Achieve Now AN | Using technology to transform learning

Introducing Technology to transform learning for dyslexics

Caroline Bateman

Webinar Objectives

- Enable parents to support dyslexic learning

  Save you time by:

  - Raising awareness of solutions
  - Show key solutions in more detail
  - Provide information to find out more
- Whet your appetite so you find out more

This Webinar is being recorded

The menu for tonight

Make you aware there area **HUGE** Banquet of solutions

Provide a Taster Menu to whet your appetite

This Webinar is being recorded

The 1 ½ hour session will include

- Get to know each other
  - Introduce myself – Not wanting to misrepresent myself
  - Find out more about attendees
- Why use technology for learning?
- Specific areas where technology can help
  - Talk - Overview
  - Videos / demo specific solutions
  - More information

Please be patient – NEVER done anything like this before

The 1 ½ hour session will include

- Get to know each other
  - Introduce myself – Not wanting to misrepresent myself
  - Find out more about attendees
- Why use technology for learning?
- Specific areas where technology can help
  - Talk - Overview
  - Videos / demo specific solutions
  - Sign post to more information

All slides and recording will be made available

How will I handle questions?

Let’s get to know each other

Who is Caroline Bateman???

Achieve Now

empowering dyslexics

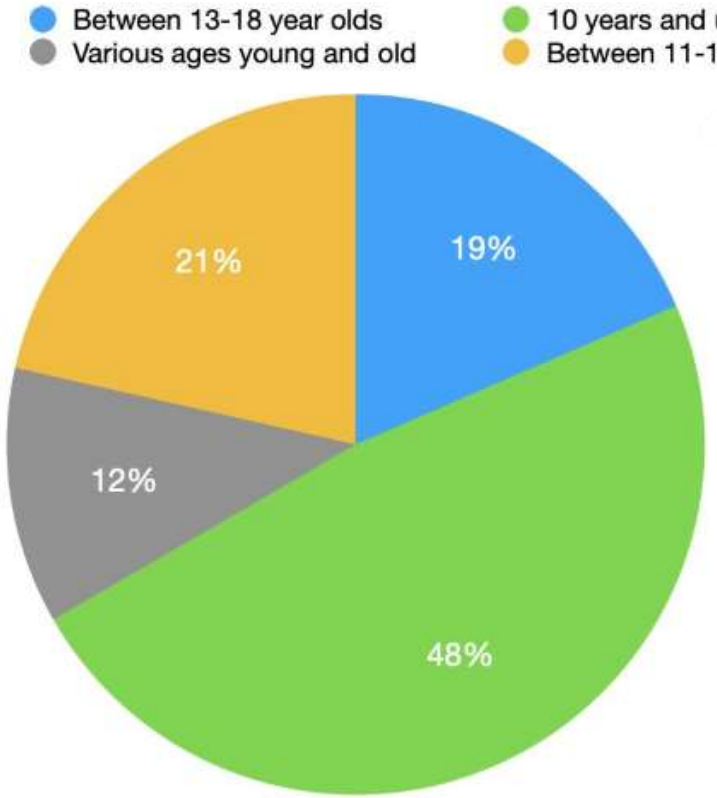
Pass on what I've seen work

- Workshops for regional groups & schools
- Consultancy service for families and schools
- Teach students in school and remotely
- Free 'How to videos'
- Free eBooks
- Free Webinars

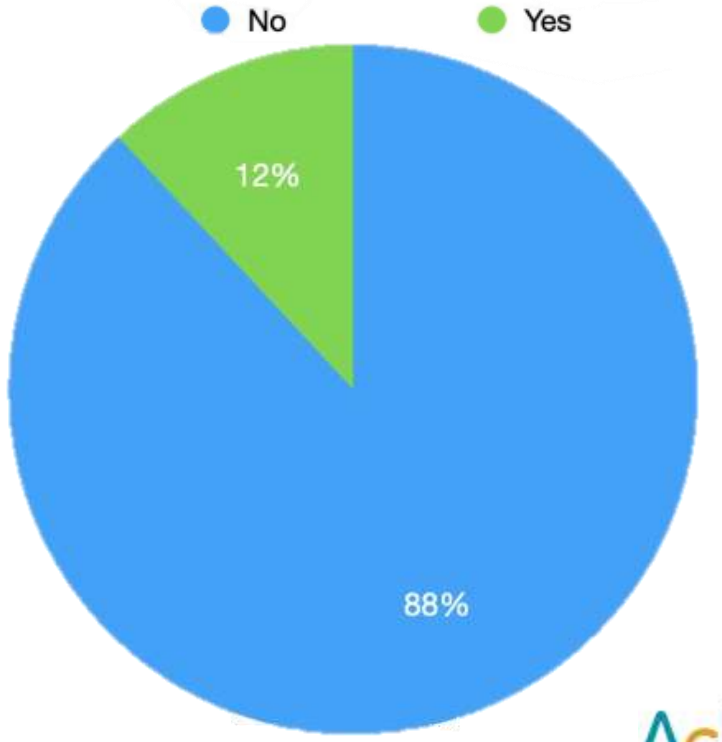
Don't sell any solutions

Thank you for answering these questions

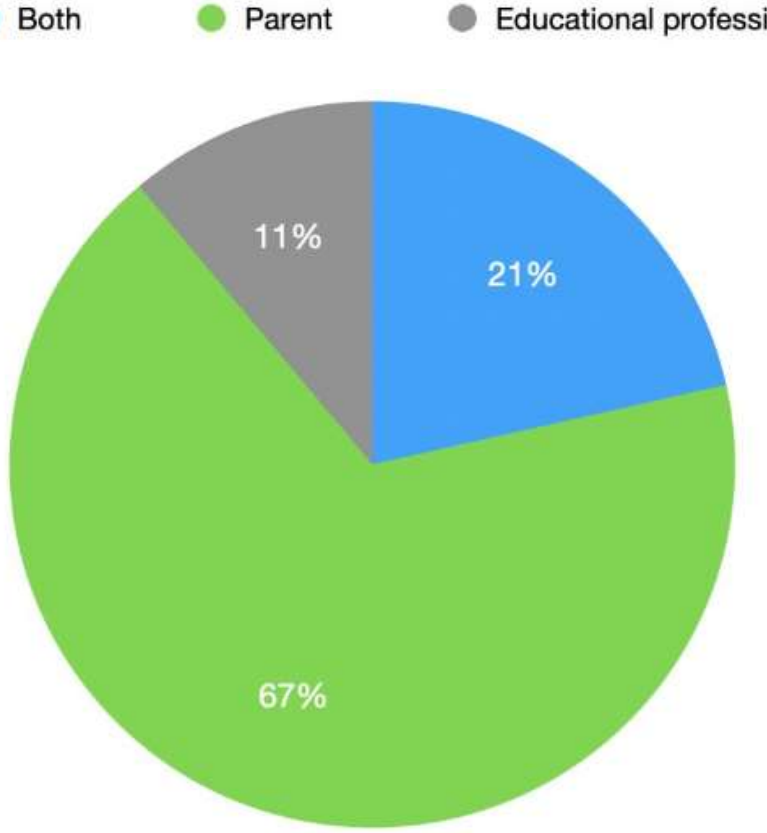
Ages



Previous workshop



In what capacity?



This Webinar is being recorded

Why use technology for learning?

Many children with SpLD are bright

Yet they under achieve academically

Many wrongly believe they are stupid

This Webinar is being recorded

Literacy is mistaken for intelligence

Technology enables students to overcome literacy difficulties

Empowering all learners to achieve their full potential

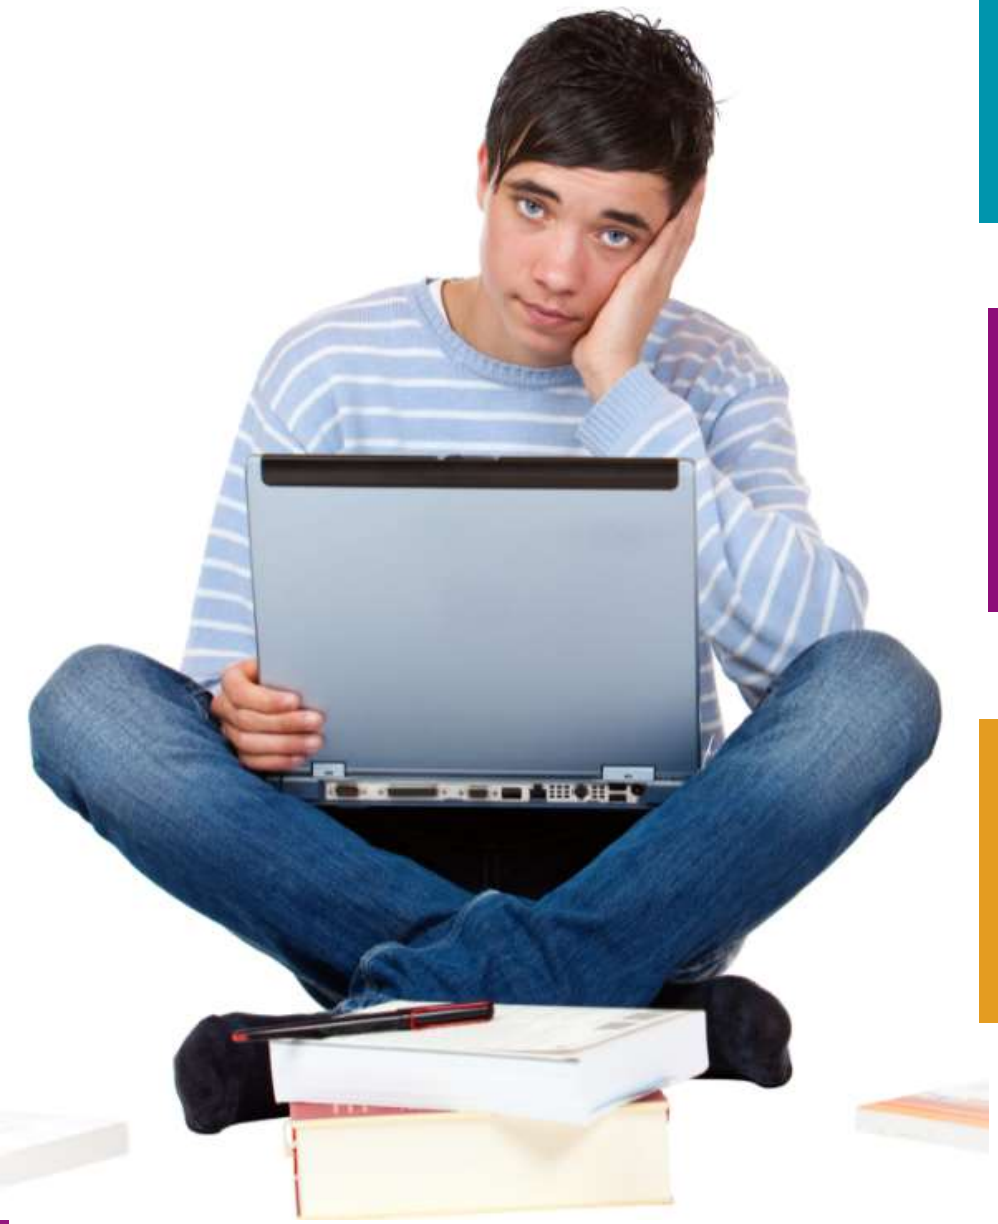
Achieve Now AN | Using technology to transform learning

Life transforming technology is freely available

Few know it exists

Consequently many continue to under achieve needlessly

This Webinar is being recorded



Technology has HUGE potential

It does not guarantee success

How it is implemented is key to raising attainment

Areas where technology can help

Screen
- Identify specific strengths & weaknesses

Read
- Encourage reluctant readers
- Learn to read – fill in literacy gaps
- Access the curriculum

Write
- Spelling and punctuation
- Handwriting
- Note taking
- Create essays or reports

Life skills
- Touch typing
- Dictation
- Telling the time
- Memory
- Prepare for spelling test

Organisation
- Tracker
- Reminders

Mathematics

Assess understanding
- Make lesson interactive
- Quizzes Visual & kinaesthetic competition
- Track progress

Cognitive skills
- Working memory
- Processing speed
- Auditory memory
- Visual memory

Exam Success
- Learning facts
- Improve understanding
- Dealing with distractions

Visual issues
- Eye convergence
- Tracking

Device advice

1.5 hours

Over 200 solutions I could show

Why so many solutions?

- Devices available
  - Microsoft
  - Apple Mac
  - Chrome book
  - iPad
  - Android tablet
- Ease of use
- Budget

Word Online – Immersion Reading

The Pe·ri·od·ic Ta·ble:

As you know there is a cop·y of the pe·ri·od·ic ta·ble in your prep di·a·ry. All of the known el·e·ments are lis·ted in the pe·ri·od·ic ta·ble. Each el·e·ment con·tains on·ly one type of at·om e.g. hy·dro·gen con·tains on·ly hy·dro·gen at·oms, zinc con·tains on·ly zinc at·oms etc.

Def·i·ni·tion of an el·e·ment: An el·e·ment is a sub·stan

You may ask, why aren't wa·ter or car·bon di·ox·ide in t e·cause they are not el·e·ments. They don't con·tain just one type of at·om. Wa·ter (H2O) is made of two types of at·om, name·ly hy·dro·gen and ox·y·gen so wa·ter is not an el·e·ment. Car·bon di·ox·ide (CO2) isn't made of just one type of at·om ei·ther. Car·bon di·ox·ide con·tains car·bon and ox·y·gen and so car·bon di·ox·ide is not an el·e·ment.

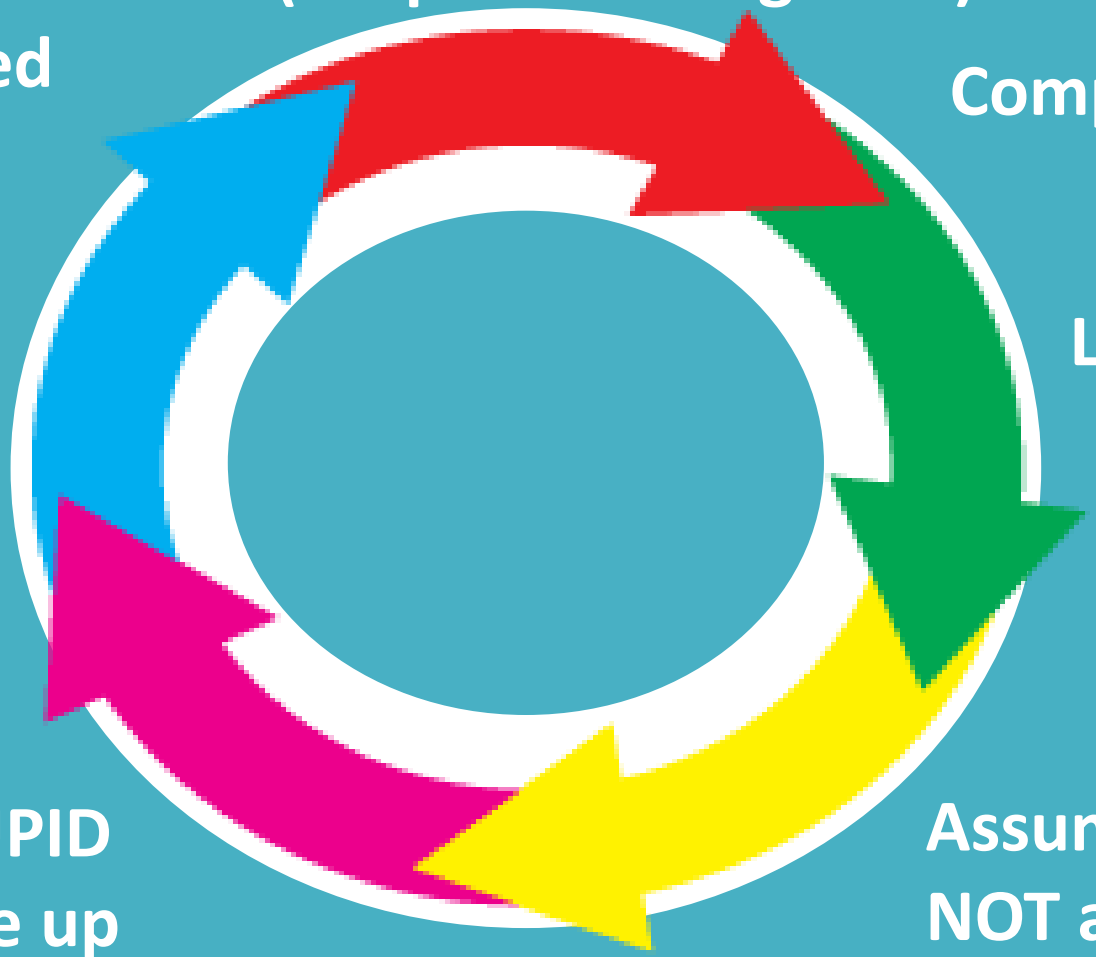
What must students do to be assessed?

Produce written work

Achieve Now AN | Using technology to transform learning

Performance Gap Spiral over time

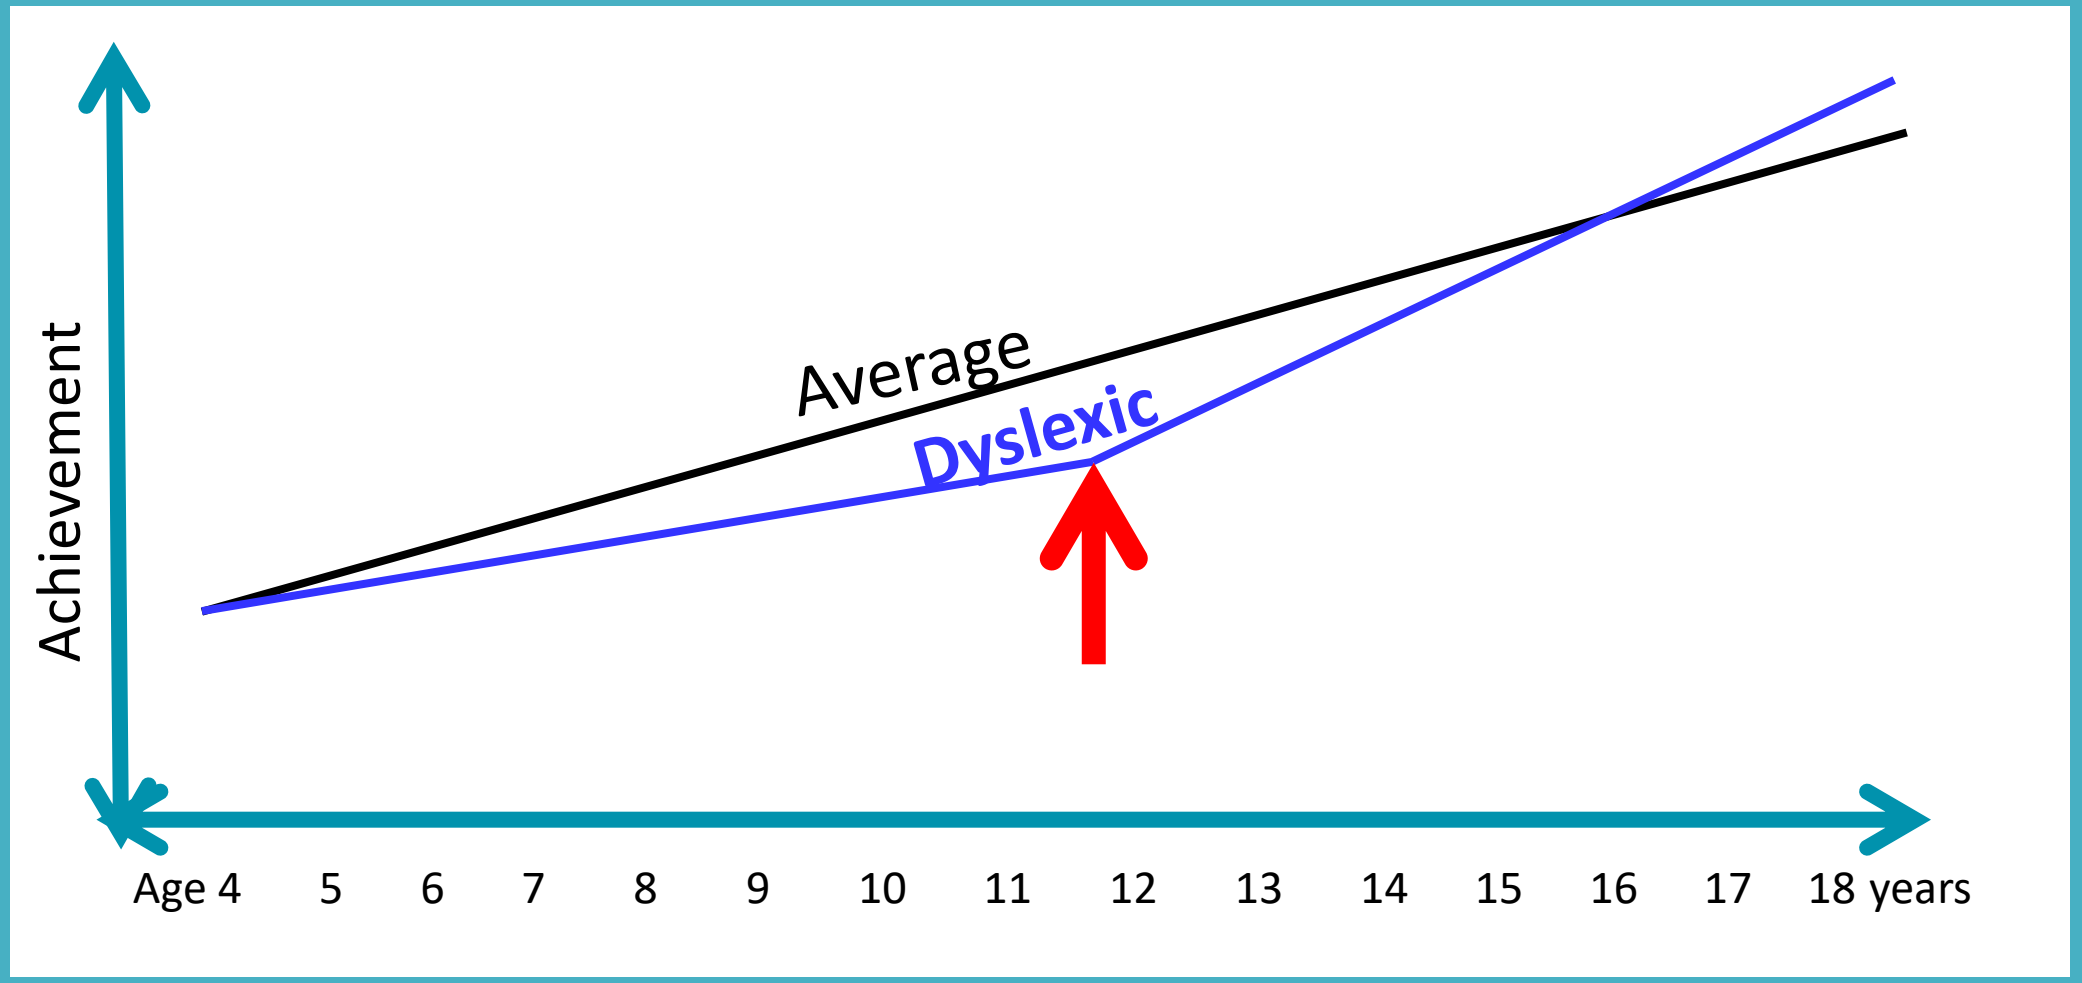


This Webinar is being recorded

Achieve Now AN

Using technology to transform learning

Technology to reduce the attainment gap



Options for creating written work

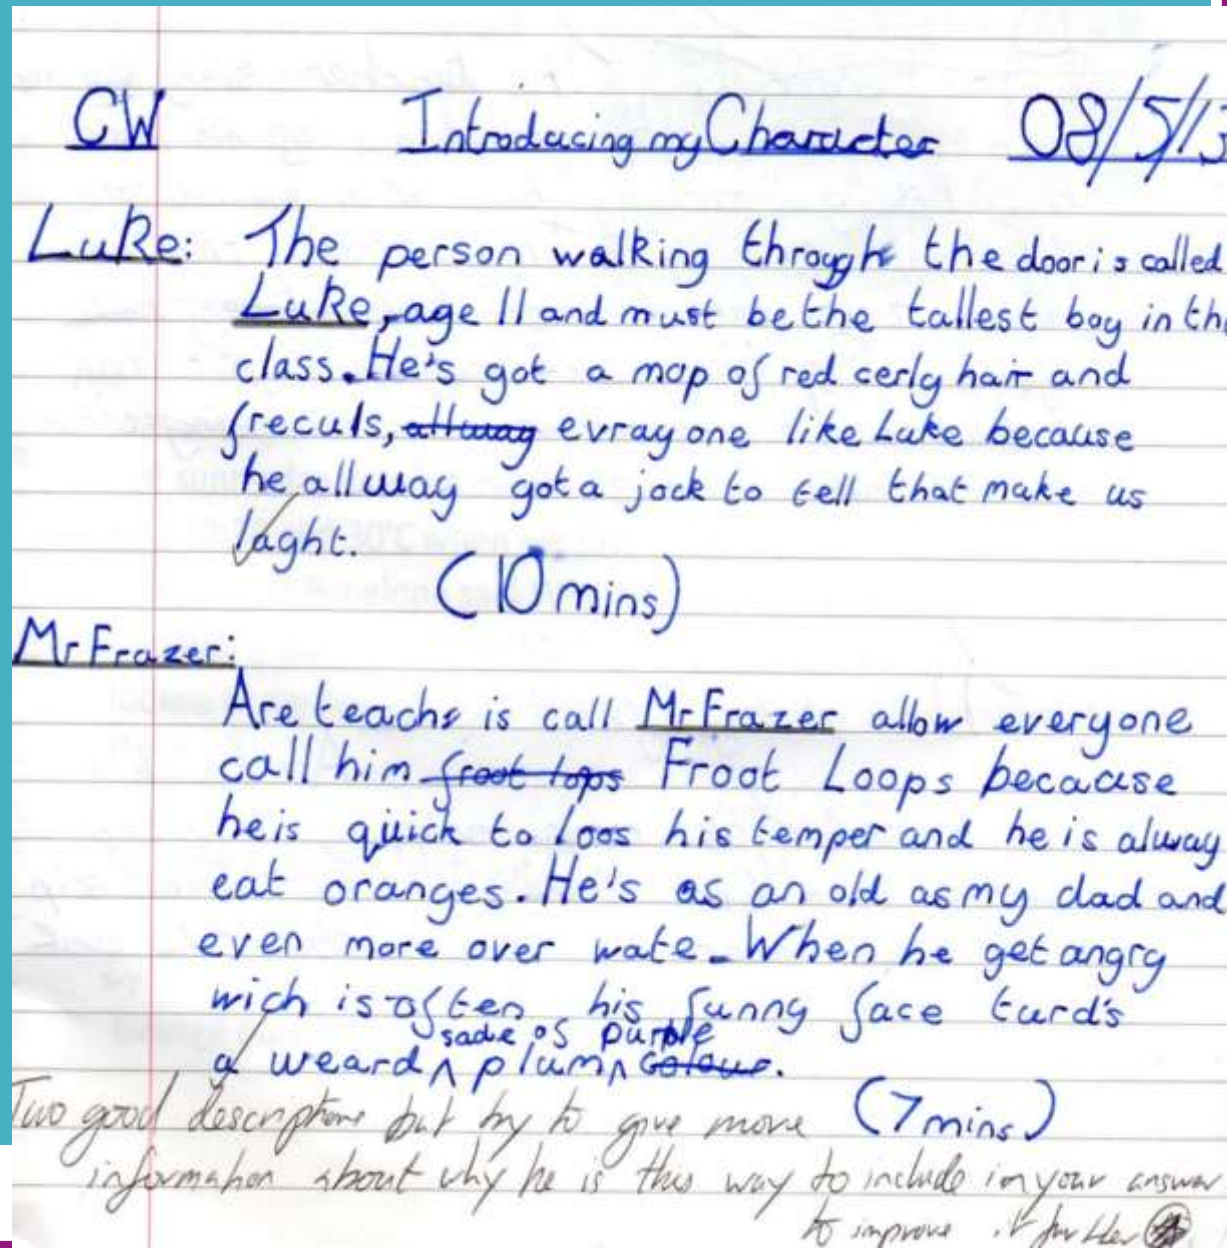
- Handwriting
- Touch typing
- Clicker
- Mind map
- Dictate

Touch typing

- Dyslexic students entering secondary school with typing as their normal way of working are at an advantage academically.
- Educational psychologist often recommend dyslexics learn to type.
- There are many good, free teach yourself typing solutions.
- Few dyslexic students are proficient typists.
- Many give up on education before they reach secondary school, wrongly believing they are stupid.

Written work

- Written work is how students are marked / judged.
- If poor quality a students talent goes unrecognised.
- This piece has typical dyslexic mistakes
- Hard to see own mistakes



CW Introducing my Character 08/5/1

Luke: The person walking throught the door is called Luke, age 11 and must be the tallest boy in th class. He's got a mop of red cerly hair and freculs, ~~alllaaag~~ evray one like Luke because he allway got a jock to tell that make us laght. (10 mins)

Mr Frazer:

Are teachs is call Mr Frazer allow everyone call him ~~froot tops~~ Froot Loops becacse he is quick to loos his temper and he is alway eat oranges. He's as an old as my dad and even more over wate. When he get angry wich is often his sunny face turd's a weard ^ sadie ^ plum ^ ~~Colour~~ purple. (7 mins)

Two good descriptions but try to give more information about why he is this way to include in your answer to improve. Jon Hall
