

## Peptides/ Hydrolysates– Nature’s Hidden Secrets

### Health Focus Areas

- |                   |                       |
|-------------------|-----------------------|
| Muscle recovery   | Joint Health          |
| Anti-ageing       | Cardiovascular Health |
| Anti-inflammatory | Satiety               |
| Anti-microbial    | Anti-oxidation        |
| Intestinal Health | Anti-cholesterol      |

Bioactive peptides can be released from natural proteins to exert a range of health benefits

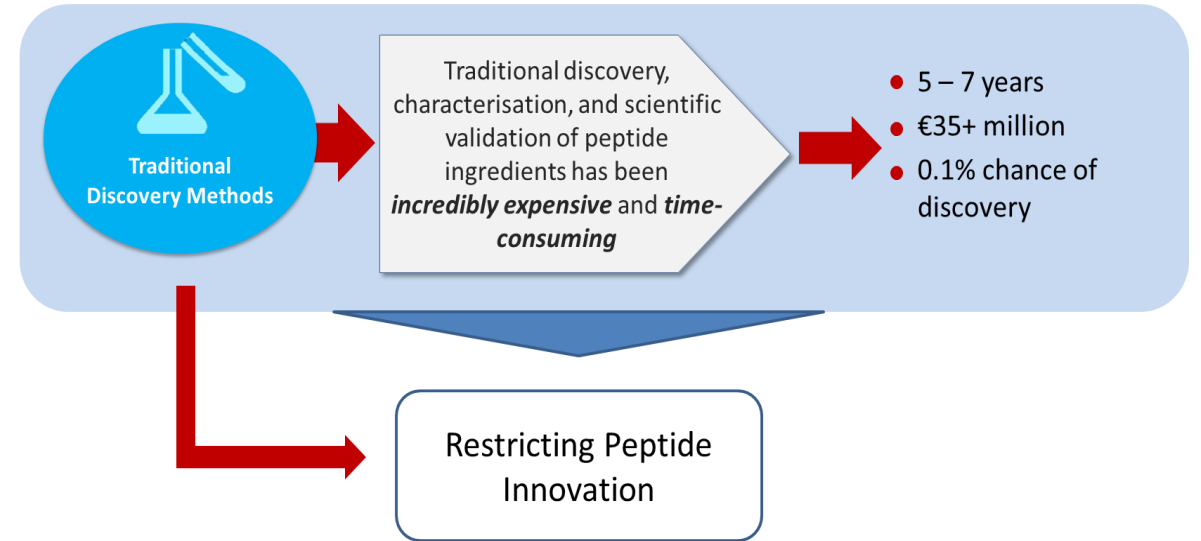

Dormant within the parent protein structure & upon release exert biologically active function

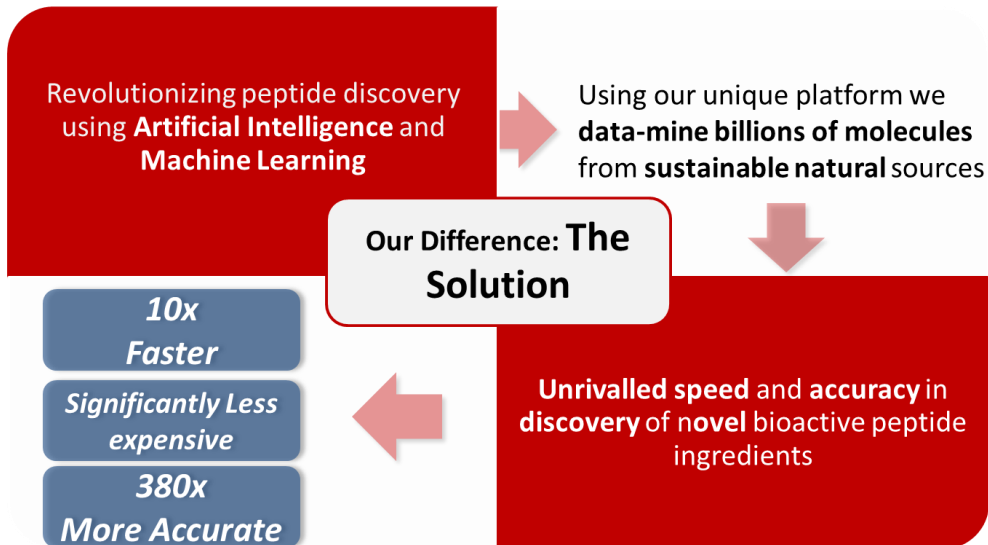

## Huge Challenges in Traditional Discovery

### Traditional Peptide Discovery: Time and Capital Intensive

## Nuritas: Driving Peptide Innovation

### Revolutionising the discovery of bioactive peptides

## Our Ingredients

- Food - Derived ✓
- Characterised ✓
- In-vitro tested ✓
- Natural or Synthetic ✓

- Novel ✓
- Patented ✓
- Sustainable ✓
- GRAS ✓

### Current Peptide R&D Focus

- Anti-Ageing
- Muscle recovery
- Anti-Microbial
- Anti-Inflammatory
- Anti-Oxidation

### Our ingredients serve multiple markets:

- Nutraceutical
- Dietary supplement
- Cosmetic
- Functional food
