

# SAVING OUR BEACHES

## **Engineered Shorelines vs. Natural Processes What Are The Costs to Taxpayers and Environment?**

The release of the US Army Corps Fire Island to Montauk (FIMP) coastal plan, and DEC's granting of a permit to the Village of Quogue for a possible dredging and beach fill project is an opportunity for greater public participation in coastal decisions.

**Now is the time for the Quogue Mayor and other elected officials to engage in public discussion about the future of our beaches.**
