

## **Apart Together**

### *Verse 1:*

My Emotion is a silhouette  
Girl you tell me just how real it gets  
Come bring me into serenity  
We could still fall forever like a leaf  
I think I'm falling for you falling for you  
I feel like olives in the garden that's not right  
My mama told me, she doesn't well  
Don't know the difference between life and hell  
Sing my name say it loud cause girl I could be down and out  
Cilantro in the shell Imma only count to twelve babe you are my living hell  
Living hell  
Living

### *Chorus:*

We could be apart forever  
We could be a pa-a-art together  
You're my construction  
We could keep building up all of this lovin'  
This lovin' that we do (X2)

### *Verse 2:*

We can tell everyone just what we like  
Babe the only thing that cuts me is your knife So just  
Keep it simple keep it simple  
We could be apart together and that's the issue  
When you walk through my door  
When I get you from the main floor  
Girl I can turn around and guide you  
I've got too many faces This ain't lies  
It's true  
It's me and you It's me and you  
This is what we do

### *(Chorus)*

### *Verse 3:*

She say that we can only be lovers not friends  
Then she ask me just what of it is pretend  
Let's count to ten / Let's breathe it out and in and start again again  
It is so wrong the way we want each other  
In our past life I think that all of us were brothers  
This feels like the intro but it's almost over so you put on your peacoat  
And we go
