

INDIA INSIGHT EXPERIENCE 8-19 JAN 2017

We have much to learn through India. India is the world's epicentre of human trafficking and modern slavery. It will not be ended until it ends in India.

Our trip takes us through the chaos and charm of the streets, slums and red light districts of Mumbai. You will experience the contradictory tranquility of tea gardens in Assam where traffickers operate. You will engage in the dire situation of over 300 million Dalit and Tribal groups who are most susceptible to being trafficked and modern forms of slavery in a visit to Hyderabad.

OVERVIEW

You will meet people whose lives have been directly affected by trafficking. You will spend time and hear the stories of those working on the ground to protect those who are vulnerable. You will be inspired and you will at times be distressed. The focus of the trip will be to learn about the prevention work STOP THE TRAFFIK and local Indian groups are engaging in. You will see the model of community action STOP THE TRAFFIK is developing to resource, equip and mobilise people to take action where they live and build resilient communities. As appropriate, we will join groups in the actions and programs they are running.

You will be accompanied by professionals working in preventing human trafficking and campaigning to end human trafficking. The trip costs what it does because we do not use donors' money to subsidise your trip. Your fee includes leadership costs being covered. We also compensate our partners in India for the time they invest and the cost of hosting us as well as making a donation to their work.
