

Mwendo Congo

Working Together for Health, Education, and Peace

One step closer to a hospital on Idjwi Island!

Idjwi Island is a peaceful yet impoverished island in the Democratic Republic of Congo. There is minimal access to health care on Idjwi, resulting in one of the highest maternal and infant mortality rates in the world

Island leaders are committed to building a hospital with special programs for women and children, and Mwendo Congo shares and supports this vision. Land for the hospital has been purchased with the support of Mwendo Congo and cleared by islanders (pictured above).

In August 2015 over 200 residents, community leaders and Mwendo Congo representatives gathered to bless the land.

The next step in the development of the hospital site is construction of a perimeter wall. Labor, materials and transportation for this project total \$25,000. A contribution of any amount is appreciated and will be honored as a "Gate Opener" gift.

1 brick: \$20 10 bricks: \$200 1 gate: \$5000

Thank you for your support!
