ABOUT

Strategic design for holistic and lifestyle brands ready to take their business to the *next level*.

Creative Type A is a full service creative studio specializing in graphic design, visual identity and web design. Your business is special, and you deserve a designer that offers something different from the status quo. With over 10 years of design experience, my mission is to make the design process as simple and streamlined as possible, providing you with clear, concise steps from start to finish to help you make the right design choices for your brand, so you can *look more professional, charge more money, and stand out from your competitors*.

I believe great design comes from truly understanding the personality of your business, focusing on clean, beautiful and intentional designs, and understanding your whole story, so we can reach the people that matter most to your business while crafting a story that will stand the test of time.

I am passionate about the brands I work with, so it's important that I connect with your product or service on a personal level. I focus my work on small to medium size businesses and do-good brands that promote community and healthy lifestyles. Previous clients include event service brands, wedding planners, interior designers, artisans, wellness, health & fitness brands, nutritionists, yoga & holistic service providers, and natural products.

OFFICE HOURS

My office hours are Monday through Friday, 9 am to 6 pm, Pacific Standard Time, and am closed on all major holidays and the entire week of Christmas and New Years. All communication after booking your project will take place in a project manager. Phone or Skype calls must be scheduled in advance.

SCHEDULING + COMMUNICATION

After we've had a chance to chat about your project in more detail and you are ready to move forward, I will create a schedule for your project in my calendar with an expected start date and determined timeline. I ask that during your scheduled time you make yourself available and check your email or client portal often to stay on top of things and complete tasks that are assigned to you on schedule. Once your scheduled timeline has come to an end, I will no longer be able to give your project the attention it deserves. Work outside of the scheduled timeline may incur late fees, so it's important that we stay on track during our time together.

CONTENT

Some projects will require you to provide me with content, such as text copy or images. I ask that you have all your content delivered by our scheduled start date to ensure there are no delays in our timeline. It is important that you have the necessary rights or ownership for me to use the images you provide, and that all text copy has been checked for spelling and grammatical errors before use in your designs. To ensure your project stays on schedule, I am unable to proof or edit the content you provide. If you need help with finding stock photography or writing compelling content, I am happy to create a custom quote for you.

AVAILABILITY

To ensure each brand I work with gets the attention it deserves, I only take on a limited number of projects each year. I typically book projects 2+ months in advance. Please contact me directly about my current start date for new work.

THE BOOKING PROCESS

If you are interested in working with Creative Type A on your brand or web design project, please fill out my **project inquiry form** so I may learn a little bit more about you and your business. I will then contact you to schedule a digital coffee date where we can discuss your design needs and brand goals. After we've had a chance to chat about your project in more detail and you are ready to move forward, I will prepare a formal contract for you to sign along with an invoice for the first 50% retainer payment which will reserve your spot in my calendar. Once these items are settled, I will send you a link to your client portal and homework with an expected start date, next steps and determined timeline.

PAYMENT DETAILS

Creative Type A accepts payments via PayPal invoice. Projects may be broken up into milestone payments determined by the scope of project, with 50% is due at the time of booking to reserve a place in the schedule. Remaining payments are due upon completion of each project phase, but before any final files are sent or website launch. The 50% retainer is non-refundable. After delivery of concepts, final files or website launch, refunds are unavailable.

Let's do this!
