Supervisors-Plant Floor: \$50,000+/yr
Production, Quality, Safety Manager: \$60,000+/yr
Top Manufacturing, Human Resources,
Engineering Executives: \$90,000+/yr

CONSIDER ENGINEERING

The metalcasting industry relies heavily on engineers to make parts. Engineering fields that can funnel into metalcasting include mechanical, electrical, computer, material, industrial manufacturing and chemical.

FIND A COLLEGE TO STUDY METALCASTING

FEF is an educational foundation that serves as an independent extension of metalcasting educational programs at colleges and universities across the country. For a listing of FEF-affiliated and certified schools with metalcasting-related curriculum, visit its website.
