

My remarks at County Executive, Steve Bellone's press conference announcing Suffolk's clean water initiative.

"Good afternoon everyone, I'm Kevin McAllister of DefendH2O. I want to applaud the County Executive today for this initiative. I know I've probably been very hard on the county for many years now for what I feel has been indifference or a slow-go on innovation in addressing this issue. And, today is a new day. First and foremost, I applaud Suffolk County for the great work they're doing and I know everyone will support clean water. Thank you."
