

3 Magic Seeds to Start Your Business: *Passion, Sales, and Profit*

1. Passion. What do you love? What can you make, by yourself, with your very own hands? Who might find that useful or enjoyable?

2. Sales. How could you sell this product or service? Would it be sold as one piece or a set? Would it be expensive or inexpensive? What types of people would you try to attract to your booth to buy this? Can you sell your product or service for more than it cost you to make?

3. Profit. You might make some money! How would it feel if you made a profit? What are some things you could do with this money? Would you do things that are immediately fun, would you save your money, or might you do a little bit of both?
