

Chimera

A mythical creature or a hybrid through the fusion of two species? You tell us.

Chimera embodies Gibson's approach to creating concept cocktails, through exploring the bonding of produce and product in perceptive ways. Testament to our ethos and our commitment to innovate and change with the times, we are consistently looking within our borders and the region to bring the freshest and best produce from the source to the glass.

Weaving them into classic cocktail structures to create something new and inspiring, we hope you enjoy our new menu as much as we do.

The Gibson

Redefining our namesake cocktail with the Japanese ethos of simplicity and perfection. Dry, full of umami, and a hint of fruitiness.

Old Fashioned

The very definition of a cocktail, and we don't see the need to mess with that.

Golden Mimosa

The perfect blend of nectar-like golden passionfruit and Langjiu. Funky and effervescent – just how we like it.

Mango PX

Taking inspiration from Pedro Ximénez sherry, we make wine from Philippine mangoes. It's fortified with fine cognac, then aged with American oak.

Back to the Roots

With the unique addition of Chinese licorice root, our take on the classy Manhattan cocktail is perfected with the fruity umami of tomato.

Our Friends

Starter Culture

As a local food biotechnology start-up that harnesses molecular farming, *Starter Culture* has stood out with its portfolio of fermentation-derived flavours and fragrances. Founded in 2018 by Singapore's "*Prince of Fermentation*", DJ Tan, Starter Culture has been one of our most passionate collaborators, working alongside us to push the boundaries of innovation. Try our dream work in the Amazake Bellini, Sugarcane Spritz, and Barley Sour!

Edible Garden City

Another long-term partner that Gibson is proud to work with is *Edible Garden City*, a social enterprise that champions the Grow-Your-Own-Food movement in cities around the world to improve food sustainability and resilience - starting here in Singapore.

The dedication to creating social change through community-centric agriculture is evident from the completion of more than 260 food gardens locally since 2012. The cranberry hibiscus they grow is at the heart of Gibson's Urban Farmer No. 4 - the fourth in the series of cocktail collaborations with Edible Garden City.
