MAKING A WORLD OF DIFFERENCE

GET INVOLVED with “DESKS4CLASSROOMS”

Are you sitting comfortably?

Many children in the Primary schools which we are linked to in Malawi have to sit on the floor in the classrooms as there are no desks. This detracts from the children learning well, as not only is it uncomfortable but they have nowhere to put their books and have to use the floor as their desk.

We are wishing to redress this problem by seeking to resource 10 schools in the next 4 months, so that standards 4 to 8 have enough desks for the children in those years. We are able to have desks made in Malawi which are robust and seat three children. The cost of one, three seat desk is £36. (£12 per child).

Are you able to partner with us in this project so that many more children will be able to attend school knowing that they will be able to sit comfortably and therefore engage more in their lessons?

We have called the project “Desks 4 Classrooms” and really hope that with your help we can achieve our goal of equipping the schools with such a basic resource.

Can you help lift the children from sitting on the floor to sitting comfortably at a desk?

Please visit our Just Giving page at
