

Wedding Day

The day starts out filming the bridal party's getting ready for the ceremony. We first arrive at the location of the bridesmaid. Our shot list includes filming of bridesmaids dresses on hangers, makeup, hair, candid interactions, details of wedding ring, heels, etc. Next would be filming the groomsmen getting ready at their location. Last part of getting ready would be heading back to the bridesmaids location for filming the buttoning of the brides wedding dress. If your wedding has vows and you did write vows, we would record both the bride and groom reading their vows during the getting ready time period. The ceremony is the most sacred part of the event so we film from angles setup to capture every emotion of the big moment. Audio recording devices will be placed on groom and efficient. If available we usually connect with the DJ to record directly. After the ceremony, If you chose the Celebrate Love Package, we generally will ask to add a 15 minute time slot before cocktail hour for us to organize and perform a unique video clip of the bridal party. Filming of the reception includes introductions, first dances, speeches, cake cutting, and any important special moments in between.

1-2 Weeks After Wedding

If you picked the Perfect Pair or Celebrate Love Package, you will receive your 1-minute teaser video. Perfect for sharing on social media for friends and family that could not make it.

4-6 Months after Wedding

This is when you will receive your final wedding video that will be shipped to you in an engraved wooden keepsake box. If you selected
